STK# X-XG5000-FDX

QTY	DESCRIPTION				
1	<p>VA Contract Number V797p-6023b</p> <p>FCR XG5000 with FDX Console</p> <p>Fuji's XG5000 high capacity reader with the FDX Console workstation. The fastest cassette-based reader available in the industry today, ideally suited where image availability is most critical and procedure volume is highest, such as ED, Trauma and the main department.</p> <p>> (3) Days Professional Services: On-site Application training workflow and image processing parameters customization</p> <p>> Warranty: 1 Year, full system (valid from original install date)</p>				
1	<p>XG5000 Multi-plate reader unit</p> <ul style="list-style-type: none"> - 4 independent cassette drives to process up to 165 IPs per hour - Image preview in as little as 15 seconds - Cycle times of less than 39 seconds for maximum technologist productivity - Simplified user interface for exam processing in as few as three steps - Hardware includes: XG5000 reader for IP scanning & erasure, UPS w/surge protection & power conditioning 				
	<p>The FDX Console ID and QA workstation</p> <p>Designed to enhance technologist productivity. Perform patient ID, image processing, QA and image transmission from a single compact workstation.</p> <ul style="list-style-type: none"> - Main application software - > Fuji's Exclusive Dynamic Visualization - total spectrum analysis of light and dark regions for highest contrast PACS display and more detailed window and leveling. Intelligently clarifies and enhances detail of over and under saturated areas for best first up display. > Exposure Index & Deviation Index - (EI & DI) compliance capability with the new international standard for tracking patient dose > QC adjustments including exam reprocessing, sensitivity, latitude, density and contrast > Auto Trimming: simplifies off center positioned exams readjusting display size for small anatomy > FNC (Flexible Noise Control) - Suppresses noise without loss of diagnostic information or sharpness > MFP (Multi-Frequency Processing) - Optimizes multiple frequencies, improving dense & peripheral tissues > GPR (Grid Pattern Removal) > Image Magnification - enables full screen display of an image, as well as image magnification and zoom 				

1		<p>> Free text annotation - ability to type comments and add them to the digital image</p> <p>> Technologist editing tools such as automatic and manual Shutters (black borders) and movable annotation markers</p> <p>> Basic security features - customizable technologist log in/log out & user restrictions</p> <p>> Statistical Analysis reporting - Text file download of patient image database, including reason for image rejection coding, for reject or other performance analyses</p> <p>> Synapse Web Query Shortcut - opens Fuji PACS browser without closing application to enable viewing of a patient's prior exams. Only compatible with Fuji Synapse PACS</p> <p>> DICOM Worklist Management for interface to RIS/HIS</p> <p>> DICOM CR Store for connectivity to PACS</p> <p>- Hardware includes: desktop CPU (Windows 7 OS), keyboard, barcode reader & 19 in. color touch LCD monitor</p> <p>XG5000 TRADE UP</p> <p>CREDIT-GOVERNMENT—VAMC Gainesville is responsible for the extraction of the Hard Disk Drive, in turn FujiFilm Medical Systems will remove and dispose of the legacy FCR system— Lake City</p> <p>FCR 5000</p> <p>S/N 3696926</p>				
1		<p>Auto Exam Select enables mapping of RIS/HIS exam codes to Fuji MPM codes for automatic transfer of exam information to the FUJIFILM Digital Workstation. This feature is an excellent workflow-enhancing tool, as it enables transfer of a patient's ordered exam(s) with name from RIS/HIS. Can be used with or without Study Group option. One license is required for each set of RIS/HIS exam codes mapped to Fuji MPM codes.</p>				
1		<p>XG5000/ClearViewCS/SmartCR - 5 day class held in Stamford. Lunch and all course materials included. (Transportation and Lodging not included.)</p> <p>Prerequisite (FUJI); Intro to Medical Imaging 101 2.68CEUs</p> <p>This course provides an overview of the XG5000, ClearViewCS and SmartCR the newest members of the FCR family. Topics include: machine descriptions, software control, proper installation, calibration and troubleshooting. This class is designed to be taken in conjunction with Flash IIP/Console.</p>				

1		<p>Flash IIP to FDX Console Workstation Upgrade</p> <p>TRADE UP PROMOTIONAL PRICE</p> <p>Includes:</p> <ul style="list-style-type: none"> > Latest FDX Console software > Latest CPU hardware > (2) Application Days <p>Requirements:</p> <ul style="list-style-type: none"> > One-for-one replacement of existing Flash IIP hardware (GX 755 or earlier) > Customer's equipment used toward trade-up needs to be rendered inoperable for this promotion to be applied. The previous equipment is not allowed to be relocated to another area, facility or sold by the customer. Fuji Service will render existing equipment inoperable. The customer is responsible for disposing the equipment according to local regulations. 				
2		<p>Flash IIP to FDX Console Workstation Upgrade - Additional Workstation</p> <p>MUST BE ORDERED at point of purchase WITH, XIIPFDX-UPGD-TM1</p> <p>TRADE UP PROMOTIONAL PRICE</p> <p>Includes:</p> <ul style="list-style-type: none"> > Latest FDX Console software > Latest CPU hardware > Application support will be scheduled by the Regional Imaging Manager <p>Requirements:</p> <ul style="list-style-type: none"> >>> MUST BE ORDERED at point of purchase with, XIIPFDX-UPGD-TM1 «< > One-for-one replacement of existing Flash IIP hardware (GX 755 or earlier) > Customer's equipment used toward trade-up needs to be rendered inoperable for this promotion to be applied. The previous equipment is not allowed to be relocated to another area, facility or sold by the customer. Fuji Service will render existing equipment inoperable.
