

## **REVISED PRICE SHEET**

### **BID ITEM #1 - BASE BID**

Price for Completion of Project 612A-4-14-038

Work includes general construction, mechanical and electrical work, roof repair, utility system, necessary removal of existing structures and construction, and certain other items. Some work will need to be performed outside regular business hours ( M-F, 7:30 am- 4:30 pm), if deemed disruption by the COR. The cost associated with this requirement shall be included in the base bid and will not be billable separately to the VA.

Item 1: Replace existing Air Handling Unit (AHU-4) on the roof of building 700.

Item 2: Replace existing constant air flow 100% outside air unit with a new 100% outside air unit to provide more capacity air flow with air-to-air heat exchanger to recover energy from the exhaust air system.

Item 3: Install main risers for supply and exhaust air on north exterior wall with two supply duct terminating at the exterior wall of the second floor ceiling and one pair of supply & exhaust duct terminating at the first floor roof.

### **HVAC Shutdown**

1. This project is required to shutdown of all HVAC system serving the second floor surgery wing. It is imperative that the shutdown duration be kept to an absolute minimum to reduce programming impact to the operation of the hospital. Shutdown shall be schedule with VA minimum four (4) weeks in advance. The shutdown shall occur for Nine (9) days starting Saturday, 12/26/2015 through Sunday 1/3/2016. Contractor is expected to mobilize their subcontractors to work 2 to 3 shift (as needed) during this period to complete all work to have the new AHU-4 and new Exhaust fan(s) fully operational, commissioned and completely air balanced by 9 PM Saturday 1/2/2016.

2. All other works can occurs during the normal business hours.
