

**JUSTIFICATION FOR SINGLE SOURCE AWARDS IAW FAR 13.106-1  
(OVER MICRO-PURCHASE THRESHOLD(\$3K) BUT NOT EXCEEDING THE SAT (\$150K))**

IAW FAR 13.104, COs must promote competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government, considering the administrative cost of the purchase. When competition is not practicable, IAW FAR 13.106-1(b), COs solicit from a single source for purchases not exceeding the simplified acquisition threshold. COs may solicit from one source if the CO determines that the circumstances of the contract action deem only one source reasonably available (e.g., urgency, exclusive licensing agreements, brand-name or industrial mobilization). IAW FAR 13.106-3(b)(3), COs are required to include additional statements **explaining the absence of competition** (see 13.106-1 for brand name purchases) if only one source is solicited and the acquisition does not exceed the simplified acquisition threshold (does not apply to an acquisition of utility services available from only one source) or supporting the award decision if other than price-related factors were considered in selecting the supplier. This template when completed can be used to document single source awards IAW FAR 13.106-3(b)(3). Note: Statements such as "only known source" or "only source which can meet the required delivery date" are inadequate to support a sole source purchase.

**2. BRIEF DESCRIPTION OF SUPPLIES OR SERVICES REQUIRED AND THE INTENDED USE:**  
The Thermocool Smarttouch Ablation Catheter works by scarring or destroying tissue in your heart that triggers an abnormal heart rhythm. In some cases, ablation prevents abnormal electrical signals from traveling through your heart and, thus, stops the arrhythmia.

**3. UNIQUE CHARACTERISTICS THAT LIMIT AVAILABILITY TO ONLY ONE SOURCE, WITH THE REASON NO OTHER SUPPLIES OR SERVICES CAN BE USED:**  
This request is for the procurement of J&J products. These products are exclusive in their design and characteristic as well as being machine specific to the J&J Carto3 Mapping System. Because, of these product's construction and inherent physical characteristics, competing products may not replace them without the possibility of causing additional complications during patient care.

**4. REASON THAT SUGGESTED SOURCE IS THE ONLY SOURCE, WHICH CAN PROVIDE THE SUPPLIES OR SERVICES:**  
This source is the only source that can provide these products, because the Thermocool Smarttouch Catheters are only compatible with the J&J Carto3 Mapping System; For this very reason these products are exclusive in their design and characteristic as well as being machine specific to the J&J System.

**5. DESCRIPTION OF MARKET RESEARCH CONDUCTED AND RESULTS OR STATEMENT WHY IT WAS NOT CONDUCTED:**  
No market research was conducted because of the fact that these Thermocool Smarttouch Catheters are exclusive in their design only to the J&J Carto3 Mapping system we currently have in the Cardiac Cath Lab. No other electrophysiology ablation catheters will work with this Mapping System up in the Cardiac Cath Lab.

**6. Contracting Officer's Certification:** *Purchase is approved in accordance with FAR13.106-1(b). I certify that the foregoing justification is accurate and complete to the best of my knowledge and belief.*
