

This architectural floor plan depicts the layout of Building 52, which is part of the Correct Physical Security Deficiencies project. The plan is oriented with the main entrance at the top. The layout includes a large Warehouse 1A (1A) and Warehouse 1 (1) occupying the central and right portions of the building. To the left of Warehouse 1A is a Fileroom (2), a Toilet (5), a HAC (4), and a MECH (3) room. Further left is an Office (6). A staircase is located at the bottom left of the plan. The drawing is titled 'BUILDING 52' and is part of a set of drawings for the 'CORRECT PHYSICAL SECURITY DEFICIENCIES' project. The project is located at VAMC BILOXI, MS. The drawing is dated 12/9/13 and is the first of one sheet (52-ARI 1 of 1). The drawing is prepared by the Office of Facilities, Department of Veterans Affairs.
