1	- SonoSite S-Womens Heath	1			
---	---------------------------	---	--	--	--

SonoSite S-Women's Health high-resolution, all-digital, 8.35 pound (3.79 kg) ultrasound system with 10.4 in digital display. The system is optimized specifically for the needs of the Women's Health customer. Available transducer and for this product include: C60x (Gyn, OB), P21x (OB), ICTx (Gyn, OB), HFL38x (Vas, Breast), HFL50x (Breast), and L38x (Vas, Breast). Standard features include display module, 2D grayscale with SonoMB Multi Beam Technology, Tissue Harmonic Imaging, SonoHD Imaging Technology and Auto Gain, SonoADAPT Tissue Optimization Technology, Velocity Color Flow for Power Doppler, Clip Storage, Follicle measurements and report, Breast exam report, OB measurements and reports, HIPAA compliance tool set, PC direct connectivity capability (through USB Memory Stick or via SiteLinkandUSB Cable ordered separately). Also includes battery, ultrasound gel, and user guides.

The S-Women's Health combines the high performance of cart-based systems with the ease-of-use, speed, flexibility and durability of hand-carried ultrasound. 4 GB of on-board Flash memory will retain enough data for over 20 standard exams (or 1,200 seconds of clips, 600 still frames and 20 report pages) even after power is turned off. Connectivity is accomplished through three USB slots on the system which allow for direct sharing of images (JPEG) and Clips (MPEG4) to a PC or Mac. An optional USB keyboard is also available.

The system uses a Video Electronics Standards Association (VESA) Flat Display Mounting Interface (FDMI) MIS-D 75 (75mm x 75mm) and MIS-D 100 (100mm x 100mm.), allow to many commercially available mounts. An optional stand is also available.

Reliability and durability are backed by a five-year standard warranty, which is included in the price of the system. Software upgrades to the main system and transducer data bases are both accomplished through one of the three USB ports on the system.

Additional features available to add to our system include: A full array of multi-frequency, broadband transducers, M-Mode, PW Doppler, and a B and W Printer. This product is designed with an intuitive interface with Chip Fusion Technology. Included with the purchase of your SonoSite S-Women's Health product, you will receive four consecutive hours of installation provided by a SonoSite Clinical Specialist. The installation includes an overview of the product and accessories purchased, training on the features, functions, and user interface, and system care/maintenance. Available for US locations only. A 1 day for system installation can be purchased separately as needed.

2	- PW Doppler	1
	PW Doppler enables a quantitative assessment of blood flow through duplex imaging.	
3	SonoMBe, S Series	1
	Proprietary software that enhances the systems ability to aid needle visualization.	
4	- HFL50x / 15-6 MHZ Transducer Biopsy Compatible	1
	HFL50x / 15-6 MHz multi-frequency, broadband, 50mm linear array transducer for small parts, breast, musculoskeletal and nerve. Supports 2D with SonoMB, Sono UltraRes Technology, Multi Beam Technology and Auto Gain capabilities, SonoHD Imaging Technology, M-mode, Color Power Doppler, Velocity Color Flow and Pulsed Wave Doppler. Biopsy guide available. Maximum depth is 6 cm.	
5	- S-Series V-Universal Stand	1
	Ergonomic stand secures SonoSite S Series system, provides an ergonomic mobile work platform and battery. Also provides up/down and tilt movement capabilities for the attached S-Series system. Power supply, keyboard tray, accessories basket for the S Series product is included	
6	Sony Up 897 Md Black and White Video Printer	1
	Medical grade, monochrome video printer with interface cables. Worldwide power (100V-240V, 50/60Hz) and video (NTSC/PAL). North American power cord supplied by manufacturer.	
7	- USB Keyboard	1
	USB Keyboard for the S Series
