- e) The contractor shall ensure that all employees drawing water samples shall provide proof of having taken and pass the annual TB test, and provide proof of having received other inoculations such as measles, mumps, rubella (MMR).
- f) The government reserves the right to refuse any contractor employee at any time.

4. Required Analytical Sampling:

The contractor will provide the labor and materials to conduct sampling for potable and non-potable water systems throughout the Medical Center. The sampling will be conducted on a scheduled quarterly basis, with a minimum of ten (10) outlets on the hot water distribution system and ten (10) outlets on the cold water distribution system; in all VHA buildings in which patients, residents, or visitors stay overnight. Additionally, water samples will be collected from, any hot or cold water storage tanks, heat exchangers, and from any other locations by request of the Contracting Officer Representative (COR). Samples must be delivered to the analytical laboratory within 30 hours from when they are collected. All sampling must be done by the contractor; no field work can be done by a subcontractor.

The contractor must be able to provide sampling within two (2) business days of notification from the COR. Samples will be collected at various locations throughout the facility as designated by the COR or his representative. Contractor must schedule for testing in all hospital buildings which house overnight patients as well as some additional high risk locations to include, but not limited to Emergency Department, Dental Clinic and Pharmacy. Samples will be collected using proper standard sampling techniques as described in the SOW. Proper chain of custody forms will be completed by the contractor during the collection of samples. Samples must be delivered to the testing laboratory per the CDC and VHA Directive 1061 for sample collection. The CDC Method for *Legionella* culturing known as "Procedures for the Recovery of *Legionella* from the Environment" will be used for the sample analysis. Other methods of *Legionella* analysis are prohibited. The contractor will provide a written report of the analytical sampling results within 10 to 14 days as described below. All aspects of water sampling will be held in strict confidence and are to be discussed only with the VA Engineering Service.

5. Qualifications, Sampling and Duties of the Contractor

- a. Contractor must have experience in *Legionella* testing.
- b. Prior to sample collection, the testing laboratory should be consulted regarding requirements and recommendations on sample collection to include sample volume and shipping. Sample collection must be conducted using the following procedures:
 - 1) Outlet will be run for 15 seconds prior to collecting sample.
 - 2) When sampling potable hot and cold water fixtures, cold water will be drawn prior to collection of hot water sample.
- c. At the time of sample collection, the following must be tested and documented:
 - 1) Water temperature testing using probe.
 - 2) Level of residual biocide using EPA approved method for potable water.
 - 3) pH testing using probe or equivalent.
- d. Sample collection bottles must have the following:
 - 1) Sterile plastic bottle with cap.
 - 2) Sodium thiosulfate preservative.
 - 3) Adhesive label with sample identification.
- e. Samples will be stored in an ice chest with cold packs until delivered to the laboratory. The Contractor will provide a written, electronic Analytical Interpretation from each Testing Laboratory report received. In addition, two hardcopies of each Analytical Interpretation must be provided to the COR. This report will be delivered within two (2) days of receipt of the testing laboratory results. If results indicate positive counts of *Legionella* bacteria, the COR will be contacted via phone, or email, the day of receipt of the results. This analytical interpretation will include the following:
 - 1) A description of the sampling project, including outlet locations, and results.

- 2) Recommendations for corrective actions, if necessary. These recommendations should be based on the facility's existing Water Safety Committee and the guidelines as per the VHA Directive 1061.

6. Qualifications and Duties of the Testing Laboratory

In accordance with VHA Directive 1061, the laboratory processing the water samples for *Legionella* must be certified by the CDC ELITE program as proficient at performing the culture of *Legionella* species from environmental samples. The testing laboratory will utilize the "CDC Method" for *Legionella* culturing known as "Procedures for the Recovery of *Legionella* from the Environment" this method includes the "Presumptive Phase" and "Confirmatory Phase" as described below:

- a. The "Presumptive Phase" will be used for potable water and non-potable water. Potable waters will be filtered and plated on Buffered Charcoal Yeast Extract (BCYE) agar for primary culturing of *Legionella*. Non-potable water requires an acid buffer treatment prior to plating on the BCYE. Due to the overall high bacterial count present in the non-potable water, this step is used to reduce the number of these non-legionella bacteria from the water before culturing.
- b. After the "Presumptive Phase", the "Confirmatory Phase" will be conducted. All colonies that do not grow on the BCYE agar plates will be analyzed using the "*Legionella* Latex Test". This test is a serology method used to identify *Legionella* colonies by its serotype. This test will determine *Legionella pneumophila* serogroup 1 and serogroup 2-14. It will also identify the presence of non-pneumophila *Legionella* bacteria, or "other *Legionella* species" including *Legionella anisa*, *Legionella bozemanii*, *Legionella dumoffii*, *Legionella gormanii*, *Legionella jordanis*, *Legionella longbeachae* 1 and 2, and *Legionella micdadei*.
- c. Upon completion of the *Legionella* culturing and enumeration, the original results will be emailed to the contractor for immediate interpretation. The testing laboratory shall submit copies of the reports tests promptly and directly to the contractor. All reports shall contain at least the following information:
 - 1) Testing Laboratory Name and Address

 - 11) Method of Analysis

7. Water Sample Result Reporting and Tracking

- a. All positive sample result reports will be sent to the VA via email by contractor within 24 hours of the receipt of positive sample results from lab. A list of email recipients will be provided after contract award.
- b. Attached to email from contractor will be a recommended course of mitigation action.
- c. All sampling results will be tracked on a spreadsheet approved by the COR. The spreadsheet must include "L" results, free chlorine residual, pH, water temperature, date. Mitigation date, locations (room number) and retesting. Spreadsheet will be submitted monthly and after each retest cycle.

(h) *Certification Regarding Responsibility Matters* (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
