1	<p data-bbox="241 867 391 888">SonoSite EDGE</p> <p data-bbox="152 894 867 1171">SonoSite EDGE high-resolution, all-digital, 8.5-pound (3.85 kg) ultrasound system with 12.1in. LED display. This product is designed with SonoSite's proprietary Chip Fusion Technology that integrates digital signal processing and multiple system functions into a custom application-specific integrated circuit (ASIC) microchip. As a result complex system functions that typically require several large circuit boards can be accomplished using a small chip in a compact space. SonoSite EDGE high-resolution, all-digital, 8.5-pound (3.85 kg) ultrasound system with 12.1in. LED display. This product is designed with SonoSite's proprietary Chip Fusion Technology that integrates digital signal processing and multiple system functions into a custom application-specific integrated circuit (ASIC).</p> <p data-bbox="152 1173 854 1220">The purchase of the EDGE visualization tool includes the following software technologies:</p> <ul data-bbox="152 1222 735 1346" style="list-style-type: none">- 2D grayscale with SonoMB Multi Beam Technology- Auto Gain with SonoADAPT Tissue Optimization Technology- M-Mode- Clips Storage- Application specific calculation packages <p data-bbox="152 1348 867 1625">The EDGE combines the high performance of cart-based systems with the speed, flexibility and durability of hand-carried ultrasound. 8 GB of on-board Flash memory will retain enough data for over 40 standard exams (or 2,400 seconds of clips, 1,200 still frames and 40 report pages) even after power is turned off. The system supports USB media playback, and connectivity is accomplished through one of two USB slots on the system, which allow for direct sharing of images (JPEG) and Clips (MPEG4) to a PC or Mac. Additional connectivity is achieved via the EDGE Mini-Dock, to meet your specific needs. The system supports a HIPAA compliance tool set for the protection of sensitive information and PC direct connectivity capability (through USB Memory Stick or via SiteLink and USB Cable ordered separately).</p> <p data-bbox="152 1627 867 1751">EDGE's reliability and durability are backed by a five-year standard warranty, which is included in the price of the system. Software upgrades to the main system and transducer databases are accomplished through one of two USB ports on the system. Also includes battery, ultrasound gel, and user guide on a CD (Printed user guides also available as a purchasable option).</p> <p data-bbox="152 1753 867 1824">Additional features available to add to the Edge system include: SonoMBe, PW Doppler, TDI PW, CW Doppler, DICOM, Worksheets, and a full array of multi-frequency, broadband transducers.</p> <p data-bbox="152 1827 867 1877">Included with the purchase of your SonoSite EDGE, you will receive the system battery, ultrasound gel, a user guide CD.</p>	1

2	<p data-bbox="233 359 634 380">- Color Application Software Package Edge</p> <p data-bbox="152 384 818 432">This package provides the following capabilities for the transducers that support these features:</p> <ul style="list-style-type: none"> <li data-bbox="152 436 867 506">- Tissue Harmonic Imaging (THI), a capability in which the system transmits at one frequency and receives at a higher harmonic frequency to reduce noise and clutter and improve resolution. <li data-bbox="152 510 867 579">- SonoHD Imaging Technology, technology which significantly reduces speckle noise while enhancing tissue margins, thereby dramatically improving contrast and structural resolution. <li data-bbox="152 583 867 653">- Velocity color flow imaging provides the clinician with the color sensitivity to perform color Doppler examinations with all transducers during a clinical procedure. <li data-bbox="152 657 565 678">- PW Doppler is available on all transducers. <li data-bbox="152 682 867 737">- CW Doppler is a quantitative assessment of blood flow with Duplex imaging for higher flow velocities. 	1
3	<p data-bbox="233 793 672 814">- DICOM Bundle (Print/Store/Worklist Mpps Sc)</p> <p data-bbox="152 819 854 894">The DICOM complete package includes the capability to interface with your PACS network with the complete offering of DICOM Print, Store, Worklist, storage commit, and modality perform procedure step.</p>	1
4	<p data-bbox="233 978 813 999">- L25X / 13-6 MHZ Transducer Transverse Biopsy Compatible</p> <p data-bbox="152 1003 867 1157">L25x / 13-6 MHz multi-frequency, broadband, 25 mm linear array transducer for nerve, vascular, venous, ophthalmic, musculoskeletal, and superficial exams. Supports 2D with SonoMB Multi Beam Technology and Auto Gain capabilities, SonoHD Imaging Technology, M-mode, Color Power Doppler, Velocity Color Flow Doppler and Pulsed Wave Doppler. Transverse biopsy guide available. 1-meter drop-test durability. Maximum depth is 6 cm.</p>	1
5	<p data-bbox="233 1241 691 1262">- P21X / 5-1 MHZ Transducer Biopsy Compatible</p> <p data-bbox="152 1266 867 1419">P21x / 5-1 MHz phased array transducer for cardiac, abdominal and obstetric, TCD and orbital exams. Supports 2D with SonoMB Multi Beam Technology and Auto Gain capabilities, SonoHD Imaging Technology, Tissue Harmonic Imaging, M-Mode, Velocity Color Flow Doppler, Color Power Doppler, Pulsed Wave, TDI Pulsed Wave, and Continuous Wave Doppler. 1 meter drop-test durability. Maximum depth is 35 cm.</p>	1
6	<p data-bbox="233 1503 363 1524">- EDGE Stand</p> <p data-bbox="152 1528 850 1604">Ergonomic stand and mobile work platform for the EDGE system and transducers. Complete with power supply, mini-dock and accessory basket. OEM peripherals include: B/W or color printer. Unable to use together</p>	1
7	<p data-bbox="233 1688 743 1709">- Triple Transducer Connect (TTC) w/ quick disconnect</p> <p data-bbox="152 1713 867 1759">Three-transducer module for mobile docking system that allows connection of up to three transducers simultaneously while the system is docked in the Stand</p>	1
8	<p data-bbox="233 1843 496 1864">- User Guide EDGE, English</p> <p data-bbox="152 1869 586 1890">EDGE Ultrasound System User Guide, English</p>	1
