☐ Specific characteristics of the material or service that limit the availability to a sole source (unique features, function of the item, etc) Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

The Ingenia 1.5 MRI is a highly specialized medical device that requires Philips trained technical service reps to provide preventive maintenance and repairs. Philips to provide all repairs parts needed for service within a 24 hour period of diagnoses. The service agreement includes the Magnet Maintenance Package which covers cryogens, magnet insurance, cold head and helium fills; this significant due to the current worldwide shortage of helium.

☐ A patent, copyright or proprietary data limits competition. The proprietary data is:
Philips Medical has a patent on the remote diagnostics monitoring which allows for service trained engineers to remotely monitor and observe any abnormal readings or warnings 24 hours a day.

☐ These are "direct replacements" parts/components for existing equipment.
All parts will have to from Philips Medical Systems due to the unavailability of aftermarket parts. With that said, Philips medical has first priority for any and all repair parts.

☐ An urgent and compelling need exists, and following the ordering procedures would result in unacceptable delays.

(5) DESCRIBE WHY YOU BELIEVE THE ORDER REPRESENTS THE BEST VALUE CONSISTENT WITH FAR 8.4 TO AID THE CONTRACTING OFFICER IN MAKING THIS BEST VALUE DETERMINATION:

We believe that this is the lowest overall cost alternative (considering price, special features, administrative costs, etc.) to meet the Government's needs thus providing the best value consistent with FAR 8.4 because maintenance and repairs for the Philips Ingenia must be serviced and repaired through the mandatory FSS contract of Philips, utilizing their FSS schedule V797P-6011B.

(6) DESCRIBE THE MARKET RESEARCH CONDUCTED AMONG SCHEDULE HOLDERS AND THE RESULTS OR A STATEMENT OF THE REASON MARKET RESEARCH WAS NOT CONDUCTED

The market research conducted: Searched the internet for services and repairs for the Ingenia 1.5 MRI and found that only Philips can service and repair the equipment. Went to NAC Med Surgial catalog and queried Philips and found that the company Philips is an FSS contract holder for the services and supplies under schedule V797P-6011B. All the required services and products are on their NAC schedule. The emergency quote received is consistent to their NAC schedule pricing. A solicitation will be sent to Philips as they are the only source available to deliver these services.

(7) ANY OTHER FACTS SUPPORTING THE JUSTIFICATION:

N/A

(8) A STATEMENT OF THE ACTIONS, IF ANY, THE AGENCY MAY TAKE TO REMOVE OR OVERCOME ANY BARRIERS THAT LED TO THE RESTRICTED CONSIDERATION BEFORE ANY SUBSEQUENT ACQUISITION FOR THE SUPPLIES OR SERVICES IS MADE:

The Biomedical Department at the Daytona Outpatient Clinic continuously evaluates the market availability of comparable products and may replace this equipment in the future as needed.
