2. **Nature and/or Description of the Action Being Processed:**

This action will result in a firm fixed price contract for Avatar AM (Addiction Management) software. This is Netsmart's fourth generation information system designed to serve the clinical needs of Methadone provider offering a comprehensive approach to outpatient substance abuse management. Avatar AM provides efficient tools for Inventory Management, Client Enrollment and Tracking, Medication Orders and Dispensing among other capabilities and replaces the previous edition from which the contractor provided, installed and maintained. Contractor shall provide 10, one-time user software licenses of the Avatar AM and Cache software to be used to facilitate the Methadone Dispensing Program. In addition to the procurement of the software, the vendor, with the oversight of the IT Department, install the software to the designated computer workstations. Included in installation, the vendor will provide all necessary labor, management, supervision, technical skills, quality control, materials, tools, transportation, equipment, staff training, and one year warranty services necessary.

3. **Description of Supplies/Services Required to Meet the Agency's Needs:**

The estimated cost is \$85,375.00

4. Statutory Authority Permitting Other than Full and Open Competition:

- (X) (1) Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements per FAR 6.302-1;
 () (2) Unusual and Compelling Urgency per FAR 6.302-2;
 () (3) Industrial Mobilization, Engineering, Developmental or Research Capability or Expert Services per FAR 6.302-3;
 () (4) International Agreement per FAR 6.302-4
 () (5) Authorized or Required by Statute FAR 6.302-5;
 () (6) National Security per FAR 6.302-6;
 () (7) Public Interest per FAR 6.302-7;

5. Demonstration that the Contractor's Unique Qualifications or Nature of the Acquisition Requires the Use of the Authority Cited Above (applicability of authority):

This contract is being procured on a sole source basis due to Netsmart having unique knowledge of the Methadone Dispensing software. This is a proprietary system meeting the requirements of Homeland Presidential Security Directive 12 (HSPD12) and Federal Information Processing Standards 201 (FIPS 201). This contract is for use in a highly sensitive area, highly regulated, very specific program. Netsmart has performed the installation of and maintenance on the current software that is being replaced as part of the proposed new Methadone dispensing system. Accordingly, full and open competition is precluded and Netsmart will be utilized to ensure compatibility and maintain control access to the pharmacy and clinic staff.

6. Description of Efforts Made to ensure that offers are solicited from as many potential sources as deemed practicable:

This procurement was not competed/synopsized due to Netsmart having propriety rights on the software being utilized for the dispensing of medication in the Methadone Dispensing Clinic (See item 4&5).

7. Determination by the Contracting Officer that the Anticipated Cost to the Government will be Fair and Reasonable:

The price is determined to be fair and reasonable based on prices paid by other VA facilities. At the time I am writing this, the VA facility, Richard L. Roudebush Medical Center in Indianapolis, IN is creating an award for a similar requirement. I spoke with Purchasing Agent Joyce Miller (joyce.miller@va.gov). Her requirement was competed as open market, unrestricted (VA251-13-Q-0651, Closed 9/4/2013). She only received one offer from Netsmart. We compared items that were similar and determined the prices to be same or very close.

8. Description of the Market Research Conducted and the Results, or a Statement of the Reasons Market Research Was Not Conducted:

Market research was conducted; see the attached Market Research Documentation.

9. Any Other Facts Supporting the Use of Other than Full and Open Competition:

N/A

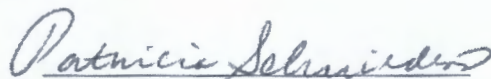

10. Listing of Sources that Expressed, in Writing, an Interest in the Acquisition:

N/A

11. A Statement of the Actions, if any, the Agency May Take to Remove or Overcome any Barriers to Competition before Making subsequent acquisitions for the supplies or services required:

No actions are planned by the agency. Since the necessary software is a proprietary product of Netsmart, it can only be provided by one source.

12. Requirements Certification: I certify that the requirement outlined in this justification is a Bona Fide Need of the Department of Veterans Affairs and that the supporting data under my cognizance, which are included in the justification, are accurate and complete to the best of my knowledge and belief.
