Item No.	QTY	DESCRIPTION

1   **1**   LOGIQ E9 BT11 120v With DICOM Console

Innovative Features: Agile Acoustic Architecture with flexible clinically based mathematical models of the body for enhanced image quality, industry leading CrossXBeam (Spatial Compounding), SRI HD (Speckle Reduction Imaging in High Definition) with Organ Specific Imaging, and Coded Harmonics. Productivity through many features such as Raw Data for post-processing of images, Automatic Optimization, Virtual Convex, and Advanced 3D (w/ multiplanar displays). Advanced ergonomics including 19" color flat panel monitor (1280x1024) with fully articulating arm, motorized fully adjustable console, 10.4" color LCD touch screen, four active transducer ports with patented cable hook. Scanning modes include B-Mode, M-Mode, Color Flow, Pulsed Wave, and Power Doppler. Other system features 384MB cine memory, -150GB internal hard drive, DVD-R, image archive, built-in gel warmer, user footrest and integrated on-board black and white printer bay, and user programmable preset parameters. Comprehensive software annotation, calculations, and worksheets supporting obstetrical, gynecological, vascular and general imaging applications.

Includes a DICOM software package providing Verify, Print, Store, Multiframe, Modality Worklist, MPPS (Modality Performed Procedure Step), Storage Commitment, and Media Exchange. Additionally, supports Query/Retrieve and Structured Reporting. Does not include network hardware, which may be required. Includes initial installation and connection to customer network.

Includes one-year warranty and three days of On-site Applications Training. Additional On-site Applications Training days are available for purchase. Attendance to advanced technology training at the GE Healthcare Education Center in Metro

Milwaukee can be purchased separately.

2   1   C1-5-D Convex Transducer

Broad-spectrum convex transducer. Preferred applications: abdominal, obstetrics, gynecological, urology, and vascular. Biopsy kit available.

3   1   9L-D Linear Transducer

Broad-spectrum linear transducer. Preferred applications: vascular, small parts, pediatric, and abdomen. Biopsy kit available.

4   1   ML6-15-D Matrix Linear Array Transducer

Matrix array broad-spectrum linear transducer. Preferred applications: small parts, vascular, pediatrics, neonatal, breast, thyroid, scrotal. Biopsy kit available.

Item No.	QTY	DESCRIPTION
5	1	S1-5 Sector Transducer

Broad-spectrum sector transducer. Preferred applications: abdominal, obstetrics, and gynecological. Biopsy kit available.

6	1	Scan Assistant

Procedure automation program that intuitively assists the user with customizable system functions at each step of the study to streamline productivity, enhance consistency and reduce keystrokes. Scan Assistant automatically invokes exam imaging modes and parameters, advances to the next step in an exam, annotates the image, initiates measurements, and assigns the measurements to the worksheet/report. Offline Scan Assistant creator included to customize Scan Assistant programs.

7	1	LOGIQVIEW

Integrated, extended field of view B-mode imaging with measurement capability. Available on all linear and convex transducers.

8	1	LOGIQ E9 Technology Course: Full Service Package

– Product-specific training

– Training conducted at GE Healthcare Institute

– All inclusive pricing package

This 2.5-day course is designed to help customers realize the full potential of their technology investment. Instruction includes: Advanced physics and instrumentation, in-depth technology review and image optimization and customization. Highlights include technical and clinical lectures as well as focused hands-on scanning under the supervision of product experts. Course must be redeemed within one year of purchase.

Full service package includes: Course tuition, airfare, hotel and breakfast/lunch while in training for one attendee. This course is approved for SDMS credit.
