- 2.3. Provide for the coordination, provision, installation, inspection, testing, instruction, and warranties of the Audiovisual System(s).
- 2.4. Provide all facilities, materials, equipment, transportation, and necessary labor for a complete and operational Audiovisual System(s).
- 2.5. Ensure all equipment provided by the Contractor is installed per manufacturer's specifications and warranted by the Contractor for a period of one year from the date of acceptance of each building.
- 2.6 Contractor shall provide all housing for AV equipment. The housing shall aesthetically complement the furniture in these rooms. Any metal housing must be approved by the COR.
- 2.7. System must work in conjunction with Microsoft Lync.
- 2.8. The government shall provide the required inputs.

3. Scope

- 3.1 The contractor shall provide and install a complete and operational Audio Visual system that is user-friendly and low maintenance. The AV system must meet the desired outcome in each type of room described in Section 4, System Requirements.
- 3.2 Provide Audiovisual System(s) compatible with VA's communications systems (i.e. telephone, video, and computer systems) and operations.
- 3.3 Coordinate exact location and installation of the equipment, power, conduit, and raceway systems.
- 3.4 Supply all control software, programming service codes, programming notes, files interactive source codes, media and associated software, touch panel design, passwords, licenses, dangles and "keys" or other associated control or programming items at no additional cost to the government.
- 3.5 The monitors/displays will connect to VA-owned computers.
- 3.6 All work on VA-owned equipment must be performed by a VA employee.

4. System Requirements:

4.1 Conference Room Type 2

- 4.1.1 AV system shall provide ability for basic presentation and small group collaboration. Input sources include a resident pc, digital and analog laptop inputs, an auxiliary input panel, and an Interactive Patient Television System (IPTV) decoder. The room will utilize an electronic whiteboard with video projector and attached speakers.

4.2 Conference Room Type 3

- 4.2.1 AV system shall provide ability for basic presentation and small group collaboration. Input sources include resident pc, digital and analog laptop inputs, an auxiliary input panel and an IPTV decoder. The room will utilize a 65" LCD flat panel display. Program audio will be presented via the speakers built into the flat panel displays.

4.3 Conference Room Type 4

- 4.3.1 AV system shall provide ability for basic presentation and small group collaboration. Input sources include resident pc and digital and analog laptop inputs. The room will utilize a 52" flat panel display. Program audio will be presented via the speakers built into the flat panel displays.

4.4 Telemedicine Room

- 4.4.1 AV system shall provide ability for presentations and videoconferencing. Input sources include resident pc, IPTV decoder, and auxiliary input plate. The room will utilize one wall mounted 55" flat panel display with a Pan/Tilt/Zoom (PTZ) videoconferencing camera mounted below it. When videoconferencing using the picture in picture (PIP) setting, the codec shall be used to display content and the far-side participants. AV system must provide ceiling mounted microphone array to provide microphone coverage for entire room for videoconferencing. Program audio will be presented via the speakers built into the flat panel displays for local presentations. Audiovisual device control shall be a wall mounted color touch panel 4" to 7" in size. The codec shall be Cisco.

4.5 Physical, Occupational Therapy Gym Space

- 4.5.1 AV system shall provide ability to provide television programming. Input sources include an IPTV set top box, universal audio CD player and audio auxiliary input panel for a portable media player. The room will utilize six (6) wall mounted flat panels with dedicated IPTV set top boxes. AV system must provide wall mounted speaker to provide complete sound coverage in the facility. A minimum of two (2) wireless microphones shall be installed for paging and announcements. A digital signal processing (DSP) system shall provide automatic mixing of all sources. Audiovisual device control shall be a wall mounted source and volume controller allowing manual selection of sources and local volume control.

4.6 Behavioral Medicine Room

- 4.6.1 AV system shall provide ability for patients to listen to music or other preprogrammed information from the IPTV system provided television programming. AV system shall provide a minimum of four (4) wireless IR headsets. Audio input sources include headsets from the IPTV system using a local IPTV set top box. A wireless universal remote control unit shall be programmed to select the specific audio channels from the IPTV set top box. The government will provide instructions as to which audio channels for the IPTV system are to be available from the local wireless remote control unit. All equipment and installation must be in accordance with VA's mental health requirements.

4.7 Behavioral Medicine - Group Room Type 2

- 4.7.1 AV System shall provide basic presentation capabilities. The room will utilize a 55" wall mounted flat panel display. Input sources include a resident computer, wall mounted pc and digital and analog laptop inputs, an auxiliary input panel and an IPTV decoder. Program audio will be presented via the speakers built into the flat panel display. Audiovisual device control shall be from a wall mounted button panel interface plate. All equipment and installation must be in accordance with VA's mental health requirements.

4.8 Behavioral Medicine - Conference Room Type 3

- 4.8.1 AV system shall provide ability for basic presentation and small group collaboration. Input sources include resident pc, digital and analog laptop inputs, an auxiliary input panel and an IPTV decoder. The room will utilize a 65" LCD flat panel display. Program audio will be presented via the speakers built into the flat panel displays. All equipment and installation must be in accordance with VA's mental health requirements.

4.9 Boardroom

- 4.9.1 AV system shall provide ability for presentations and group collaboration. This room will serve as a large conference room, classroom, and the large boardroom. Input sources include a SLVHCS-provided desktop computer, an auxiliary input panel for digital and analog laptop inputs, and an IPTV decoder. Presentation capabilities for this space include, a ceiling mounted medium brightness video projector, displaying on an existing retractable projection screen at the front attention wall. Program audio as well as voice reinforcement will be provided by speakers in the ceiling.

4.10 Chapel

- 4.10.1 AV system shall provide a "live" stream of the Chapel services to the IPTV system. A single fixed zoom shot camera wall mounted in the Chapel shall provide complete coverage of the pulpit
- 4.10.2 AV shall provide a local sound system for attendee's seated in the Chapel. A DSP shall provide a balanced audio signal for both local and streaming audio. AV system shall provide a listen assist transmitter incorporated into the audio system and portable receivers to provide listen assist capabilities to meet the ADA requirements. Local volume control shall be available for the Chapel via a wall plate.
- 4.10.3 Contractor shall provide pulpit. Contractor shall provide a wireless and gooseneck microphone on the pulpit providing audio coverage for the pastor any other presenters in the Chapel. These audio signals shall be automatically mixed and distributed to the local sound system and the streaming encoder that feeds live video and audio to the IPTV system. A local equipment rack shall house all of the electronics for the system.

4.11 Classroom Type 2

- 4.11.1 AV system shall provide ability for basic presentation. Input sources include a resident pc, both digital and analog laptop inputs, an auxiliary input panel and an IPTV decoder. The room will utilize a ceiling mounted medium brightness video projector projecting onto a motorized ceiling mounted video projection screen. Program audio, from the lectern microphone, will be presented via two wall mounted loudspeakers. Room shall include a hearing assist system.

4.12 Classroom Type 6 (Divisible Space: 3 rooms)

- 4.12.1 AV system shall provide ability for advanced presentation as divided or single classroom. When the divisible walls are opened, all classroom systems shall combine into a single large classroom presentation system. When the divisible walls are closed, each classroom shall operate independently of each other. Input sources include dedicated computer with keyboard and mouse, IPTV set top box, and any of the wall mounted cameras in the room. The instructor shall have the ability to use all input sources concurrently. The room will utilize two ceiling-mounted video projectors with two ceiling recessed motorized projection screens provided by the government in rooms A and C. Room B shall utilize a 55" flat panel display mounted from the ceiling.
- 4.12.2 Two cameras shall be wall mounted in the room. The cameras primary uses are for presentations in the demo kitchen located in one of the classrooms. One camera shall be focused on the chef instructor and the other shall be focused on the cooktop. The instructor must have the ability to switch between cameras using the control systems touch panel.
- 4.12.3 A distributed ceiling-recessed audio system in each classroom shall enable any of the selected sources and voice reinforcement for the instructor to be heard throughout the rooms when combined and individually when closed. The instructor shall wear a lavalier microphone to capture

the instructor's audio. A portable hearing-assist system from the portable equipment pool shall be used to meet the ADA requirements

- 4.12.4 The control system shall control the projectors, flat panel, audio and various audiovisual sources that are housed in the local equipment rack. Each instructor's lectern, located within each classroom, shall provide a 5" table top touch panel. To combine the room's audiovisual systems, the instructor shall select an icon on the touch panel. This shall combine video and audio systems for use from the presentation location and the kitchen touch panel location. An icon on any one of the three touch panels shall be able to select this function.

4.13. Command Center

- 4.13.1 AV system shall provide ability for presentations and videoconferencing. Input sources include resident computer, IPTV decoder, videoconferencing codec and auxiliary input plate. The room will utilize an interactive wall mounted whiteboard. For videoconferencing, the room will utilize dual wall mounted 42" flat panel displays mounted side by side with the videoconferencing camera between them as well as providing additional viewing of the independent sources. . Audiovisual device control shall be a wall mounted color touch panel 4" to 7" in size.

4.14 Director's Conference Room

- 4.14.1 AV system shall provide ability for basic presentation, small group collaboration, and videoconferencing. Input sources include resident pc, digital and analog laptop inputs, IPTV decoder, and auxiliary input plate. The room will utilize a 42" flat panel display with a PTZ videoconferencing camera mounted below it. Program audio will be presented via the speakers built into the flat panel display. When videoconferencing using the picture in picture (PIP) setting, the codec shall be used to display content and the far-side participants. Audiovisual device control shall be a surface-mounted color touch panel at a minimum 5". The codec shall be Cisco.

4.15 Enhanced Office

- 4.15.1 AV system shall provide ability for small group discussions. Input sources include a resident pc, a laptop computer and four IPTV decoders routed through a windowing processor for simultaneous viewing. The room will utilize a 42" flat panel display with connectivity to the desk. Program audio will be presented via the speakers built into the flat panel display.

4.16 Leadership Office

- 4.16.1 AV system shall provide ability for small group discussions. Input sources include a resident pc and a laptop computer. The room will utilize a 42" flat panel display with connectivity to the desk. Program audio will be presented via the speakers built into the flat panel display.

4.17 Multi-Purpose Room (Divisible Space: 2 rooms)

- 4.17.1 AV system shall provide ability for advanced presentation and special events as divided or single room. When the divisible walls are opened, all room systems shall combine into a single large classroom presentation system. When the divisible walls are closed, each room shall operate independently of each other. Input sources include an (OFCl) dedicated computer with wireless keyboard and mouse, IPTV set top box, and auxiliary analog and digital input connections for laptop computer or media player. Room will utilize two ceiling-mounted video projectors and two ceiling recessed motorized projection screens (screens provided by others.) A distributed ceiling-recessed audio system in each room shall enable any of the selected sources to be heard throughout the rooms when combined and individually when closed. The control system shall control the projectors, system audio and various audiovisual sources that are housed in the local equipment rack. Audiovisual device control shall be a wall mounted color touch panels 4" to 7" in size located in each room. To combine the room's audiovisual systems, the operator shall select an icon on either of the touch panels. This shall electronically combine video and audio systems for use. An icon on both touch panels shall be able to select this combine or un-combine function.

4.18 Pool Room

4.18.1 AV system shall provide ability for complete sound coverage in the facility. Input sources for the sound system shall include an IPTV set top box, universal audio CD player and audio auxiliary input panel for a portable media player. The room will utilize eight (8) indoor /outdoor rated wall mounted speakers. A wireless microphone shall be installed for paging and announcements. A DSP system shall provide automatic mixing of all sources. A wall mounted source and volume controller shall provide manual selection of sources and local volume control.

4.19 Recreation Room

4.19.1 AV system shall provide ability for presentations and large group gatherings. Input sources for both the projector and the flat panel include and IPTV set top box, Blu-Ray DVD player and an auxiliary analog and digital input connection for laptop computer or media player. The room will utilize a high lumen video projector mounted on a motorized projector lift with a motorized ceiling recessed projection screen provided by the government. An additional wall mounted flat panel display shall be used for smaller group events and presentations. A distributed pendant ceiling speaker audio system shall enable any of the selected sources and voice reinforcement to be heard throughout the room. The presenter shall wear a combo handheld / lavalier wireless microphone to capture the presenter's audio. Users shall have complete control of the rooms audiovisual systems from a wall mounted color touch panel. All of the sources shall be controlled from this touch panel along with the projection screen, projector, projector lift and audio system.

4.20 Video Teleconference Type 2

4.20.1 AV system shall provide ability for basic presentation and small group collaboration and audio/video conferencing. Input sources including a resident pc, digital and analog laptop inputs, an auxiliary input panel and an IPTV decoder. Room will utilize dual side by side 52" flat panel displays separated with a (PTZ) camera in the middle.

- Outpatient (Building 3): May 16, 2016 – July 15, 2016
- Diagnostic & Treatment (Building 2): May 30, 2016 – July 29, 2016
- Research (Building 8): January 9, 2017 – March 20, 2017
- 4th Floor Administrative Building (Building 9): July 15, 2016 – September 15, 2016

4.22 SITE CONDITIONS

4.22.2 There shall be no smoking, eating, or drinking inside the hospital at any time.

5. PERIOD OF PERFORMANCE:

5.1 The anticipated Period of Performance for delivery and installation is from September 11, 2015 to April 15, 2017.

6. INSPECTION AND ACCEPTANCE

6.1 The Contractor shall conduct a joint inspection with the COR once all equipment had been delivered and installed. The COR shall inspect all phases of delivery and installation and provide a punch list of any and all missing or damaged products.

6.2 Contractor shall provide dates of completion of punch list items and replacement parts and/or short ship items from the manufacturer(s).

6.3 The COR shall ensure all work is completed satisfactorily prior to acceptance. Disputes shall be resolved by the Contracting Officer.

7. DELIVERY/STORAGE REQUIREMENTS

7.1 Deliver materials to job in manufacturer's original sealed containers with brand name marked thereon.

7.2 Package to prevent damage or deterioration during shipment, handling, storage and installation. Maintain protective covering in place and in good repair until removal is necessary.

7.3 Deliver specified items only when the site is ready for installation work to proceed. Delivery to the site shall occur no earlier than 10 days prior to the start of work in a specific building.

7.4 Store products in dry condition inside enclosed facilities.

7.5 Any government requested delayed delivery up to 90 days after initial negotiated delivery date, shall be at no additional cost to the Government.

7.6 A pre-delivery meeting will be conducted 60 days prior to initial negotiated delivery date for verification of delivery and installation dates.

8. Training

8.1 The Contractor shall provide a total of twenty-four (24) hours of on-site training for the Government staff at a time that is mutually agreeable for the Government and Contractor.

9. PROTECTION OF PROPERTY

- 9.1 Contractor shall protect all items from damage. The Contractor shall take precaution against damage to the building(s), grounds and furnishings. The Contractor shall repair or replace any items related to building(s) or grounds damaged accidentally or on purpose due to actions by the Contractor.
- 9.2 The Contractor shall perform an inspection of the building(s) and grounds with the COR prior to commencing work. To insure that the Contractor shall be able to repair or replace any items, components, building(s) or grounds damaged due to negligence and/or actions taken by the Contractor. The source of all repairs beyond simple surface cleaning is the facility construction contractor (or appropriate subcontractor), so that building warranty is maintained. Concurrence from the VA Facilities Management POC and COR is required before the Contractor may perform any significant repair work. In all cases, repairs shall utilize materials of the same quality, size, texture, grade, and color to match adjacent existing work.
- 9.3 The Contractor shall be responsible for security of the areas in which the work is being performed prior to completion.
- 9.4 Contractor shall provide floor protection while working in all VA facilities. All material handling equipment shall have rubber wheels.

10. SECURITY REQUIREMENTS

- 10.1 The C&A requirements do not apply and a Security Accreditation Package is not required.
- 10.2 Contractor is responsible for notifying COR for escorting duties prior to arriving at the facility. Contractor personnel shall check in with VA Police upon arrival and departure each day. All contractor personnel must provide one form of valid picture identification at the time of check-in to receive a visitor's badge. Badges must be worn above the waist and visible at all times while on the jobsite. All contractor personnel will be accompanied by a cleared member of the contractor (PIV card holder) or SLVHCS representative at all times while on the jobsite. All contractor personnel must turn-in their badges at the end of each day.
- 10.2 Contractor is responsible for notifying COR for vehicle parking prior to arriving at the facility. All contractor personnel must provide vehicle insurance, registration and valid driver's license at the time of check-in to receive a vehicle parking pass. Vehicle parking passes must be displayed on the front dashboard of the registered vehicle at all times while on SLVHCS property. Contractor personnel will be allowed to register up to five (5) vehicles only. All contractor personal vehicles will be allowed to park in the designated vehicle parking spaces in the parking garage as advised by the VA Police upon registering the vehicle. All contractor personnel must turn-in their vehicle parking passes at the end of each day.

52.212-4 -- Contract Terms and Conditions -- Commercial Items (May 2015)

C.2 Clauses Incorporated by Full Text:

ADDENDUM TO FAR 52.212-4 CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS

The following shall apply to this contract in addition to those terms and conditions in FAR 52.212-4.

The specific paragraphs of FAR 52.212-4 are addended as shown below:

(w) Paragraph added to incorporate the following:

The following clauses are added:

Clauses Incorporated by Reference:

52.204-4 -- Printed or Copied Double-Sided on Postconsumer Fiber Content Paper (May 2011)

52.204-9 -- Personal Identity Verification of Contractor Personnel (Jan 2011)

52.204-13 System for Award Management Maintenance (July 2013)

52.204-18 Commercial and Government Entity Code Maintenance (July 2015)

52.204-19 Incorporation by Reference of Representations and Certifications (Dec 2014)

52.232-40 Providing Accelerated Payments to Small Business Subcontractors (Dec 2013)

Clauses Incorporated by Full Text:

52.203-99, Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements
(DEVIATION 2015-02)

PROHIBITION ON CONTRACTING WITH ENTITIES THAT REQUIRE CERTAIN INTERNAL CONFIDENTIALITY AGREEMENTS (FEB 2015)

(a) The Contractor shall not require employees or contractors seeking to report fraud, waste, or abuse to sign or comply with internal confidentiality agreements or statements prohibiting or otherwise restricting such employees or subcontractors from lawfully reporting such waste, fraud, or abuse to a designated investigative or law enforcement representative of a Federal department or agency authorized to receive such information.

(b) The contractor shall notify employees that the prohibitions and restrictions of any internal confidentiality agreements covered by this clause are no longer in effect.

(c) The prohibition in paragraph (a) of this clause does not contravene requirements applicable to Standard Form 312, Form 4414, or any other form issued by a Federal department or agency governing the nondisclosure of classified information.

(d)(1) In accordance with section 743 of Division E, Title VII, of the Consolidated and Further Continuing Resolution Appropriations Act, 2015 (Pub. L. 113-235), use of funds appropriated (or otherwise made available) under that or any other Act may be prohibited, if the Government determines that the Contractor is not in compliance with the provisions of this clause.

(2) The Government may seek any available remedies in the event the contractor fails to comply with the provisions of this clause.

(End of clause)

52.252-2 Clauses Incorporated by Reference

CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

(End of Clause)

852.203-70 The Commercial advertising.

COMMERCIAL ADVERTISING (JAN 2008)

The bidder or offeror agrees that if a contract is awarded to him/her, as a result of this solicitation, he/she will not advertise the award of the contract in his/her commercial advertising in such a manner as to state or imply that the Department of Veterans Affairs endorses a product, project or commercial line of endeavor.

(End of Clause)

852.203-71 The Display of Department of Veterans Affairs hotline poster.

DISPLAY OF DEPARTMENT OF VETERANS AFFAIRS HOTLINE POSTER (DEC 1992)

(a) Except as provided in paragraph (c) below, the Contractor shall display prominently, in common work areas within business segments performing work under VA contracts, Department of Veterans Affairs Hotline posters prepared by the VA Office of the Inspector General.

(b) Department of Veterans Affairs Hotline posters may be obtained from the VA Office of Inspector General (53E), P.O. Box 34647, Washington, DC 20043-4647.

(c) The Contractor need not comply with paragraph (a) above if the Contractor has established a mechanism, such as a hotline, by which employees may report suspected instances of improper conduct, and instructions that encourage employees to make such reports.

(End of Clause)

852.211-70 The Service data manuals.

SERVICE DATA MANUALS (NOV 1984)

(a) The successful bidder will supply operation/maintenance (service data) manuals with each piece of equipment in the quantity specified in the solicitation and resulting purchase order. As a minimum, the manual(s) shall be bound and equivalent to the manual(s) provided the manufacturer's designated field service representative as well as comply with all the requirements in paragraphs (b) through (i) of this clause. Sections, headings and section sequence identified in (b) through (i) of this clause are typical and may vary between manufacturers. Variances in the sections, headings and section sequence, however, do not relieve the manufacturer of his/her responsibility in supplying the technical data called for therein.

(b) Title Page and Front Matter. The title page shall include the equipment nomenclature, model number, effective date of the manual and the manufacturer's name and address. If the manual applies to a particular version of the equipment only, the title page shall also list that equipment's serial number. Front matter shall consist of the Table

of Contents, List of Tables, List of Illustrations and a frontispiece (photograph or line drawing) depicting the equipment.

(c) Section I, General Description. This section shall provide a generalized description of the equipment or devices and shall describe its purpose or intended use. Included in this section will be a table listing all pertinent equipment specifications, power requirements, environmental limitations and physical dimensions.

(d) Section II, Installation. Section II shall provide pertinent installation information. It shall list all input and output connectors using applicable reference designators and functional names as they appear on the equipment. Included in this listing will be a brief description of the function of each connector along with the connector type. Instructions shall be provided as to the recommended method of repacking the equipment for shipment (packing material, labeling, etc.).

(e) Section III, Operation. Section III will fully describe the operation of the equipment and shall include a listing of each control with a brief description of its function and step-by-step procedures for each operating mode. Procedures will use the control(s) nomenclature as it appears on the equipment and will be keyed to one or more illustrations of the equipment. Operating procedures will include any preoperational checks, calibration adjustments and operation tests. Notes, cautions and warnings shall be set off from the text body so they may easily be recognizable and will draw the attention of the reader. Illustrations should be used wherever possible depicting equipment connections for test, calibration, patient monitoring and measurements. For large, complex and/or highly versatile equipment capable of many operating modes and in other instances where the Operation Section is quite large, operational information may be bound separately in the form of an Operators Manual. The providing of a separate Operators manual does not relieve the supplier of his responsibility for providing the minimum acceptable maintenance data specified herein. When applicable, flow charts and narrative descriptions of software shall be provided. If programming is either built-in and/or user modifiable, a complete software listing shall be supplied. Equipment items with software packages shall also include diagnostic routines and sample outputs. Submission information shall be given in the Maintenance Section to identify equipment malfunctions that are software related.

(f) Section IV, Principles of Operation. This section shall describe in narrative form the principles of operation of the equipment. Circuitry shall be discussed in sufficient detail to be understood by technicians and engineers who possess a working knowledge of electronics and a general familiarity with the overall application of the devices. The circuit descriptions should start at the overall equipment level and proceed to more detailed circuit descriptions. The overall description shall be keyed to a functional block diagram of the equipment. Circuit descriptions shall be keyed to schematic diagrams discussed in paragraph (i) below. It is recommended that for complex or special circuits, simplified schematics should be included in this section.

(g) Section V, Maintenance. The maintenance section shall contain a list of recommended test equipment, special tools, preventive maintenance instructions and corrective information. The list of test equipment shall be that recommended by the manufacturer and shall be designated by manufacturer and model number. Special tools are those items not commercially available or those that are designed specifically for the equipment being supplied. Sufficient data will be provided to enable their purchase by the Department of Veterans Affairs. Preventive maintenance instructions shall consist of those recommended by the manufacturer to preclude unnecessary failures. Procedures and the recommended frequency of performance shall be included for visual inspection, cleaning, lubricating, mechanical adjustments and circuit calibration. Corrective maintenance shall consist of the data necessary to troubleshoot and rectify a problem and shall include procedures for realigning and testing the equipment. Troubleshooting shall include either a list of test points with the applicable voltage levels or waveforms that would be present under a certain prescribed set of conditions, a troubleshooting chart listing the symptom, probable cause and remedy, or a narrative containing sufficient data to enable a test technician or electronics engineer to determine and locate the probable cause of malfunction. Data shall also be provided describing the preferred method of repairing or replacing discrete components mounted on printed circuit boards or located in areas where special steps must be followed to disassemble the equipment. Procedures shall be included to realign and test the equipment at the completion of repairs and to restore it to its original operating condition. These

procedures shall be supported by the necessary waveforms and voltage levels, and data for selecting matched components. Diagrams, either photographic or line, shall show the location of printed circuit board mounted components.

(h) Section VI, Replacement Parts List. The replacement parts list shall list, in alphanumeric order, all electrical/electronic, mechanical and pneumatic components, their description, value and tolerance, true manufacturer and manufacturers' part number.

(i) Section VII, Drawings. Wiring and schematic diagrams shall be included. The drawings will depict the circuitry using standard symbols and shall include the reference designations and component values or type designators. Drawings shall be clear and legible and shall not be engineering or productions sketches.

(End of Clause)

852.215-71 Evaluation Factor Commitments

EVALUATION FACTOR COMMITMENTS (DEC 2009)

The offeror agrees, if awarded a contract, to use the service-disabled veteran-owned small businesses or veteran-owned small businesses proposed as subcontractors in accordance with 852.215–70, Service-Disabled Veteran-Owned and Veteran-Owned Small Business Evaluation Factors, or to substitute one or more service-disabled veteran-owned small businesses or veteran-owned small businesses for subcontract work of the same or similar value.

(End of Clause)

852.219-9 The VA Small Business Subcontracting Plan Minimum Requirements.

VA SMALL BUSINESS SUBCONTRACTING PLAN MINIMUM REQUIREMENTS (DEC 2009)

(a) This clause does not apply to small business concerns.

(b) If the offeror is required to submit an individual subcontracting plan, the minimum goals for award of subcontracts to service-disabled veteran-owned small business concerns and veteran-owned small business concerns shall be at least commensurate with the Department's annual service-disabled veteran-owned small business and veteran-owned small business prime contracting goals for the total dollars planned to be subcontracted.

(c) For a commercial plan, the minimum goals for award of subcontracts to service-disabled veteran-owned small business concerns and veteran-owned small businesses shall be at least commensurate with the Department's annual service-disabled veteran-owned small business and veteran-owned small business prime contracting goals for the total value of projected subcontracts to support the sales for the commercial plan.

(d) To be credited toward goal achievements, businesses must be verified as eligible in the Vendor Information Pages database. The contractor shall annually submit a listing of service-disabled veteran-owned small businesses and veteran-owned small businesses for which credit toward goal achievement is to be applied for the review of personnel in the Office of Small and Disadvantaged Business Utilization.

(e) The contractor may appeal any businesses determined not eligible for crediting toward goal achievements by following the procedures contained in 819.407.

(End of Clause)

852.219-71 The VA Mentor-Protégé Program.

VA MENTOR-PROTÉGÉ PROGRAM (DEC 2009)

(a) Large businesses are encouraged to participate in the VA Mentor-Protégé Program for the purpose of providing developmental assistance to eligible service-disabled veteran-owned small businesses and veteran-owned small businesses to enhance the small businesses' capabilities and increase their participation as VA prime contractors and as subcontractors.

(b) The program consists of:

(1) Mentor firms, which are contractors capable of providing developmental assistance;

(2) Protégé firms, which are service-disabled veteran-owned small business concerns or veteran-owned small business concerns; and

(3) Mentor-Protégé Agreements approved by the VA Office of Small and Disadvantaged Business Utilization.

(c) Mentor participation in the program means providing business developmental assistance to aid protégés in developing the requisite expertise to effectively compete for and successfully perform VA prime contracts and subcontracts.

(d) Large business prime contractors serving as mentors in the VA Mentor-Protégé Program are eligible for an incentive for subcontracting plan credit. VA will recognize the costs incurred by a mentor firm in providing assistance to a protégé firm and apply those costs for purposes of determining whether the mentor firm attains its subcontracting plan participation goals under a VA contract. The amount of credit given to a mentor firm for these protégé developmental assistance costs shall be calculated on a dollar-for-dollar basis and reported by the large business prime contractor via the Electronic Subcontracting Reporting System (eSRS).

(e) Contractors interested in participating in the program are encouraged to contact the VA Office of Small and Disadvantaged Business Utilization for more information.

(End of Clause)

852.232-72 The Electronic submission of payment requests.

ELECTRONIC SUBMISSION OF PAYMENT REQUESTS (NOV 2012)

(a) Definitions. As used in this clause-

(1) Contract financing payment has the meaning given in FAR 32.001.

(2) Designated agency office has the meaning given in 5 CFR 1315.2(m).

(3) Electronic form means an automated system transmitting information electronically according to the accepted electronic data transmission methods and formats identified in paragraph (c) of this clause. Facsimile, e-mail, and scanned documents are not acceptable electronic forms for submission of payment requests.

(4) Invoice payment has the meaning given in FAR 32.001.

(5) Payment request means any request for contract financing payment or invoice payment submitted by the contractor under this contract.

(b) Electronic payment requests. Except as provided in paragraph (e) of this clause, the contractor shall submit payment requests in electronic form. Purchases paid with a Government-wide commercial purchase card are considered to be an electronic transaction for purposes of this rule, and therefore no additional electronic invoice submission is required.

(c) Data transmission. A contractor must ensure that the data transmission method and format are through one of the following:

(1) VA's Electronic Invoice Presentment and Payment System. (See Web site at <http://www.fsc.va.gov/einvoice.asp>.)

(2) Any system that conforms to the X12 electronic data interchange (EDI) formats established by the Accredited Standards Center (ASC) and chartered by the American National Standards Institute (ANSI). The X12 EDI Web site (<http://www.x12.org>) includes additional information on EDI 810 and 811 formats.

(d) Invoice requirements. Invoices shall comply with FAR 32.905.

(e) Exceptions. If, based on one of the circumstances below, the contracting officer directs that payment requests be made by mail, the contractor shall submit payment requests by mail through the United States Postal Service to the designated agency office. Submission of payment requests by mail may be required for:

(1) Awards made to foreign vendors for work performed outside the United States;

(2) Classified contracts or purchases when electronic submission and processing of payment requests could compromise the safeguarding of classified or privacy information;

(3) Contracts awarded by contracting officers in the conduct of emergency operations, such as responses to national emergencies;

(4) Solicitations or contracts in which the designated agency office is a VA entity other than the VA Financial Services Center in Austin, Texas; or

(5) Solicitations or contracts in which the VA designated agency office does not have electronic invoicing capability as described above.

(End of clause)

852.246-70 The Guarantee.

GUARANTEE (JAN 2008)

The contractor guarantees the equipment against defective material, workmanship and performance for a period provided by accepted warranties, said guarantee to run from date of acceptance of the equipment by the Government. The contractor agrees to furnish, without cost to the Government, replacement of all parts and material that are found to be defective during the guarantee period. Replacement of material and parts will be furnished to the Government at the point of installation, if installation is within the continental United States, or f.o.b. the continental U.S. port to be designated by the contracting officer if installation is outside of the continental United States. Cost of installation of replacement material and parts shall be borne by the contractor.

(End of Clause)

852.246-71 The Inspection.

INSPECTION (JAN 2008)

Rejected goods will be held subject to contractors order for not more than 15 days, after which the rejected merchandise will be returned to the contractor's address at his/her risk and expense. Expenses incident to the examination and testing of materials or supplies that have been rejected will be charged to the contractor's account.

(End of Clause)

852.270-1 Representatives of contracting officers.

REPRESENTATIVES OF CONTRACTING OFFICERS (JAN 2008)

The contracting officer reserves the right to designate representatives to act for him/her in furnishing technical guidance and advice or generally monitor the work to be performed under this contract. Such designation will be in writing and will define the scope and limitation of the designee's authority. A copy of the designation shall be furnished to the contractor.

(End of Provision)

(End of Clause Addendum)

52.212-5 - CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS-COMMERCIAL ITEMS

CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS -- COMMERCIAL ITEMS (MAY 2015)

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at [52.215-2](#), Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR [Subpart 4.7](#), Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e)

(1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in this paragraph (e)(1) in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause-

**ADDENDUM TO FAR 52.212-2
EVALUATION--COMMERCIAL ITEMS (OCT 2014)**

1. The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:
2. Offerors must submit information for the below criteria in sufficient detail to permit proper evaluation. Submittals must be in a format that follows the sequence of criteria set forth in the paragraphs below. Absence of information will be deemed as if no support for that factor is available.
3. Offerors will be evaluated on the basis of two criteria, TECHNICAL and PRICE. Award will be made to the offeror who proposes the combination of price and technical factors that represent the best value to the government based on the evaluation criteria listed below.
4. EVALUATION CRITERIA
 - 4.1 Non-Price Evaluation Criteria:
 - 4.1.1 All Non-Price Factors, when combined, are considered significantly more important than the price.
 - 4.1.2 The below Table provides level of importance for each Factor. Each Factor within the same level is of equal importance to each other. Non-Price Factors are as follows:

Factor/Sub factor	Description	Relative Importance
Factor 1	Technical Approach	1 st Level, Most Important
Factor 2	Schedule	2 nd Level, Slightly less important than 1 st Level
Factor 3	Past Performance of the Prime	2 nd Level, Slightly less important than 1 st Level
Factor 4	Participation of Small Business In The Performance of This Contract	3 rd Level, Slightly less important than 1 st and 2 nd Levels combined

4.3 Price Evaluation Criteria:

Factor Number	Description	Relative Importance
Factor 1	Contract Line Item Schedule	4 th Level, Significantly less important than 1 st , 2 nd and 3 rd combined

- 4.4 All Non-Price Factors, when combined, are considered significantly more important than the price. It is pointed out, however, that should technical competence between offerors be considered approximately the same, the price could become more important in determining award.

5. EVALUATION PROCEDURES

- 5.1 Technical Evaluation/Past Performance: Technical proposals will be evaluated per FAR Part 15 by a Source Selection Evaluation Board (SSEB) comprised of representatives of the Veterans Administration. Pricing data will not be considered during this evaluation. Criteria for the technical evaluation are set forth elsewhere in the solicitation and will be the sole basis for determining the technical merit of proposals. The SSEB shall use the order of importance definitions and technical merit ratings described earlier in this section of the solicitation to perform their technical evaluation. To be considered for award, proposals must conform to the terms and conditions contained in the RFP. No proposal will be accepted that does not address all criteria specified in this solicitation or which includes stipulations or qualifying conditions unacceptable to the Government.

- 5.2 Price Evaluation: Price is of secondary importance to the technical criteria. Pricing will be independently evaluated to determine reasonableness and to aid in the determination of the firm's understanding of the work and ability to perform the contract.
- 5.3 Best Value Analysis. In determining the best value to the Government, the tradeoff process of evaluation will be utilized. The tradeoff process permits tradeoffs among price and technical factors, and allows the Government to consider award to other than the lowest priced offeror or other than the highest technically rated offeror. You are advised that greater consideration will be given to the evaluation of technical proposals rather than price.
- 5.4 Selection and Award without Discussions: It is the intent of the Government to make award based upon initial proposals, without further discussions or additional information. Therefore, initial proposals should be submitted based on the most favorable terms from a price and technical standpoint. Do not assume there will be an opportunity to clarify, discuss or revise proposals. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary.
- 5.5 Discussions: If Discussions are held. They are usually conducted in writing, but may also be by telephone or in person. Discussions are tailored to each offeror's proposal. The primary objective of discussions is to maximize the Government's ability to obtain the best value, based on the requirement and the evaluation criteria set forth in this solicitation. If a firm's proposal is eliminated or otherwise removed from consideration for award during discussions, no further revisions to that firm's proposal will be accepted or considered. Discussions will culminate in a request for Final Proposal Revision, the date and time of which will be common to all remaining firms.
- 5.6 Proposal Expenses and Pre-Contract Costs: This solicitation does not commit the Government to pay costs incurred in preparation and submission of initial and subsequent proposals or for other costs incurred prior to award of a formal contract.
- 5.7 Release of Information: After receipt of proposals and until contract award, selection information will not be furnished to any firm.

6. TECHNICAL/PAST PERFORMANCE FACTORS

Recent - Project examples within the last 3 years.

Relevancy - "Relevant" is defined as projects similar to the project in this solicitation in scope, magnitude and complexity and that have a logical connection with the requirements of this RFP.

Three types of experience areas that are considered especially relevant include: 1) similar hospital facility projects; 2) Administrative facility projects. Examples of relevant equipment installation experience of the firm include administrative facilities, hospital buildings and medical buildings; 3) understanding of the complexity of this project based on the critical project factors such as installation phasing, staging, inspection, increased distance of delivery from loading dock to installation site and concurrent installation on construction site. These relevancies may be evaluated more favorably.

6.1 FACTOR 1 – Technical Approach/Management Approach

- 6.1.1 Evaluation Criterion: The offeror shall provide a comprehensive management narrative, of no more than five pages in length, developed specifically for the entire scope of this contract. As a minimum, the narrative should address/discuss the following:
- 6.1.1.1 Management approach for delivery, installation and all other ancillary activities of all the proposed products including, but not limited to, product ordering, communications, scheduling, installation, acceptance and invoicing.
 - 6.1.1.2 Demonstrate ability to provide satisfactory plan of action for response and repairs items include items such as uncompleted contract items (i.e. punch list items)
 - 6.1.1.3 Explanation of how the following installation activities will be managed for thorough and timely execution:
 - o coordination of phasing

- o multi-floor installations
- o concurrent multi-building installations

6.1.2 Evaluation Method: This factor will be evaluated on the offeror's ability to provide a thorough and reasonable Management Approach suitable for the scope and complexity of this project.

6.2 FACTOR 2 – Schedule

6.2.1 Evaluation Criterion: The offeror shall develop a proposed installation schedule demonstrating the technical approach for installation of this project. The proposed schedule shall indicate the starting and completion times of all major elements of work. The schedule shall indicate sequences proposed to accomplish each work element and appropriate interdependencies between various work elements. The schedule shall be as complete, reasonable, and realistic as possible, demonstrating the offeror's ability to propose a schedule that identifies all major elements of work for this project, meets the Government's requirements, and is obtainable. For purposes of the proposal submittal, assume an installation begin date of September 11, 2015.

6.2.2 Evaluation Method: Evaluation will be based on the offeror's ability to develop a schedule that addresses the major work elements and the offeror's ability to present an approach that is complete, reasonable, and realistic.

6.3 FACTOR 3 - Past Performance of the Prime

6.3.1 Evaluation Criterion:

- 6.3.1.1 In accordance with FAR 42.1503(g), past performance will be evaluated using the Past Performance Information Retrieval System (PPIRS).
- 6.3.1.2 If relevant past performance history is available for your DUNs number, provide a list of comparable contract numbers listed in PPIRS
- 6.3.1.3 If no relevant past performance history is available for your DUNs number, you may choose to utilize the attached Past Performance Questionnaire (S02 RFP Attachment A Past Performance Questionnaire) and it may be used exclusively for evaluation. Government databases will be checked and previous customers and/or evaluators may be contacted as references or verification of performance.
- 6.3.1.4 A lack of past performance information will result in a neutral rating during evaluations.
- 6.3.1.2 All performance ratings shall be considered for contracts ongoing or completed within the past three (3) years from the date proposals are due. All projects submitted on a Past Performance Questionnaire must be at least 75% complete or must have been completed within the past three (3) years from the date proposals are due. Further instructions are found at the top of the Past Performance Questionnaires.
- 6.3.1.3 Offeror's proposals shall include a list of all customers (including current point of contact, phone number, and electronic address) to whom a Past Performance Questionnaire was provided. The Government will only evaluate up to five (5) Past Performance Questionnaires. To be considered, the Questionnaires must be completed by the customers and mailed, emailed or hand-delivered directly by the Customer to Contracting POC for receipt no later than the time and date proposals are due. Questionnaires submitted directly by Offerors WILL NOT be considered. Please ensure envelopes containing Questionnaires submitted to this office do not contain the return address of the offeror's firm.

6.3.2 Evaluation Method:

The Government will evaluate the relative merits of each Offeror's past performance. The Government reserves the right to consider all aspects of the firms' performance history including specific question ratings of the past performance vs. overall rating; and, may attribute more significance to projects that demonstrate specific relevant experience to this project.

6.4 FACTOR 4 - Participation of Small Business in the Performance of This Contract

6.4.1 Evaluation Criterion: Offerors must identify the extent and approach for Small Businesses (SBs) categories to be utilized in the performance of this proposed contract. For small businesses, as defined by the North American Industry Classification System (NAICS) Code applicable to this solicitation, the offeror's own participation as a SB is to be identified, and will be considered in evaluating the Small Business Participation evaluation factor.

6.4.1.1 Offeror must submit a subcontracting plan (SBSP), where applicable, that separately addresses subcontracting with small business concerns, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business concerns, small disadvantaged business, and with women-owned small business concerns. The plan shall provide all information in accordance with 52.219-9. SBSP must reflect VA minimum goals. [VA Subcontracting Goals](#)

6.4.1.2 Offeror must provide the names of Veteran Owned (VOSB) or Service-Disabled Veteran Owned (SDVOSB) small business with who intend to subcontract and approximate dollar value of subcontracts.

6.4.2 Evaluation Method: Evaluation will be based on the offerors ability demonstrate an approach that is complete, reasonable, and realistic to meet Subcontracting goals. Proposals that demonstrate a higher ability to subcontract to VOSB and SDVOSB will be evaluated more favorably.

7. PRICE EVALUATION

7.1 Evaluation Criterion:

7.1.1. Submit the properly filled out Price Schedule.

7.2 Evaluation Method:

7.2.1 Price will not be rated or scored, but, will be evaluated for completeness and price reasonableness. A determination will be made on each proposal whether it is complete and the proposed prices are reasonable. The contract Total Evaluated Price shall consist of the Total Prices for CLIN's 0001-0018.

7.2.2 The evaluation criteria definitions are provided below.

7.2.2.1 Completeness: An accurate reflection, within the price proposal, of all aspects of the technical proposal; contractor compliance with the price preparation instructions in the Request for Proposal (RFP) – Instructions, Conditions, and Other Statements to Proposals; and contractor compliance with all other applicable directions in the RFP. Failure to address significant portions of the technical proposal in the price proposal may constitute an incomplete price submission and may result in rejection of the proposal.

7.2.2.2 Price Reasonableness: The proposed prices to the government reflect what a prudent person would pay for goods/services when consideration is given to offered prices in the market.

7.2.2.3 Unbalanced Pricing. The proposals will be reviewed for unbalanced pricing. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price for one or more contract line items is significantly over or understated as indicated by the application of cost or price analysis techniques. Unbalanced pricing may indicate a proposal error and/or a misunderstanding of the contract requirements by the offeror. Based on the analysis performed, a determination will be made on the appearance of unbalanced or balanced pricing on each proposal.

8. A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
