The architectural floor plan shows a complex arrangement of rooms and corridors. Rooms are identified by codes like B-A100, B-A101, B-A102, etc., up to B-G115. Corridors are labeled CB-1A, CB-2, CB-3, etc. The plan features numerous doors, windows, and stairs. Red lines and numbers (8-2, 8-12, 8-13, 8-4) are used to mark specific areas or zones. Various mechanical and electrical symbols are present, including what appear to be fire extinguishers, first aid kits, and other safety equipment. A detailed legend on the left side of the page provides definitions for the abbreviations used throughout the drawing.
