This project will extend the existing advanced utility / electrical metering proprietary system, using some replacement parts and manufacturer specific programming protocol for the proper operation which allows the correct monitoring of the energy used per DVA requirements (VA National Advanced Metering Contract AEM GS-07F-9462G, VISN 12 integrated into the Schneider hosted EEM platform, in St. Louis).

SOP Other Than Full and Open Competition

(5) DESCRIBE WHY YOU BELIEVE THE ORDER REPRESENTS THE BEST VALUE CONSISTENT WITH FAR 8.4 TO AID THE CONTRACTING OFFICER IN MAKING THIS BEST VALUE DETERMINATION:

All systems described are core to the safe operation of the facility and give a reasonable standard of care to the patients. VISN 12 has elected to put the all campuses on the same electrical metering and monitoring system for ease of operation, maintenance, energy management, etc. It would be impractical to use different systems at different locations throughout the VISN. Therefore, the most cost effective solution for expansions or upgrades to the system is to expand the existing Schneider/Square D system.

(6) DESCRIBE THE MARKET RESEARCH CONDUCTED AMONG SCHEDULE HOLDERS AND THE RESULTS OR A STATEMENT OF THE REASON MARKET RESEARCH WAS NOT CONDUCTED:

This product has been selected as a "VA standard" VISN wide. The system contains proprietary protocols and is the only product that is fully compatible with the existing VISN wide electrical metering system.

(7) ANY OTHER FACTS SUPPORTING THE JUSTIFICATION:

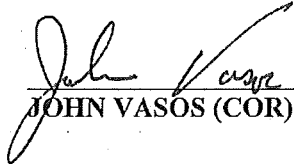

All these systems and agreements were based on competitive bid awards meeting the VA standards

(8) A STATEMENT OF THE ACTIONS, IF ANY, THE AGENCY MAY TAKE TO REMOVE OR OVERCOME ANY BARRIERS THAT LED TO THE RESTRICTED CONSIDERATION BEFORE ANY SUBSEQUENT ACQUISITION FOR THE SUPPLIES OR SERVICES IS MADE:

It is not practical to have multiple systems or agreements for these specific systems

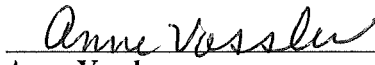

(9). Certifications:

I hereby certify that the data provided above is accurate and complete to the best of my knowledge and belief.
