

Statement of work

The Oklahoma City Veterans Affairs Medical Center (OKCVAMC) has a requirement for repairs and maintenance of the Medical Centers Piped Medical Gas System distribution systems as outlined in this statement of work.

NOTE

(Modification #2)

Medical Gas Terminals are to be disassembled, cleaned, adjusted, and new front body/face plate O-rings/repair kits installed as needed. Any Medical Gas Terminals needing replacement, or any other defects found will be noted and reported along with number 3 below and will be re-solicited at a later date.

MEDICAL GAS'S AND VACCUUM SYSTEM'S

1. The contractor shall perform the following repairs to correct deficiencies noted in the annual certification inspection. All repairs to be performed by a ASSE -6040 certified maintenance mechanic.
2. Upon completion all repairs must be certified a ASSE -6020 certified inspector.
3. All documentation of repairs and recertification documents must be received by OKCVAMC within 7 business days of completion of work.

Outlet Correctives

Ground: Dialysis
