

Quality Assurance Surveillance Plan Community Resource and Referral Center (CRRC)

The contractor will be evaluated in accordance with the following:

1. PURPOSE

This Quality Assurance Surveillance Plan (QASP) provides a systematic method to evaluate performance for the stated contract. This QASP explains the following:

- What will be monitored.
- How monitoring will take place.
- Who will conduct the monitoring.
- How monitoring efforts and results will be documented.

This QASP does not detail how the contractor accomplishes the work. Rather, the QASP is created with the premise that the contractor is responsible for management and quality control actions to meet the terms of the contract. It is the Government's responsibility to be objective, fair, and consistent in evaluating performance.

This QASP is a "living document" and the Government may review and revise it on a regular basis. However, the Government shall coordinate changes with the contractor through contract modification. Copies of the original QASP and revisions shall be provided to the contractor and Government officials implementing surveillance activities.

2. GOVERNMENT ROLES AND RESPONSIBILITIES

The following personnel shall oversee and coordinate surveillance activities.

a. Contracting Officer (CO) – The CO shall ensure performance of all necessary actions for effective contracting, ensure compliance with the contract terms, and shall safeguard the interests of the United States in the contractual relationship. The CO shall also assure that the contractor receives impartial, fair, and equitable treatment under this contract. The CO is ultimately responsible for the final determination of the adequacy of the contractor's performance.

Assigned CO: Travis Johnson

Assigned CS:

Organization or Agency: Department of Veterans Affairs

b. Contracting Officer's Representative (COR) – The COR is responsible for technical administration of the contract and shall assure proper Government surveillance of the contractor's performance. The COR shall keep a quality assurance file. The COR is not empowered to make any contractual commitments or to authorize any contractual changes on the Government's behalf.

Assigned COR: Community Resource and Referral Center Coordinator

Organization or Agency: VA Central Iowa Healthcare System- Homeless Programs

3. PERFORMANCE STANDARDS

The contractor is responsible for performance of ALL terms and conditions of the contract. CORs will provide contract progress reports quarterly to the CO reflecting performance on this plan and all other aspects of the resultant contract. The performance standards outlined in this QASP shall be used to determine the level of contractor performance in the elements defined.

Quality Assurance Surveillance Plan Community Resource and Referral Center (CRRC)

Performance standards define desired services. The Government performs surveillance to determine the level of Contractor performance to these standards.

The Performance Requirements are listed below in Section 6. The Government shall use these standards to determine contractor performance and shall compare contractor performance to the standard and assign a rating. At the end of the performance period, these ratings will be used, in part, to establish the past performance of the contractor on the contract.

4. METHODS OF QA SURVEILLANCE

Various methods exist to monitor performance. The COR shall use the surveillance methods listed below in the administration of this QASP.

- a. **VALIDATED USER/CUSTOMER COMPLAINTS:**
Reports from Veterans and Contractor staff and PATS reports that will be reviewed by CRRC Coordinator. CRRC Coordinator will discuss any complaints with Contractor and investigate any complaint and determine if valid.
- b. **VERIFICATION AND/OR DOCUMENTATION PROVIDED BY CONTRACTOR:**
Daily sign-in logs will be monitored for accuracy of billing.
Completion of initial paperwork and faxed to CRRC Coordinator or designee.
- c. **PERIODIC INSPECTIONS:**
Initial inspection prior to award of contract.
Semi-annual inspections of facility and paperwork.
All inspections and reports will be conducted in compliance with VA Privacy and Information Security Standards.

PERFORMANCE MEASURES

Measures	PWS Reference	Performance Requirement	Standard	Acceptable Quality Level	Surveillance Method
Key Personnel	Personnel- Page 7 SOW- 13, page 5 Contractor Staff Conduct/Complaints Handling, page 7	Provide adequate staffing with appropriate training.	Qualified personnel are available and in location as needed to properly perform tasks as specified.	95%	Veteran Report, CRRC Staff Observation
Quality Assurance Documentation	Section 2: Orientation/Registrat ion- Page 4 SOW-16 & 17, page 5	Reviewable records of logs, initial paperwork completed.	Accurate daily logs-faxed on time, initial paperwork fully completed and faxed.	90%	Daily faxed logs and initial paperwork also monthly billing invoices.

Quality Assurance Surveillance Plan Community Resource and Referral Center (CRRC)

Privacy, Confidentiality and HIPPA	IT Contract Security, pages 10-20	Contractor is aware of all laws, regulations, policies and procedures relating to Privacy, Confidentiality and HIPPA and complies with standards	Zero breaches of privacy or confidentiality	100%	Contractor to provide evidence of annual training required by VAMC, reports violations per VA Directive 6500.6.
Mandatory Training	Personnel, page 7	Contractor completes all mandatory training	Contractor will complete all required training per VAMC policy	95%	Contractor to provide documented evidence or TMS reports.
Timely Invoicing	SOW- page 7	Within 10 business days of the end of each month services were provided, as described above, the vendor shall provide itemized invoicing.	All itemized invoices provided within 10 business days of end of each month services delivered	95%	Inspection.
Patient Safety	SOW- 18, 27 & 28, page 6	Patient safety incidents must be reported utilizing the facility's incident report form.	All incidents reported immediately (within 24 hours)	100%	Direct observation

7. RATINGS

Metrics and methods are designed to determine rating for a given standard and acceptable quality level. The following ratings shall be used:

EXCEPTIONAL:	<p>Performance meets contractual requirements and exceeds many to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor were highly effective.</p> <p>Note: To justify an Exceptional rating, you should identify <u>multiple</u> significant events in each category and state how it was a benefit to the GOVERNMENT. However a singular event could be of such magnitude that it alone constitutes an Exceptional rating. Also there should have been NO significant weaknesses identified.</p>
VERY GOOD:	<p>Performance meets contractual requirements and exceeds some to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor were effective.</p> <p>Note: To justify a Very Good rating, you should identify a significant event in each</p>

Quality Assurance Surveillance Plan Community Resource and Referral Center (CRRC)

	<i>category and state how it was a benefit to the GOVERNMENT. Also there should have been NO significant weaknesses identified.</i>
SATISFACTORY:	<p>Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.</p> <p>Note: To justify a Satisfactory rating, there should have been only minor problems, or major problems the contractor recovered from without impact to the contract. Also there should have been NO significant weaknesses identified.</p>
MARGINAL:	<p>Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being assessed reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.</p> <p>Note: To justify Marginal performance, you should identify a significant event in each category that the contractor had trouble overcoming and state how it impacted the GOVERNMENT. A Marginal rating should be supported by referencing the management tool that notified the contractor of the contractual deficiency (e.g., Management, Quality, Safety or Environmental Deficiency Report or letter).</p>
UNSATISFACTORY:	<p>Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element being assessed contains serious problem(s) for which the contractor's corrective actions appear or were ineffective.</p> <p>Note: To justify an Unsatisfactory rating, you should identify multiple significant events in each category that the contractor had trouble overcoming and state how it impacted the GOVERNMENT. However, a singular problem could be of such serious magnitude that it alone constitutes an unsatisfactory rating. An Unsatisfactory rating should be supported by referencing the management tools used to notify the contractor of the contractual deficiencies (e.g. Management, Quality, Safety or Environmental Deficiency Reports, or letters).</p>

8. DOCUMENTING PERFORMANCE

a. The Government shall document positive and/or negative performance. Any report may become a part of the supporting documentation for any contractual action and preparing annual past performance using CONTRACTOR PERFORMANCE ASSESSMENT REPORT (CPAR).

b. If contractor performance does not meet the Acceptable Quality level, the CO shall inform the contractor. This will normally be in writing unless circumstances necessitate verbal communication. In any case the CO shall document the discussion and place it in the contract file. When the COR and the CO determines formal written communication is required, the COR shall prepare a Contract Discrepancy Report (CDR), and present it to CO. The CO will in turn review and will present to the contractor's program manager for corrective action.

The contractor shall acknowledge receipt of the CDR in writing. The CDR will specify if the contractor is required to prepare a corrective action plan to document how the contractor shall correct the unacceptable performance and avoid a recurrence. The CDR will also state how long after receipt the contractor has to present this corrective action plan to the CO. The Government shall review the contractor's corrective action

Quality Assurance Surveillance Plan Community Resource and Referral Center (CRRC)

plan to determine acceptability. The CO shall also assure that the contractor receives impartial, fair, and equitable treatment. The CO is ultimately responsible for the final determination of the adequacy of the contractor's performance and the acceptability of the Contractor's corrective action plan.

Any CDRs may become a part of the supporting documentation for any contractual action deemed necessary by the CO.

9. FREQUENCY OF MEASUREMENT

a. Frequency of Measurement.

The frequency of measurement is defined in the contract or otherwise in this document. The government (COR or CO) will periodically analyze whether the negotiated frequency of surveillance is appropriate for the work being performed.

b. Frequency of Performance Reporting.

The COR shall communicate with the Contractor and will provide written reports to the Contracting Officer quarterly (or as outlined in the contract or COR delegation) to review Contractor performance.
