

This Plan is the confidential property of Krueger International, Inc. and contains information that is not to be used except in consideration of bids or proposals tendered herewith. Reproduction or copying of this Plan, in whole or part, is prohibited.

FIELD VERIFICATION
This Plan incorporates building information compiled from various sources associated with this project and deemed as reliable. Conditions directly affecting the product or its installation must be field verified.

CODE REQUIREMENTS

K1 typically credits Plans based upon K1's interpretation of applicable sections of the 2012 International Building Code (IBC). However, due to matters beyond K1's control (such as contrary instructions and/or incomplete information from Owner/Architect/Contractor), this Plan may not be IBC compliant. As a result, such non-compliance must be the responsibility of the Owner/Architect/Contractor.

rest, and notwithstanding anything to the contrary herein or hereafter stated in any contract to which it is a party, KI declines any responsibility or liability to insure that this Plan comply with federal, state or local statutes, regulation or code machine (including, but not limited to, the 302C) applicable to this Project. Project SAs, or its work, regardless of whether KI may be advised of the same. Approval of this Plan shall indicate consent to the foregoing.

KI recommends that these Plans and the resulting layouts be reviewed with a local fire inspector to verify compliance with all local building codes. KI disclaims responsibility for any such review and any claim or liability that may result from non-compliance with local building codes.

RECEIVING OFFICE

These Plans are intended to comply with the provisions of the Internal Revenue Code as amended. As such, they have been prepared on the basis of the interpretation of the applicable tax laws and regulations which is given in the accompanying explanatory memorandum. If it is so desired, the recipient of this document may obtain from the Department of the Treasury, Bureau of Internal Revenue, a copy of the Regulations under the Code which apply to the provisions of the Code which are referred to in the explanatory memorandum. It is suggested that the recipient of this document be in possession of a copy of the Regulations under the Code which apply to the provisions of the Code which are referred to in the explanatory memorandum. It is suggested that the recipient of this document be in possession of a copy of the Regulations under the Code which apply to the provisions of the Code which are referred to in the explanatory memorandum.

It is the donor's/pledger's responsibility to determine whether the above described plan is intended to comply with the provisions of the Code which are referred to in the explanatory memorandum. It is suggested that the recipient of this document be in possession of a copy of the Regulations under the Code which apply to the provisions of the Code which are referred to in the explanatory memorandum.

CODE REQUIREMENTS
 ID typically creates Plans based upon AC's interpretation

control (such as solitary instructions and/or incomplete information from Owner/Architect/Engineer) in appropriate sections of EN 2012 International Building Code (IBC). However, due to matters beyond IBC's control, the Committee has decided to include the following disclaimer:

contractor, this plan may not be too compliant. As a result and notwithstanding anything to the contrary now or hereafter stated in any contract to which it is a party, it disclaims any responsibility or liability to insure

that the PMA comply with federal, state or local standards, regulation or code section (including, but not limited to, the IRC) applicable to the Project, Project Site, or PG's Work, regardless of whether Kiewit has

and recommends that these Plans and the resulting

Reports will be reviewed with a local fire inspector to verify compliance with all local building codes. KCI assumes responsibility for any such review and any claim or liability that may result from

non-compliance with local building codes.

Abstract

RY

From using Descartes

CONFIDENTIALITY
This Plan is the property of RY and contains information that is confidential, proprietary, or otherwise subject to legal protection. It is to be used for the purpose of the project only and is not to be distributed, copied, or otherwise used without the written consent of RY. If you are not an authorized user, you are notified that any unauthorized use or disclosure of this information is strictly prohibited.

FIELD INFORMATION
The Plan incorporates building information, including but not limited to, dimensions, materials, and construction details. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

CODE REQUIREMENTS
This Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

NOTES
1. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

2. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

3. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

4. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

5. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

6. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

7. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

8. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

9. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

10. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. The information is provided as a service to the client and is not to be used for any other purpose without the written consent of RY.

11. The Plan is designed to comply with the applicable building codes and standards. It is intended to be used as a guide for construction and is not to be used as a substitute for a contract or other legal document. From Using Dimensions

This Plan is the property of the Architect. It is to be used for the purpose of construction only. It is not to be reproduced, copied, or used for any other purpose without the written consent of the Architect.

THE ARCHITECT'S RESPONSIBILITY IS LIMITED TO THE DESIGN OF THE BUILDING. THE ARCHITECT DOES NOT GUARANTEE THE ACCURACY OF THE INFORMATION PROVIDED HEREON. THE USER OF THIS PLAN SHALL BE RESPONSIBLE FOR OBTAINING ALL NECESSARY PERMITS AND FOR VERIFYING THE ACCURACY OF ALL INFORMATION PROVIDED HEREON.

CODE REQUIREMENTS: The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

NOTES: 1. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

2. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

3. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

4. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

5. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

6. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

7. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

8. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

9. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

10. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

11. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

12. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

13. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

14. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

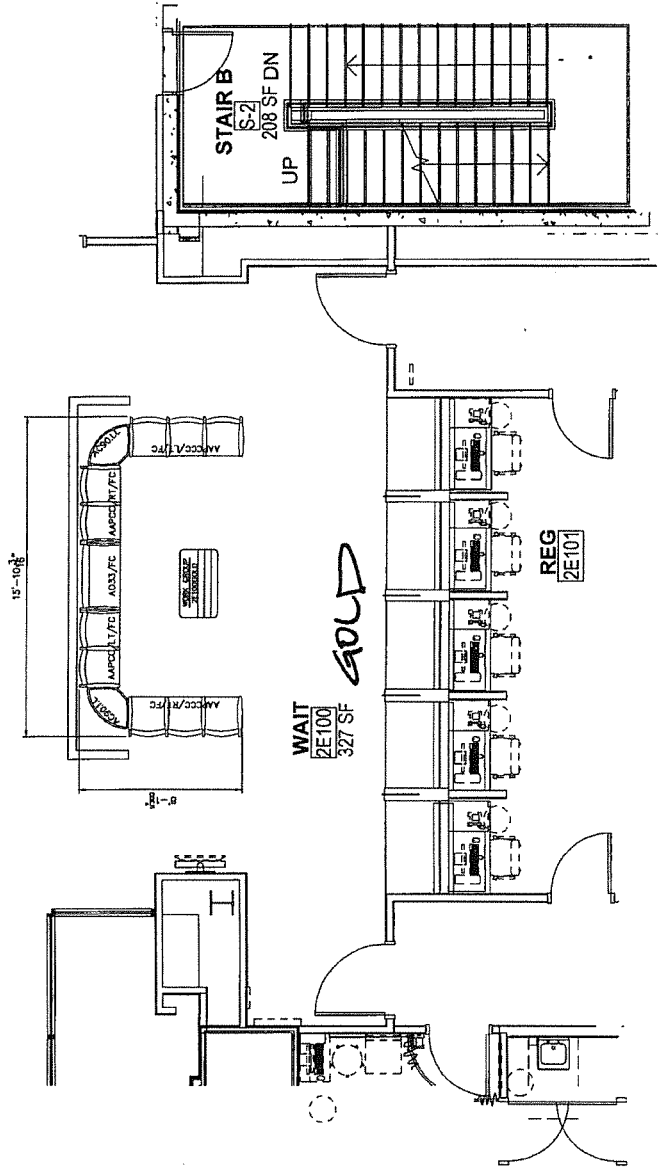

15. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

16. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

17. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

18. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

19. The design of this building is based on the 2009 International Building Code (IBC) and the 2009 International Residential Code (IRC). The design is based on the assumption that the building will be used for the purpose of construction only.

CONFIDENTIALITY

This Plan is the confidential property of Reorganizational, Inc., and contains information that is not to be used except in consideration of bids or proposals tendered herewith. Reproduction, copying of this Plan, in whole or part, is prohibited.

FIELD VERIFICATION

This Plan incorporates building information compiled from various sources associated with this project and deemed as reliable. Conditions directly affecting the product or its installation must be field verified.

CODE REQUIREMENTS

It typically creates Plans based upon it's interpretation of applicable sections of the 2012 International Building Code (IBC). However, due to features beyond IBC Code (IBC) control (such as existing instructions from incomplete information from Contractors), this Plan may not be IBC compliant. As a result and notwithstanding anything to the contrary, the user shall be responsible for ensuring that the Plans are in compliance with applicable laws, codes, regulations, and standards.

or heretofore stated in any contract in which it is a party to, it disavows any responsibility or liability to have or incur under the terms of any such contract. This Plan complies with Federal, state or local laws, regulations or codes concerning (including, but not limited to, the following):

- The Plan is not applicable to the Project, Project SBA, or any other project or program.
- The Plan is not intended to be a contract or agreement of the same nature, subject matter or intent as the contracts or agreements to which it is not intended to be an amendment to the contracts.

It recommends that these Plans and the resulting loyalty be reviewed with a least five (5) member(s) of the Board of Directors, and that the Board of Directors accept responsibility for any such review and any decision of liability that may result from non-compliance with local building codes.
