CARDIONICS  
**SimScope Hybrid Simulator**

The SimScope Hybrid Simulator™, for real-time standardized patient interaction and assessment. Your auscultation solution for real-time seamless standardized patient interaction and assessment.

With the new SimScope WiFi™ upgrade, users are able to utilize wireless communication between the Simscope™ and their computer allowing them to seamlessly select and change the pathological sounds and conditions of any standardized patient, O.S.C.E. or low-fidelity manikin.

WiFi Upgrade Available for existing SimScopes™  
Simple one on one student/patient interaction.  
Ideal for use with Standardized Patient & O.S.C.E. programs.  
Listen at anatomically correct auscultation sites.  
Easy to use software enables maximum flexibility; the system adapts to your specific requirements allowing virtually unlimited site selections and scenarios.  
Utilizes the extensive Cardionics proprietary heart, lung, bowel, and bruit sounds library.  
Quick change AAA battery provides up to 12 months of battery life.
