## SECTION E - SOLICITATION PROVISIONS

### E.1 52.212-2 EVALUATION—COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

1. Technical
2. Price

(b) *Options.* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of Provision)

### ADDENDUM TO 52.212-2 EVALUATION-COMMERCIAL ITEMS (JAN 1999)

#### LPTA EVALUATIONFACTORS FOR AWARD

##### a. Basis for Contract Award

- (1) Award will be made to a single offeror who is deemed responsible in accordance with the Federal Acquisition Regulation (FAR), whose proposal conforms to the solicitation requirements, and whose proposal, judged by an overall assessment of the evaluation criteria and other considerations specified in this solicitation, represents the Lowest Priced Technically Acceptable offer. Evaluation Factors under the LPTA process are judged on a **pass-fail** basis only. No other rating or qualitative value will be assigned. To be determined technically acceptable, all factors must be acceptable to obtain a pass rating for the technical proposal. Award will be made to the lowest priced, technically acceptable, responsible offeror.

- (2) Trade-offs between cost/price and non-cost/price factors is not permitted. The VA will evaluate proposed prices for reasonableness using price analysis techniques. The Government may reject any proposal that is evaluated to be unrealistic in terms of program commitments, including contract terms and conditions, unreasonably high/unrealistically low, unbalanced, inaccurate or incomplete price proposals, such that the proposal is deemed to reflect an inherent lack of competence or failure to comprehend the complexity and risks of the program.

**b. Award for All of the Work.** The VA intends to award 1 Task order as a result of this solicitation. Offers received for less than the stated number of items listed in the Quote Schedule will be considered ineligible for award. The offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The VA reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary.

**c. Evaluation Criteria**

- (1) Evaluation criteria consist of factors and sub-factors. The proposals will be evaluated under 2 evaluation factors:

Factor 1: Technical

Sub-factor A: Personnel Qualifications

Sub-factor B: Technical Approach/Delivery

Factor 2: Price

- (3) **Factor 1 - Technical Factor.** The Technical Factor evaluation provides an assessment of the offeror's capability to satisfy the VA's minimum requirements as specified in the Specs and SOW. Failure to include any of these requirements shall result in the offer being considered unresponsive and thus be excluded from consideration.

- a. **Sub-factor A: Personnel Qualifications** – Lean Six Sigma certified Black Belt.
- b. **Sub-factor B: Technical Approach/Delivery** - Delivery of materials and training must use accredited training delivery method and the instructor must have had at least six months experience in training.

The Technical Factors will receive one of the adjectival ratings defined below. Each

subfactor rating will be used to determine an overall rating for the factor: For Evaluation Factor 1 Technical; to receive a rating of "Pass" both sub-factors must receive a "Pass" rating. If any of the sub-factors receive a rating of "Fail" the overall rating for that Evaluation Factor will be "Fail" (unacceptable).

## **Rating Description**

**Pass** - Acceptable Proposal clearly meets the minimum requirements of the solicitation.

**Fail** - Unacceptable Proposal does not clearly meet the minimum requirements of the solicitation.

(3) **Factor 2 – Price:** Price will not be scored or rated. Evaluation of price will be performed using one or more of the price analysis techniques. Through these techniques the VA will determine whether prices are reasonable, complete and balanced.

(a) Options: The VA will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The VA may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the VA to exercise the option(s).

(b) Unbalanced Pricing may be evaluated in accordance with FAR 15.404-1(g), as applicable, to assess potential performance risk which could result in unreasonably high prices

### **Definitions:**

**Reasonableness:** A price is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person in the conduct of competitive business.

**Completeness/Accuracy:** The offeror's proposal is in compliance with the Price Volume instructions in the solicitation."
