

REQUESTS FOR INFORMATION: VA261-14-R-0188 Replace Cooling Tower Media

1. There is some confusion in the scope of work. In the listing of new items to be provided and installed there is no mention of Inlet Screens. Yet, 5 lines beneath the items listed, there is a section titled Inlet Screen. This section implies that new screens are to be provided and installed - please clarify. Also, in the Inlet Screen section, the second sentence speaks of louvers being individually removable and in sections no greater than 48" wide, allowing for ...etc... Is this a typo? Did you mean Inlet Screens? Please read and clarify scope ASAP.

**VA Answer:**

1. **The Inlet Screen is part of the project, provide galvanize Inlet Screen.**
2. **The louvers section dimension shall meet existing cooling tower media. 48" that was specified in scope of work is no longer required.**
