

## QUESTIONS/ANSWERS

Q- Is there a way to get a list of the specific access control and VMS systems at the locations?

A- Attached

Q- What type of cameras are being used?

A- The cameras are as follows:

PTZ is Model #ADSDU835N (some are varied but alike)

Fixed are Model # ADCDW2606TU (some are varied but alike)

The access control system we use is the CCURE 800

All card readers are HID Multi-Class Card Readers

About ¼ of all installations are crash bar systems. The remaining are 8000 series concealed electric strike.

PTZ cameras are Discovery Minidome High-impact, vandal resistant housing with polycarbonate bubbles (clean and/or tinted) with night-saver mode for extreme low-light conditions.

Q- Contractor shall provide Certify CCure800 technicians \*(certification certificates with technician number shall be require for Bid Package award)\*Does this mean the certifications are not needed until the award is made?

A- The contractor will have to be able to provide Certified CCure technicians and 24hr service turnaround service calls prior to award.
