B.4 Contract Description, Terms, and Specifications

Background Information

The Department of Veterans Affairs Medical Center, Boise ID (VAMC) is the home of VISN 20's Optical Fabrication Lab (OFL), which has capacity to manufactures in excess of 150,000 pairs of eyeglasses per year for eligible beneficiaries. The OFL is a full-service facility that sources individual eyeglass components, and then grinds the lenses and assembles them into frames in-house.

In support of this mission, the Department of Veterans Affairs is anticipating the award of a single indefinite-delivery requirements contract for eyeglass lens freeform digital design software licensing, in accordance with FAR 16.503.

Description of Requirement

The contractor shall provide all freeform digital lens calculation data for Single Vision and PAL lenses using any standard spherical Single Vision Semi-Finished CR-39 plastic, 1.55 mid-index, 1.67 hi-index, Polycarbonate, Trivex, Polarized, Transitions, Photo-chromatic, SunSensor blank, or any other material as it becomes available. The freeform lens digital design software shall not be specific to a single lens manufacturer, but shall instead be applicable or readily adaptable to a wide range of lenses from different manufacturers. The software must be adaptable to potential changes in lens suppliers.

Digital lenses are back surface progressives where the front surface is spherical or rotationally symmetrical and the back surface combines the progressive and prescription surface to form an asymmetrical surface including but not limited to lenses incorporating optical optimization covered by patents owned by Carl Zeiss Vision and/or its affiliated companies ("CSV").

The digital design software shall be 100% compatible with CC Systems Labzilla LMS Operating system and Satisloh Digital surfacing equipment. The software and hardware provided will be maintained in the VISN 20 Optical Fabrication Laboratory. The Contractor will not access any VA network or equipment.

Minimum Specifications of Lens Design Software

The following outlines the minimum requirements and specifications for lens design software furnished under the terms of this contract:

- Software must be capable of local calculations for lens designs. The software shall operate without dependence on remote servers or internet access. VA policies prevent the connection of non-VA equipment to the VA network. No government furnished internet access will be made available.

- Software must be fully compatible with the presently utilized Lab Management Software (Labzilla by CC Systems).
- Capable of utilizing any standard spherical single-vision semi-finished lens blank.

Basic Design Capabilities

- Lenticular design available
- Minimum Fitting Heights (MFH) include 14mm, 16mm, 18mm, and 20mm.
- Corridor lengths include 12mm, 14mm, 16mm, and 18mm.
- Includes base curve option and wrap compatibility.

Advanced Design Capabilities

- Lenticular designs available
- Minimum Fitting Heights (MFH) include 14mm, 15mm, 16mm, 17mm, 18mm, 19mm, 20mm and 22mm.
- Corridor lengths include 12mm, 14mm, 16mm, 18mm, and 20mm.
- Includes base curve option and wrap compatibility.

Duration of Contract, Minimum Obligation, and Maximum Value

The total duration of this contract is a maximum of two (2) years from the effective date agreed to by the parties, or until the maximum value of the contract is reached, whichever occurs first. The contract will be awarded for a period of one base-year, with one 12-month extension option.

The maximum value this contract, calculated as the sum of all orders placed against this contract is \$490,000.00. The total amount of all orders placed against all contracts awarded shall not exceed this amount over the total contract period. The Government guarantees a minimum of \$2,500 in purchases under this contract within 12 months after the date of contract award.

Warranty of Workmanship, Recalculation, and Remakes

The Contractor shall fully warrant and guarantee the lens designs generated by its program. In the event that a digital lens design does not meet internal quality control standards, the Contractor shall grant the Government the right to either recalculate the lens design or remake the lens at no additional cost. The Government shall only be charged for lenses that pass internal quality control standards.

Product Schedule Pricing and Maintenance

All prices on the Contractor's product schedule shall be firm-fixed price. The Contractor agrees to hold all prices on its schedule firm for the duration of this contract. However, this does not preclude the Contractor from offering pricing discounts at its discretion. Pricing discounts need not be permanent, and the Contractor may adjust or remove a price discount at any time, provided no adjusted price exceeds the schedule price in this contract.

Software Updates

The Contractor shall ensure the Government is provided regular software updates as they are made available to the Contractor's commercial customers. All software updates shall be made available to the Government at no additional cost.

Order Placement, Invoicing and Payment

This contract is for the exclusive use of the VISN 20 Optical Fabrication Lab located at the Boise VA Medical Center. Bulk funding documents and delivery orders may be signed by any warranted contracting officer assigned to Network Contracting Office 20. When a bulk funding document is used, the document will state the names or positions of the individuals authorized to place orders with the Contractor using the bulk funding document.

The Government may make use of “bulk funding documents” where a certain amount of funding is administratively reserved in anticipation of orders being placed against this contract. Bulk funding documents will be issued as delivery orders against this contract. The Government will only pay for orders placed by authorized individuals or ordering activities, as specified in this contract. The use or issuance of a bulk funding document does not guarantee that the Government will place orders up to the amount allotted on the document, nor does it entitle the Contractor to any excess funds remaining after expiration of the funding document.

Alternatively, the Government may also place and pay for orders using a government credit card.

The Contractor shall submit invoices on a monthly basis to both the VISN 20 Optical Fabrication Lab and the designated payment office. Invoices submitted to the designated payment office shall be submitted in accordance with the payment clauses incorporated into this contract. All invoices shall include the contract number, purchase/delivery order number, and a summarized detail of all lens calculations being invoiced.

SECTION C - CONTRACT CLAUSES

C.1 52.216-18 ORDERING (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from date of contract award through the end of the effective period.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of Clause)

C.2 52.216-19 ORDER LIMITATIONS (OCT 1995)

(a) *Minimum order.* When the Government requires supplies or services covered by this contract in an amount of less than \$100, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) *Maximum order.* The Contractor is not obligated to honor—

(1) Any order for a single item in excess of \$490,000.00;

(2) Any order for a combination of items in excess of \$490,000.00; or

(3) A series of orders from the same ordering office within 1 days that together call for quantities exceeding the limitation in paragraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 2 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of Clause)

C.3 52.216-21 REQUIREMENTS (OCT 1995)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 30 days beyond contract expiration.

(End of Clause)

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters* (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) [] Are, [] are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) [] Have, [] have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) [] Are, [] are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) [] Have, [] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
