

AMENDMENT NO. A00003

SOLICITATION: VA261-15-B-0857

PROJECT 640-15-150

BIDDER QUESTIONS AND CLARIFICATIONS

QUESTION: On sheet A1200 there is a resilient sheet flooring pattern shown in multiple locations consisting of finish spec symbols C1, C2, and C3. Finish spec symbol C says that the resilient sheet flooring is to be 50% Triangles (Symbol C2) and 50% Circles (Symbol C3) random pattern. Finish spec symbol C also says to see specifications for concept drawings. However, the concept drawings are not located in the specifications and it does not specify how much field resilient sheet flooring (Symbol C1) to incorporate into the random pattern. Please provide the amount of field resilient flooring (Finish spec symbol C1) to incorporate into the random floor pattern.

ANSWER: C1 is the Field Color, 50% and C2 & C3 are the triangles and circles. Each shall be 25%. See attached for reference. Note: Contractor is required to submit shop drawings for approval.
