4. **Rational/explanation to support cited authority:** It is desired that Prism/ Waverly Glen lifts are to be installed based on training; for this particular lift is already installed in more than 125 rooms at this facility. Standardization of rail system, motor and accessory items are desired because maintaining the same vendor allows for consistency of operation among staff and the ability to interchange accessory items between present and future equipment. Omni charge or continuous charge track and compatible motor system are desired. Subcontract installation staff also must have oversight and responsibility by a Waverly Glen/ Prism Project Manager.

6. Note that this determination satisfies the requirements of FAR 8.405-6. The requirement to prepare a written justification IAW FAR 6.303 does not apply to Federal Supply Schedules.
