| 1 | SC2000 3D Volume ICE solution This bundle provides an integrated solution for the real-time volumetric ICE on the ACUSON SC2000(tm) Ultrasound System. Real-time volumetric ICE guides Electrophysiology procedures and Structural Heart procedures with superior visualization to 2D ICE. It reduces procedure time, reduces fluoroscopy exposure and enables a safer alternative to transesophageal echo by using local vs general anesthesia. This bundle package includes the following items: • ACUSON SC2000 mainframe system • 2D Swiftlink and 3D Swiftlink V connector • Native TEQ (tissue equalization software) • Cartosound Communication Package |
| 1 | 4V1c Transthoracic Transducer A vector wide-view array transducer for transthoracic adult and pediatric echocardiography. |
| 5 | SC2000 AcuNav V (Box of 2) The ACUSON AcuNav(tm) V volume ultrasound catheter, our first in volume intracardiac echo (ICE), adds the benefit of volume imaging to the existing ACUSON AcuNav technology, dramatically improving and simplifying the visualization of anatomy and tools. In addition to easier device guidance and navigation, the ACUSON AcuNav V catheter allows physicians to optimize the use of local versus general anesthesia for specific procedures. This option includes a box of 2 ACUSON AcuNav V catheters. |
| 1 | Manual AcuNav US Catheter English |
| 1 | AcuNav V US Catheter English Manual |
| 1 | SC2000 3.5 SW Base software to support all release 3.5 imaging and advanced applications. |
| 1 | SC2000 3.5 Operating Sys, English |
| 1 | SC2000 English keyboard |
| 1 | 115V Power Supply SC2000 |
| 1 | NTSC Video Interface SC2000 |

| 1 | <p>SC2000 eSie Measure Pkg</p> <p>The eSie Measure(tm) workflow acceleration package is the first innovative application that provides semi-automated measurements for routine echo exams, improving efficiency and consistency for end users. Based on a knowledge base of over a thousand expert-traced datasets, the eSie Measure package improves accuracy and reproducibility. With a push of a button, the eSie Measure package semi-automatically generates reliable measurement data for 2D, M-mode and spectral Doppler, increasing consistency of each exam, while reducing key strokes.</p> |
| 1 | <p>SC2000 Adv Vascular Imaging Bundle</p> <p>Bundle includes the 9L4, a linear array transducer for peripheral and cerebrovascular imaging and Advanced SieClear(tm) spatial compounding which that offers image quality with unrivaled detail and contrast resolution.</p> |
| 1 | <p>SC2000 3.0 Cardiac Base System</p> |
| 1 | <p>Initial onsite training 24 hrs-FMV</p> <p>Up to (24) hours of on-site clinical education training, scheduled consecutively (Monday - Friday) during standard business hours for a maximum of (4) imaging professionals. Uptime Clinical Education phone support is provided during the warranty period for specified posted hours. This educational offering must be completed (12) months from install end date. If training is not completed within the applicable time period, Siemens obligation to provide the training will expire without refund.</p> |
