

SOW – Expand Space to Develop New OR Suite

This project will build approximately 16,900 Sf of new space on top of the 1F portion of the JLM facility. The project will also renovate 7,500 SF of existing space. The overall project will build 8 new operating rooms and all of the support space required for a new OR suite. The contractor is to perform the work as shown in the plans and specifications developed by the Architect.
