2	1	<p>Vivid E9 with XDclear 4D 17 inch monitor and Extended Warranty</p> <p>The Vivid E9 with XDclear is our leadership cardiovascular ultrasound system designed for cardiac 4D imaging, with the additional capabilities of 2D adult, contrast, pediatric, fetal/obstetrics, peripheral vascular, abdominal, transcranial, neonatal cephalic, small organ, adult cephalic, musculoskeletal, intro operative, urology/prostate, rodent and transesophageal applications. This is our 4D configuration, with a 17 inch LCD monitor.</p> <p>This product includes a one year standard warranty and a one year extended warranty.</p> <p>System Architecture Accelerated Volume Architecture GE's exclusive, patented, beam forming technology provides eight times the computational power as compared to the Vivid 7 with twice the volume for full volume single beat 4D acquisition. Using both coherent and harmonic image processing, the system provides computational power, ease of imaging, workflow flexibility and product upgrade-ability. The Vivid E9 excels in the following areas: Exceptional Image Quality is created through the use of Accelerated Volume Architecture, Ultra Definition Clarity, Ultra Definition Speckle Reduce and advanced D-Series transducers.</p> <p>Probe technology</p> <p>The XDclear series of probes are designed to help deliver powerful and efficient sound waves, with high bandwidth and efficiency. This has resulted in impressive deep penetration and high sensitivity while maintaining high spatial resolution. The combination of Single Crystal, Acoustic Amplifier and Cool Stack technologies is the core technology of the new XDclear series of probes.</p> <p>Ease of Use features make the Vivid E9 a very productive cardiovascular ultrasound system, including Single Beat 4D, 4D Views, 4D StressEcho, 4D Auto LVQ, 4D Strain, 4D LV Mass, FlexiSlice, 2 Click Crop, FlexiZoom, Biplane Prepare, Scan Assist and Scan Assist Pro.</p>

Item No. QTY	DESCRIPTION
	<p>Ergonomics include highly portable user adaptable design with electronic adjustable height and keyboard, articulating LCD arm and lightweight transducers combining to make it an extremely ergonomic cardiovascular ultrasound system.</p> <p>TruScan Raw Data is GE's innovative technology that allows for advanced processing on archived images by applying many of the same scan controls and advanced quantitative tools available during the original exam.</p> <p>Standard Configuration includes:</p> <ul style="list-style-type: none"> <li>• 4D single/dual/multi beat-Flexi-Volumes</li> <li>• Biplane</li> <li>• Triplane</li> <li>• 5-slice/7-slice/9-slice/6-slice/12-slice</li> <li>• 4D Color</li> <li>• Depth Color Render, incl. 4	1	<p data-bbox="521 422 834 449">M5Sc-D XDclear* Transducer</p> <p data-bbox="521 476 1273 753">XDclear is GE's highest performing transducer technology which is an innovative combination of advanced materials and innovative acoustic design. This phased array cardiac transducer merges matrix array with XDclear technology and provides ultra-wide bandwidth and superb image quality. Preferred applications may vary depending on the scanner running the probe, and may include cardiac, pediatrics, fetal heart, abdominal, coronary, transcranial, contrast, stress echo. Biopsy kit available.</p> <p data-bbox="521 770 980 798">*Trademark of General Electric Company</p> <p data-bbox="521 814 1273 842">Third party trademarks are the property of their respective owners</p>
5	1	<p data-bbox="521 877 932 905">6VT-D 4D Transesophageal (TEE) probe</p> <p data-bbox="521 926 1273 1276">6VT-D is a wide band multi-frequency active matrix volume imaging transesophageal phased array probe with a bandwidth between 3.0 and 8 MHz, a 90-degree field of view and 20 cm depth of field. The distal probe tip with a dimension of 12.7 x 14.3 mm and a length of 40 mm allows excellent imaging for cardiac diagnosis and intervention control with a small handle diameter for comfort and ergonomics. Rubber wheels provide an easy grip, especially in slippery conditions. Three user configurable on-handle push buttons for e.g. convenient plane rotation, image store and freeze functionality.</p> <p data-bbox="521 1285 1256 1459">6VT-D 4D Transesophageal (TEE) probe includes one day of On-site Applications Training. Additional On-site Applications Training days are available for purchase. 6	1	9L-D Linear Transducer

Item No.	QTY	DESCRIPTION
		Broad-spectrum linear transducer. Applications include: vascular, small parts, pediatric, and abdomen. Biopsy kit available.
7	1	<p data-bbox="522 296 837 323">P2D 2 MHz CW Pencil Probe</p> <p data-bbox="522 350 1281 409">2MHz non-imaging pencil probe for CW Doppler examinations of cardiac flow. Non-imaging. Requires CW option for LOGIQ products.</p>
8	1	<p data-bbox="522 447 854 474">MV Assessment (TomTec- TM)</p> <p data-bbox="522 501 1260 682">TomTec - TM software plug-in for Mitral Valve Quantification derived from the volume ultrasound data of the Vivid scanner. The semi-automatic surface detecting algorithm helps clinical users to get fast, reproducible and accurate 4D visualization and quantification of the Mitral Valve, acquired with TTE or TEE probes.</p>
9	1	<p data-bbox="522 707 846 735">VIVID E9 ADVANCED BUNDLE</p> <p data-bbox="522 758 1040 785">The Vivid E9 Advanced Bundle option includes:</p> <p data-bbox="522 804 714 831">Advanced Qscan</p> <p data-bbox="522 848 760 875">Imaging SmartStress</p> <p data-bbox="522 892 659 919">2D Auto EF</p> <p data-bbox="522 936 805 963">AFI Productivity Package</p> <p data-bbox="522 980 686 1008">LVO-Contrast</p> <p data-bbox="522 1024 636 1052">4D Strain</p> <p data-bbox="522 1068 667 1096">4D LV Mass.</p>
10	1	<p data-bbox="522 1127 850 1155">TEE Probe Bite Hole Indicator</p> <p data-bbox="522 1178 1284 1314">Bite hole indicator for TEE transducers. Easy test procedure, enables TEE probe testing before each use. Works with all GE TEE probes. High bite hole detection confidence (99.9%). Battery operated self-test function helps ensure proper setup.</p>
11	1	<p data-bbox="522 1350 695 1377">ECG Cable Set</p> <p data-bbox="522 1398 1263 1572">ECG cable set which allows connection of external ECG machine output signal with either a 9-pin Dsub, BNC, RCA, 3.5mm Jack or 6.3mm Jack plug with the ECG input of LOGIQ P6, Vivid 7 (or Vivid Five). Must be ordered with ECG Kit (treadmill connection) or ECG Kit for ECG hardware.</p>
12	1	<p data-bbox="522 1610 764 1638">VIVID E9 DVD OPTION</p>

Item No.	QTY	DESCRIPTION
		VIVID E9 DVD OPTION
13	1	English Manual 4D MV Assessment English Manual 4D MV Assessment
14	1	Cardiac Applications Training - One day One day cardiac applications training for Vivid E9, Vivid 7, EchoPAC or Image Vault.
15	1	Vivid E9 Service Training + Lodging and Air  The course is an overview of the Vivid E9 product illustrating the practical skills needed to install software and peripherals, set up connectivity with other networking devices, and troubleshoot the system. Participants will be involved in basic system operations, identification of service tools and diagnostics, and disassembling the system. The course will provide a detailed explanation of the individual hardware and software components and their integration and interconnectivity with other system components. Participants will learn hands-on skills in labs designed to reinforce principles reviewed in class. Training must be redeemed within 18 months of purchase. Training is non refundable and non discountable. Pre-purchased training sold with equipment must be used by direct hospital employees only. Price includes tuition, lodging, and airfare. PREREQUISITE: Essentials of Healthcare IT or an approved IT certification.
