Performance Work Statement (PWS) for Combined Heat and Power (CHP), ECM and Solar PV Commissioning

GENERAL INFORMATION

1. Title of Project: Combined Heat and Power (CHP), Energy Conservation Measures (ECM), and Solar Photovoltaic (PV) system commissioning

2. **Background** The Department of Veterans Affairs (VA) is in process of designing and installing solar photovoltaic (PV) and Combined Heat and Power (CHP) systems at multiple facilities. These renewable energy systems will help the VA meet Executive Order requirements related to “greening the government”, sustainability planning, and energy security and independence, and the VA’s goal of increasing its renewable energy consumption to 20% by 2020.
3. **Scope:** The scope of this Indefinite Delivery Indefinite Quantity (IDIQ) contract for services is for commissioning of CHP, ECM and solar PV projects which will consist of fixed-tilt and/or single axis-tracking systems and will be installed on rooftops and/or carport structures and/or be ground mounted. The scope of work includes Construction Management for limited projects. The VA-provided project documentation supporting the commissioning task will include pre-award feasibility and Environmental Assessment (EA) studies performed for each project location. The maximum amount is estimated at 4.2 million dollars per contractor over a five year performance period. The contract has a onetime minimum of \$ 20,000 per contractor. Contractor(s) must demonstrate they possess both general and specialized capability, knowledge, and skills.
4. **Objectives:** The objective of this contract is to provide task-level commissioning agency support to the VA in the design, construction, and operation of Combined Heat and power (CHP), energy conservation measures (ECM), and PV system projects. This will be accomplished through a series of project documentation reviews, physical inspection, operational testing, and task-level technical analysis, management, and reporting. The commissioning tasks to be completed for each project are summarized as follows:
 - a. Perform an off-site pre-design project documentation review (e.g. feasibility studies, design-build contracts, and other supporting project documentation as appropriate). The results and recommendations of this review will be reported in writing and be used to facilitate a design kickoff meeting with the VA project staff and the design-build (D-B) contractor. The points of discussion will be reported in writing and be used to support subsequent commissioning activities.
 - b. Perform two (2) off-site design and project management documentation reviews - the first at 50% completion and the second at 100% completion. The results and recommendations of these reviews will be reported in writing and be used to support subsequent commissioning activities.
 - c. Perform on-site physical inspections and operational testing for the measured and verified (M&V) acceptability of as-installed system along with concurrent as-built project documentation reviews. The results and recommendations of these inspections and reviews

will be reported in writing and be used to support subsequent, as-needed commissioning activities.

- d. Provide technical support to the VA for the resolution of unusual or extraordinary issues encountered during or after commissioning process.
 - e. Provide whole building commissioning and construction management
5. Period of Performance: Period of Performance for this contract is a base year plus four option years (total five years) from date of award.
 6. Type of Contract: This is anticipated to be an IDIQ contract. Firm Fixed price task. orders will be generated with a detailed PWS and issued by a Contracting Officer at VA Central Office (Washington DC).
 7. Place of Performance: The primary place of performance will be at the contractor's facilities; however, some task orders may require work to be performed at a Government facility. Any work at the Government site shall not take place on Federal holidays or weekends.

CONTRACT AWARD MEETING

Each review will occur when the technical design is approximately 60% and 100% complete. The Agent will document the meetings and advise the VA of any additional design or technical feasibility work needed and where the design is consistent with the Request for Proposal Scope of Work based on the feasibility study and Design-Builders proposed work scope.

For those systems where design is already complete, limited review of the 100% Design will be completed to familiarize the agent with the site.

Deliverables: For each site:

- CHP system commissioning project management plan
- CHP System Request for Proposal Scope of Work based on the Feasibility Study and 60% Design Review comparison Summary Report
- CHP System 100% Design Review Summary Report

Orlando	Natural Gas (3) 2.6 MW gen set	7,800	Familiarization Design Review & Commissioning

Task B: Acceptance testing/commissioning

Represent the VA's interest in ensuring proper operation of the CHP system installations, acting as a Third Party Commissioning Agent (TPA), by

1. Participating in the development of acceptance testing and commissioning protocols during the design development process beginning with the 60% design submission
2. Participating in the onsite acceptance testing and commissioning processes for the installed CHP systems.

Provide technical expertise directly related to the operation of the installed systems; evaluating facility thermal and electric system operations for energy efficiency opportunities with the new CHP system, and verify applicable code, Project Contract Documents and VA specification/Design Guideline compliances by project design review. The CHP installation should be reviewed to comply with applicable industry standards, best practices and the requirements set forth in the project contract documents. To complete this task, site visits to each installation will be necessary during the design phase, construction phase and commissioning phase for each project as necessary for the size, complexity and performance based commissioning requirements of each project. For each site, as required for the current state of each project, the Design/Builder's Commissioning Agent (CxA) will perform the following tasks, with required additional support from the TPA:

1. Review Submittals and Shop Drawings:
 - a. TPA is not required to review submittals and shop drawings.
2. Maintain CxA's Master Issues Log:
 - a. TPA will oversee and help maintain an ongoing log of issues, their status, and final resolution to prevent issues being discussed and worked out between the Cx, Contractor, and A/E without the Owner's involvement.
3. Develop Component Verification Checklist:
 - a. TPA will review all checklists for completeness and applicability to ensure all aspects of the equipment/system installation; including physical access, support, vibration, acoustics, and all supporting disciplines (piping, electrical, controls, etc.) are addressed.
4. Verify Equipment Installation:

- a. TPA will perform one trip, prior to Functional Performance Testing (FPT), to review installation and back check sample verification checklists in order to ensure the systems are ready for FPT.
5. Develop Functional Performance Test Scripts (FPT):
 - a. TPA will review FPT Scripts for completeness and applicability to ensure that systems are checked for proper operation under all different operating modes and at various points of load and capacity, and that these checks are comprehensive and thorough.
6. Witness Functional Performance Test Scripts (FPT):
 - a. TPA will witness and document FPT on site to verify FPT is properly executed and that the results are labeled Pass, Fail, or Conditionally Pass; requiring additional testing, if required.
7. Prepare O&M Manual/Systems Manual and Record Drawings (optional – to be evaluated individually on a case-by-case basis):
 - a. TPA will review O&M Manuals, Systems Manual, and Record Drawings for format, content, and completeness, as well as provide comments in order to ensure a readily accessible reference that is organized, complete, and easily referenced by facility personnel.
8. Perform Training/Curricula:
 - a. TPA will review proposed training curricula, resumes of trainers, and proposed training schedule, as well as provide comments in order to ensure systems are maintained in prime operating condition and operated at peak efficiency through the use of comprehensive operational training.

Deliverables:

9. Final Commissioning Report:
10. Review of draft copy of the final Cx report prepared by the CxA and offer comments prior to its final edition in order to ensure the final Cx report is a compilation of all Cx activities with documentation organized and included in Appendices for future reference

(i) Taxes are considered delinquent if both of the following criteria apply:

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

C.7 52.219-28 POST-AWARD SMALL BUSINESS PROGRAM REREPRESENTATION (JUL 2013)

(a) *Definitions.* As used in this clause—

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause. Such a concern is "not dominant in its field of operation" when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(b) If the Contractor represented that it was a small business concern prior to award of this contract, the Contractor shall rerepresent its size status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon the occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts—

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS)

code assigned to this contract. The small business size standard corresponding to this NAICS code can be found at <http://www.sba.gov/content/table-small-business-size-standards>.

(d) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

SECTION D - CONTRACT DOCUMENTS, EXHIBITS, OR ATTACHMENTS

D.1 52.212-1 INSTRUCTIONS TO OFFERORS—COMMERCIAL ITEMS (APR 2014)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) "Remit to" address, if different than mailing address;
- (8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(b) for those representations and certifications that the offeror shall complete electronically);
- (9) Acknowledgment of Solicitation Amendments;
- (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
- (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids).* The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct

discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards.* The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

 - A. Personnel—Qualifications and Experience,
 - B. Understanding of the Requirements, and
 - C. Corporate Experience and Capability
2. Past Performance
3. Cost/Price

N/A	Cover Letter	2 pages
Volume I a	Technical Approach	50 pages
Volume I b	Past Performance	10 Pages
Volume II	Solicitation/RFP with completed Schedules of Prices and associated tables; completed fill-ins in Contract Administration Data; Representations, Certifications, and Other Statements of Offerors	No page limit

1. TECHNICAL APPROACH:

The Technical Approach factor which is comprised of the following subfactors in descending order of importance:

- A. Personnel—Qualifications and Experience,
- B. Understanding of the Requirements, and
- C. Corporate Experience and Capability

A. Personnel—Qualifications and Experience:

The quotation must identify and provide résumés on all proposed key personnel and must identify the status of those personnel at the time of the quotation. To identify status the quotation must clearly state whether each proposed key person is currently a full time or part time employee of the firm or someone who has agreed to join the firm if the quotation is selected for award. Résumés of all key personnel who are not currently employees must be accompanied by a signed and notarized statement that the person has agreed to the use of his or her resume in the quotation package.

- (1) Documentation demonstrates the ability of the prime SDVOSB to obtain, retain, and provide adequate licensed and experienced staff (solar and CHP commissioning experience) with the capability and knowledge to support the PWS
- (2) Documentation demonstrates that professional experts, senior personnel and other members of the prime team have training and education and experience with performing (1) Solar PV commissioning, (2) CHP commissioning,
- (3) Documentation demonstrates that selected project managers and/or team leads and team members have training and experience in maintaining renewable energy, Mechanical and Electrical projects such as those listed in the PWS.
- (4) Documentation demonstrates that professional experts have training and/or education, and experience in project management and/or program management, including use of work breakdown schedules and risk management.

B. Understanding of the Requirement

The prime contractor will demonstrate their understanding of the PWS requirements (both for CHP and Solar PV) as demonstrated by the rationale and completeness of elements that will promote VA initiatives such as (1) scope and complexity and knowledge and skill area as they relate to the required services of the PWS, (2) demonstrate a project management approach to commissioning of Solar PV and CHP projects, (3) demonstrate methodologies and systems that are state-of-the-art and appropriate, (4) developer selection approach, (5) methods of communication with the Office of Asset Enterprise Management, (6) and demonstrate an understanding of the VA or similar environment and VA's current and upcoming challenges to achieve the PWS requirements.

To respond to this part, the offeror shall respond to the sample commissioning tasks listed in the PWS. At minimum, they shall demonstrate that they have the required staffing, commissioning plan and application to the plan, and an acceptable technical approach.

C. Corporate Experience and Capability

Evaluation of this subfactor will be based on longevity, size, scope, reputation, and financial stability to maintain capability and perform the requirements throughout the entire period of the contract.

Note: (If the firm has multiple divisions and locations, limit the description and documentation to only the division(s) and location(s) proposed to do the work).

2. PAST PERFORMANCE

The Offeror will be evaluated on their past performance. Offeror shall submit three references (provide an email and telephone number of point of reference and also the project title and contract number) for recent (from the past three years) and relevant experience (i.e., experience in providing the services as described by the Performance Work Statement contained in the solicitation and services that are similar in scope – CHP, ECM, and Solar PV)). For Past Performance, the information used shall consist of reference data provided by the Offeror in their proposal submission, information in both Government and commercial databases, and other information available as VA determines is reasonable in order to determine the performance risk level.

Offerors shall also submit three references from each entity listed in the proposal, to include: joint ventures and partnership. Lack of Past performance will not result in offerors being rated favorably or unfavorably.

3. COST/PRICE

This Volume shall be organized in such a manner to address and/or provide sufficient details in price breakdown of the quotation. Information must be detailed enough to clearly document that the proposed mix of labor categories, the IDIQ labor category rates, are accurate, realistic, complete and consistent with the proposed technical volume and with the requirements of the PWS. Documentation shall also explain any description of any assumption of terms and conditions as well as a specific description of any pricing and technical assumptions that the response is predicated on. (All rates are loaded). Provide the escalated rate for the option years (inclusive).

Quotations which are unrealistic in terms of technical commitment or unrealistically low in price will be deemed to show an inherent lack of technical competence or failure to comprehend the complexity and risk of the contract requirements. This may be grounds for the rejection of the quotation. The Government may reject any quotation that is unreasonable or materially unbalanced as to prices. An unbalanced quotation is one that incorporates prices significantly less than cost for some items and/or prices that are significantly overstated for other items.

The Government intends to award without discussions on the basis of initial offers; however, it reserves the right to hold discussions and solicit final revised quotation if deemed necessary. This will be awarded as a multiple award. This will be awarded as best value award

Proposals will not be accepted from those contractors that are installers of solar and CHP systems (for VA/OAEM/NEBC) or are currently supporting OAEM green team projects.
