Customer Loyalty Upgrade Optima  
XR220amx 30kW

Customer Loyalty Upgrade Optima  
XR220amx Digital Mobile Radiographic  
system - with 30kW generator

The Optima XR220amx is a  
self-contained battery operated mobile  
radiographic digital X-Ray imaging  
system designed for performing  
radiographic exams at the point of care

**Key Features**

- 30kW generator
- Wireless Digital Detector with 6:1  
removable grid, back-up tether,  
QAP (Quality Assurance  
Proceedure)
- Dose Area Product Meter (DAP)
- Capable of 100-240V nominal,  
50/60 Hz operation
- Stand-by mode to eliminate boot  
up cycles and allow exposure  
within 25 seconds
- Exposures can be taken and  
processed while the unit is  
charging
- Detector battery charges  
automatically while while the  
detector is in the bin
- Optimized GUI - Technique, image  
acquisition and display tools in a  
single integrated user interface
- The detector can be used in  
additional wireless enabled GE  
radiographic systems: please refer  
to the current literature for system  
compatibility
