

THERMOSTIM 

Cold, heat, electrical stimulation, and soft-tissue mobilization, all in...

One Tool.

Temperature Range: **39°-112° F** and reaches target temperature in **less than 60 sec.**

Multi-surface head with edges and corners optimizes ThermoStim transfer and tissue mobilization.

DYNATRON SOLARIS® PLUS

 Dynatronics

DYNATRON SOLARIS[®] PLUS

Power and Flexibility

Solaris Plus delivers 7 Stim waveforms including IFC, Premod, Biphasic, Russian, High Volt, Microcurrent, Direct Current, and Fixed Frequency IFC/Premod. In addition, Solaris Plus offers 3-Frequency Ultrasound and the new Tri-Wave Light Therapy. **Best of all, Solaris Plus has the power to deliver up to 5 channels of Stim, Ultrasound, and Tri-Wave Light Therapy through both Probe and Pads—all at the same time.**

Introducing Tri-Wave Light

Deliver any combination of 3-wavelengths of light (red, infrared, and blue) using the Dynatron Tri-Wave™

Light Probe or 2 robust 5" x 7"

Tri-Wave Light Pads. Dual

Light Pads allow for greater coverage of a joint, treatment of 2 separate areas simultaneously, and the ability to treat large areas of the body when placed side-by-side.

The FUTURE is NOW!

The first of its kind, the revolutionary Dynatron ThermoStim™ Probe* combines cold or heat with electrical stimulation and soft-tissue mobilization.

Treat a wide variety of conditions, save time, and enhance patient outcomes.

ThermoStim, the future of therapeutic modalities.

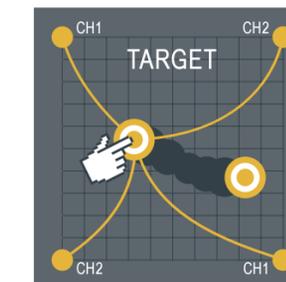

3-Frequency Ultrasound

The only Ultrasound devices in the industry offering 1, 2, and 3 MHz frequencies for the greatest flexibility in depth of treatment.

Target & Target Sweep

By focusing the treatment precisely where it is needed, Dynatron's unique TARGET feature provides a more effective interferential treatment. Simply glide your finger across the TARGET touch pad to move the center of interference to the site of your patient's pain.

Impressively Simple

Even with nearly unlimited flexibility, setting up a treatment has never been easier. Some treatments can be set up in as few as two key presses. Treatment parameters are highly visible, easy to read, and changed at the touch of a fingertip.

Dynatron® Patented 3-Frequency Ultrasound Soundheads

Dynatron® Soundheads

The only Ultrasound devices in the industry offering 1, 2, and 3 MHz frequencies for the greatest flexibility in depth of treatment. Soundhead is compatible with Solaris Plus 709 (D719), Solaris Plus 708 (D718), and Dynatron 25 Series combo units (D925B, D825B).

Tri-Wave Light Probe

Deliver any combination of 3-wavelengths of light (red, infrared, and blue) using the Tri-Wave Light Probe or 2 robust 5 in x 7 in Tri-Wave Light Pads. Dual Light Pads allow for greater coverage of a joint, treatment of 2 separate areas simultaneously, and the ability to treat large areas of the body when placed side-by-side.

Tri-Wave Light Pad

Deliver any combination of 3-wavelengths of light (red, infrared, and blue) using the Tri-Wave Light Probe or 2 robust 5 in x 7 in Tri-Wave Light Pads. Dual Light Pads allow for greater coverage of a joint, treatment of 2 separate areas simultaneously, and the ability to treat large areas of the body when placed side-by-side.

Tri-Wave Light Pad

Deliver any combination of 3-wavelengths of light (red, infrared, and blue) using the Tri-Wave Light Probe or 2 robust 5 in x 7 in Tri-Wave Light Pads. Dual Light Pads allow for greater coverage of a joint, treatment of 2 separate areas simultaneously, and the ability to treat large areas of the body when placed side-by-side.

Dynatron Solaris® Plus Cart

The Solaris Plus Cart has 3 large drawers big enough to store cords, pads, probes, electrodes, and a myriad of treatment supplies. Constructed with a low center of gravity to prevent tipping (each caster has a weight tolerance of 125 lbs.), the Solaris Plus Cart is sturdy and aesthetically pleasing, matching the color scheme and design of the Solaris Plus unit.

Cart is shown with Dynatron Solaris unit attached. Unit is sold separately.
