REPLY NEEDED BY:		

INFORMATION NEEDED:

The BR windows are marked as aluminum framed U.L. Level 3 in the spec's (Sec 08 56 53, Page 70, para 2.3) but the plans show a level 3 hollow metal frame (A-601). Which are we to quote?

REPLY:

Bullet resistant windows are to be aluminum framed as specified. The notes on BL2 and BL3 on sheet A-601 should read "aluminum framed" in lieu of "hollow metal frames".
