Use of the cited authority is appropriate due to the fact that only Sig Sauer parts may be used with Sig Sauer weapons. It has been determined that these parts are available from authorized distributors.

The Sig Sauer P229-R is an approved weapon for the Department of Veterans Affairs Police Service. Handguns must be maintained to manufacturer specifications to meet Federal Law Enforcement Training Accreditation (FLETA) standards and for prevention of safety hazards manufacturer specific parts are required.

5. Determination that the Order Represents Best Value Consistent with Fair and Reasonable Pricing:

This requirement has been purchased in the past, and based on the historical cost and current market trend estimate the cost has been determined reasonable.

6. Description of Market Research Conducted:

There is no contract schedule on GSA that provides services for firearms. A search of GSA Advantage did not yield any results for repair parts for P229-R Sig Sauer firearm. Due to the unique parts of the P229-R, these parts are not interchangeable with any other fire arm. Therefore, the parts can only be purchase through Sig Sauer Inc. (large business) and/or its Distributors. Market research has identified the following vendors who have expressed interest in this requirement. The incumbent, A2Z (SDVOSB), Tactical Solutions International (SDVOSB), Phoenix Environmental designs Inc.(SDVOSB), Atlantic Diving Supply (Small Business) and Atlantic Tactical Inc. (WOSB). This requirement should be 100 % SDVOSB set-aside IAW 6.206.
