Item	CAT #	QTY	Description
1		1	DRX Revolution
		1	DRX-Revolution Mobile X-Ray System Carestream's innovative mobile X-ray room on wheels. The DRX-Revolution offers bins for gloves, paperwork, markers, bags and a lockable storage space for the detector. The collapsible column allows increased visibility and safety when driving the system. The tube arm can reach over 53 in (135 cm) to accommodate larger beds and crowded rooms while the system has 32 kW of power for shorter exposure times and more flexible technique selection. Dual, independent drive motors provide easy maneuverability and a maximum dirve speed up to 3.5 m/ h (5.6 km/h). An integrated proximity badge reader automatically logs the operator into the software and displays the patient worklist. Two touch-screen displays provide dual work zones with a 19 in. main monitor and 8 in. tube head monitor that allow the user to: <ul style="list-style-type: none">• display the patient worklist• review prior images (optional software)• copy or change technique• accept or reject imagesOther features include:• Integrated 1D barcode reader• 2 integrated battery chargers for detector batteries

		1	EVP Plus Imaging Processing Software Provides highly automated, state-of-the-art image processing. Uses multi-frequency image processing to increase latitude while preserving detail contrast in both over-penetrated and under-penetrated areas. Automatically processes and delivers diagnostic quality images to PACs based on look preference that can be uniquely specified by each site. Includes grid line suppression that prevents aliasing artifacts and application of a collimator mask. Five independent controls are available for the user for image adjustments in an intuitive user interface.				
		1	IHE Schedule Workflow Software Automatically notifies the HIS/RIS about the status of the exams. Includes DICOM Modality Performed Procedure Step (MPPS) that can send exposure Information including DAP values (if installed) to the HIS/RIS.				
		1	Modality Worklist Software Facilitates automatic transfer of patient and procedure data from your HIS/RIS system, eliminating manual data entry, and increasing technologist productivity.				
		1	RMS RMSSW allows remote access to Revolution for diagnostic service access and the ability to download software when required.				
		1	Portable Grid and Holder 200 LPI 8:1 40-72 DECUB				

Item	CAT #	QTY	Description	List Unit	Govt.	Govt. Unit	Ext. Net
			<p>Ultra lightweight grid holder with two handles for easy positioning in any orientation. Rounded edges and smooth surfaces allow it to slide easily behind patients. Hard rubber corners, internal cushioning and energy absorbing design help to reduce shock from dropping.</p> <ul style="list-style-type: none"> • Grid holder with handle on both the long and short axis • Ratio is 8:1 • Al interspace material • Resolution is 200 lp/inch grid (short axis lines) • 40-72 Focal Distance Decubitus (grid lines parallel to short axis) • 1.61 kg (3.55 lb) 				
		1	<p>Remote Exposure Switch</p> <p>Wireless, remote x-ray exposure switch for maximum mobility in making portable exposures</p>				
		1	<p>DRX-1 Detector</p> <p>Wireless, cassette-size, 35 x 43 cm GOS Detector</p>				
		1	DRX Detector Battery				
		1	<p>DAP Meter</p> <p>Measures the Dose Area Product of the x-ray tube for an exposure and documents this in the DICOM header. With the optional IHE Scheduled Workflow Software the DAP data will be sent to the RIS via DICOM Modality Performed Procedure Step (MPPS).</p>				
		2	DRX Detector Battery

		1	STANDARD SIDE PANELS FOR DRX-REVOLUTION				
		1	FIPS OPTION/FOR DRX-REVOLUTION				
		1	STANDARD COLLIMATOR FOR DRX-REVOLUTION				
		1	Cord Reel (USandC)				
2		1	Professional Services				
		1	Basic User Training (1 Day)				
		1	Applications DRX REVOLUTION Key Operator Training - 2 days To provide the Operator with the skills necessary to use the Revolution system and produce images for diagnostic interpretation. It also provides an overview of Key Operator functions to allow the Key Operator to define system requirements and procedures necessary to configure the system according to the site's workflow environment. The Key Operator training is provided using the train-the-trainer philosophy, thus Key Operators can continue training your current staff as well as new staff in the future.				

Optional
