**RFI No. 28 in Amendment No. A00005, Attachment 1 is revised as follows:**

RFI No. 28:

Key Note 6 on E-101, 8 on E-102, 6 of E-103 and 6 on E-103 states the new nurse call devices shall match and be compatible with existing system. This conflicts with Equipment and Accessories Schedule EQ21 on AE-602 states the existing system to be replaced and it is government furnished contractor installed.

- a) Please clarify if existing system is to remain in place or be replaced.
- b) Please provide existing system manufacturer.
- c) If it is to be GFCI, please provide the nurse call manufacture and parts list for bidding.

**Delete VA Response to RFI No. 28, Amendment No. A00005 date 11-21-2013:**

- a) All nurse calls are existing to remain in place.
- b) West-Com System serviced by CLIMATEC.
- c) All nurse calls are existing to remain in place.
- d) Please review VA response to RFI No. 25.

**Substitute with the following VA Response to RFI No. 28:**

**Revise Accessories Schedule on AE-602 (EQ21) to state under remarks column "Protect existing Nurse Call pull cord station. Relocate, if required." We note the**
