

## DEPARTMENT OF VETERANS AFFIARS

### Justification and Approval (J&A) For Other Than Full and Open Competition (<\$150K)

1. **Contracting Activity:** Department of Veterans Affairs, VISN 23, Fargo VA Health Care System, Fargo, ND. Project: 437-312, Remodel And Expand Urgent Care.
2. **Nature and/or Description of the Action Being Proposed:** This is a request for Centrak Real Time Locating System (RTLS) components for use with the existing equipment tracking and locating system. This is a partial requirement of Minor Project 437-312, Remodel and Expand Urgent Care.
3. **Description of Supplies/Services Required to Meet the Agency's Needs:** The project calls for Centrak RTLS components to be provided, installed and tested by the vendor to be used with the existing equipment tracking and locating system. This includes remote panels, power supplies, wireless readers/sensors and other miscellaneous items. Estimated cost of the security access control system work is [REDACTED] per the consulting engineer.
4. **Statutory Authority Permitting Other than Full and Open Competition:**
  - (X) (1) Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements per FAR 6.302-1.
  - ( ) (2) Unusual and Compelling Urgency per FAR 6.302-2
  - ( ) (3) Industrial Mobilization, Engineering, Development or Research Capability or Expert Services per FAR 6.302-3
  - ( ) (4) International Agreement per FAR 6.302-4
  - ( ) (5) Authorized or Required by Statute FAR 6.302-5
  - ( ) (6) National Security per FAR 6.302-6
  - ( ) (7) Public Interest per FAR 6.302-7
5. **Demonstration that the Contractor's Unique Qualifications or Nature of the Acquisition Requires the Use of the Authority Cited Above (applicability of authority):** The Fargo VA Health Care System's existing equipment tracking and locating system and components are by Centrak. Other products would not be fully compatible with the existing equipment tracking and locating system and would void the system certification.
6. **Description of Efforts Made to Ensure that the offers are solicited from as many potential sources as deemed practicable:** The existing equipment tracking and locating system is by Centrak and was installed under a previous competitively procured national project. This project removes selected system components, reinstalls selected system components and has the contractor install new system components as required by the contract documents and specifications. This project is a minor modification to the existing equipment tracking and locating system. Changing out the entire existing equipment tracking and locating system would be cost prohibitive.

7. **Determination by the Contracting Officer that the Anticipated Cost to the Government will be Fair and Reasonable:** Final determination that the cost will be fair and reasonable will be made by the Contracting Officer.
8. **Description of the Market Research Conducted and the Results or Statement of the Reasons Market Research Was Not Conducted:** Market research was not conducted or completed for the equipment tracking and locating system since under this project minor modifications are being performed on an existing system. It would be cost prohibitive to change out the equipment tracking and locating system entirely with a new system.
9. **Any Other Facts Supporting the Use of Other than Full and Open Competition:** New and reused system components must tie into the existing Centrak equipment tracking and locating system which must remain fully functional, operational and operational for compliance with national requirements. At this time, Fargo Engineering is unaware of any competing vendors whose products are fully compatible with the existing Centrak equipment tracking and locating system in use at the Fargo VA Health Care System.
10. **Listing of Sources that Expressed, in Writing, an Interest in the Acquisition:** None that Fargo Engineering is aware of at this time.
11. **A Statement of Actions, if any, the Agency May Take to Remove or Overcome any Barriers to Competition before Making subsequent acquisitions for the supplies or services required:** There are no other available vendors the Fargo VA Health Care System is aware of that have fully integrated and certifiable products for the existing Centrak equipment tracking and locating system. If in the future, other vendors are capable of supplying such products, the Fargo VA Health Care System will open competition to their products.
12. **Requirements Certification:** I certify that the requirement outlined in this justification is a Bona Fide Need of the Department of Veterans Affairs and that the supporting data under my cognizance, which are included in the justification, are accurate and complete to the best of my knowledge and belief.

  
Shawn Bergan  
Chief Engineer  
Fargo VA Health Care System
