

IN-310: Department ID (tactile)

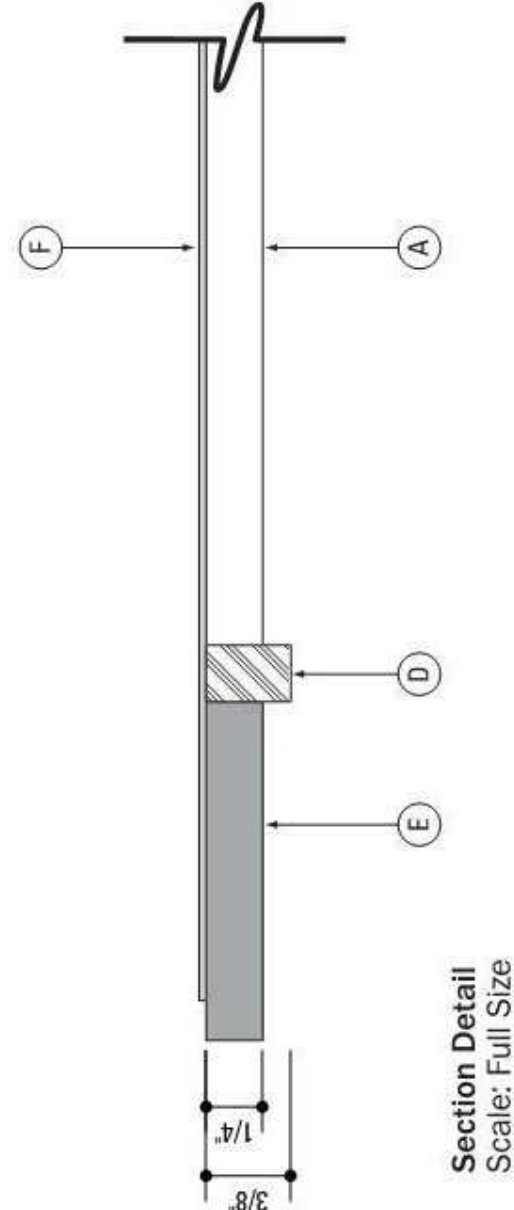

Application:

The Department ID is a tactile sign located next to the door of a department. This sign is intended to create hierarchy between a departmental room entry vs. a typical room entry. See mounting details on page 33.

Scale: Half Size

- A. 3/16" Acrylite P95 colorless acrylic sign panel. Paint second surface to match C-2. Do not paint edges.
- B. Rowmark tactile copy tipped into A with minimum 1/32" relief. Color to match B-1. Typeface is Helvetica Bold Condensed.
- C. Clear acrylic bead Braille.
- D. 1/4" x 3/8" solid aluminum plate with #4 horizontal brushed finish and matte clear coat.
- E. 3/16" Acrylite P95 colorless acrylic sign panel. Paint second surface to match C-1. Do not paint edges.
- F. 1/16" thick black acrylic backer panel.

IN-130: Room ID Flag sign

Application:

The Room Identification Flag Sign is used to locate highly visited rooms in a hallway or corridor. These signs should be placed above the entry way to the room.

Two Line Layout
Scale: 3" = 1'-0"

- A. Brushed aluminum angle bracket mount to receive B, mechanically fastened to wall as required.
- B. Two 1/8" Acrylite P95 colorless acrylic sign panels back-to-back, paint both second (inside) surfaces to match C-2. Do not paint edges.
- C. Copy screenprinted to match C-2. Typeface is Helvetica Bold Condensed. Text to be right-aligned on sign face with bracket on left hand side, and left-aligned on opposite side.
