Option Year IV Total					\$

TOTAL PRICE (Base Year + Option Years)

\$_____

\$_____

Note (Applicable to Base and Option Years): As equipment may change over the life of the contract, annual pricing provided shall be based on the radiographic equipment specified in the statement of work plus or minus 10% (based on number of tubes).

*Note: Base year rate will be pro-rated by the number of months from the time of award to the end of the current fiscal year, e.g., award on March 1 would result in a pro-ration of 7/12 (7 months vs 12 months) of the proposed prices which should be offered as if a full year of service will be provided.

**Note: Line items with double asterisks are not anticipated to be required at award. Pricing should still be provided in the event that they are needed at a later date, such that it can be incorporated into the contract.
