

Snow Removal Service Contract

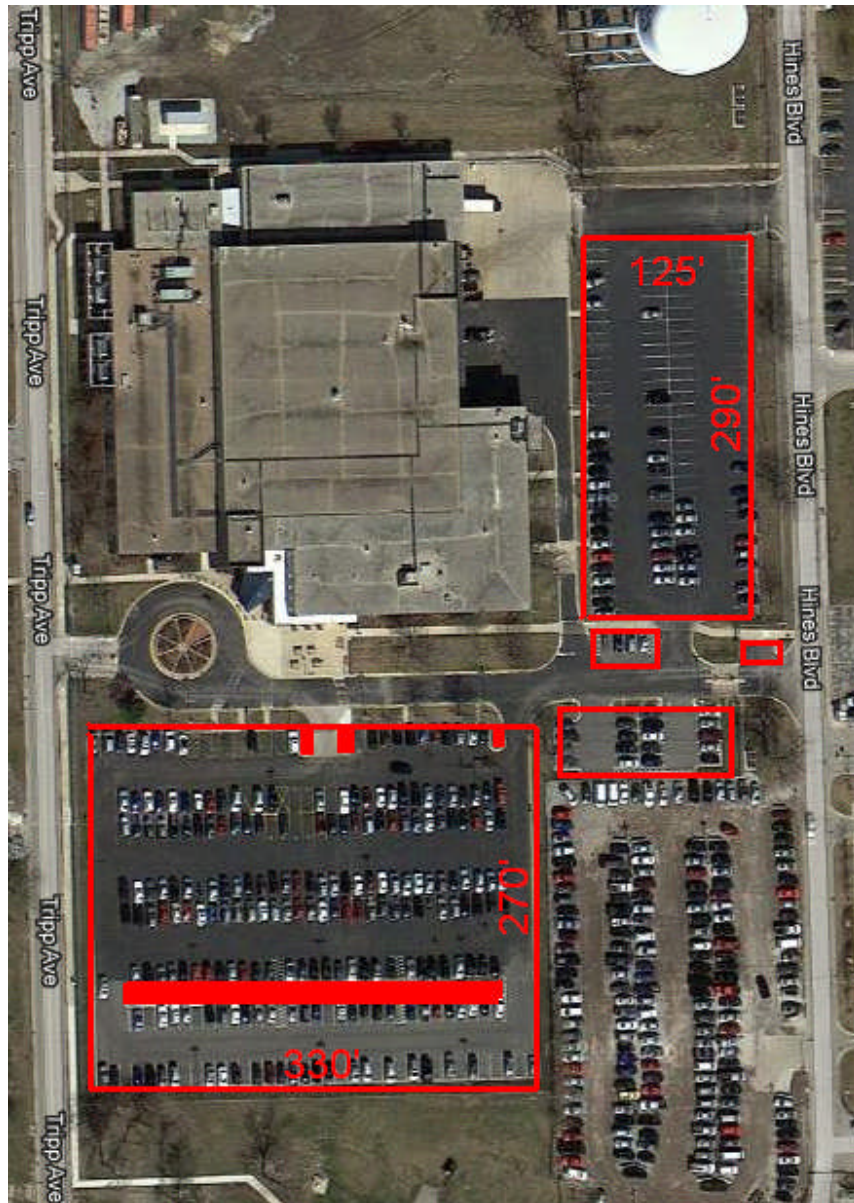

Facility Aerial View:

The Hines ITC Campus outlined in red.

Figure 1

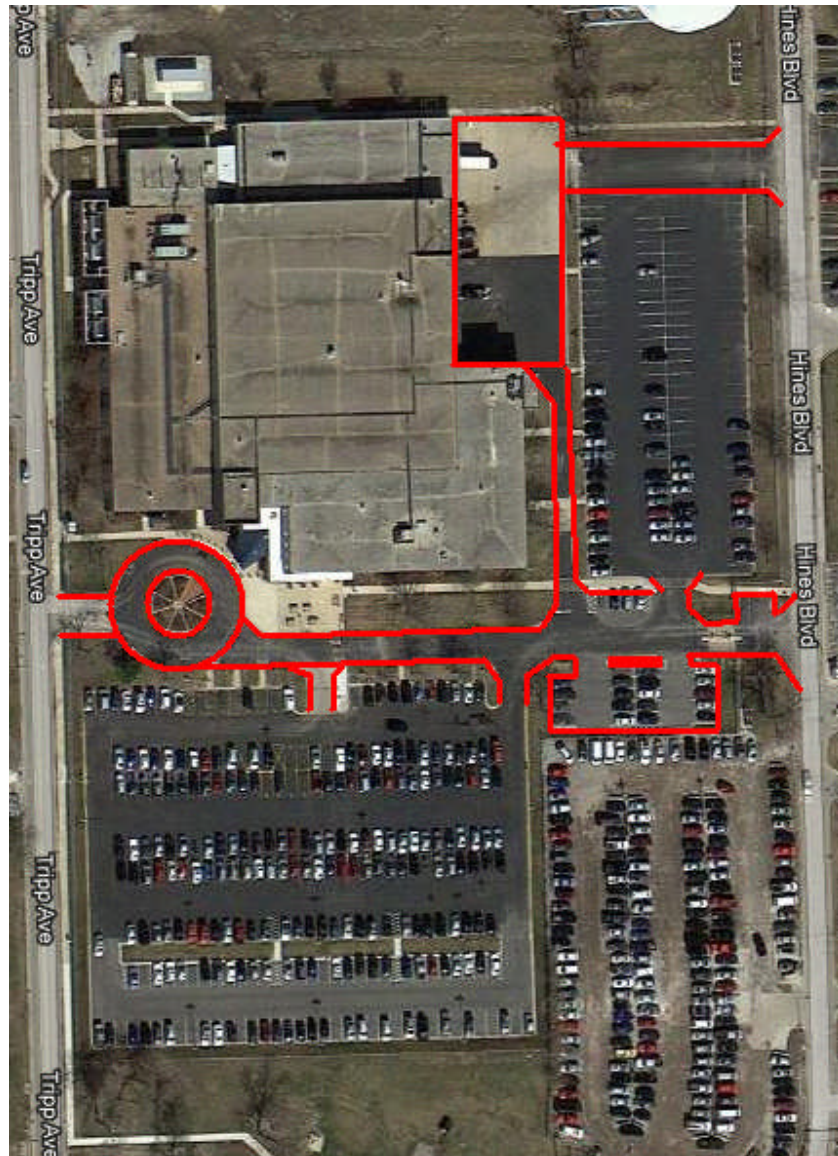

Snow Removal Service Contract

This image shows the south parking lot and east parking lot in red. These are the 2 main parking areas. There are also 3 small parking areas shown where vehicles can park. This image shows all areas where vehicle parking is available.

Figure 2

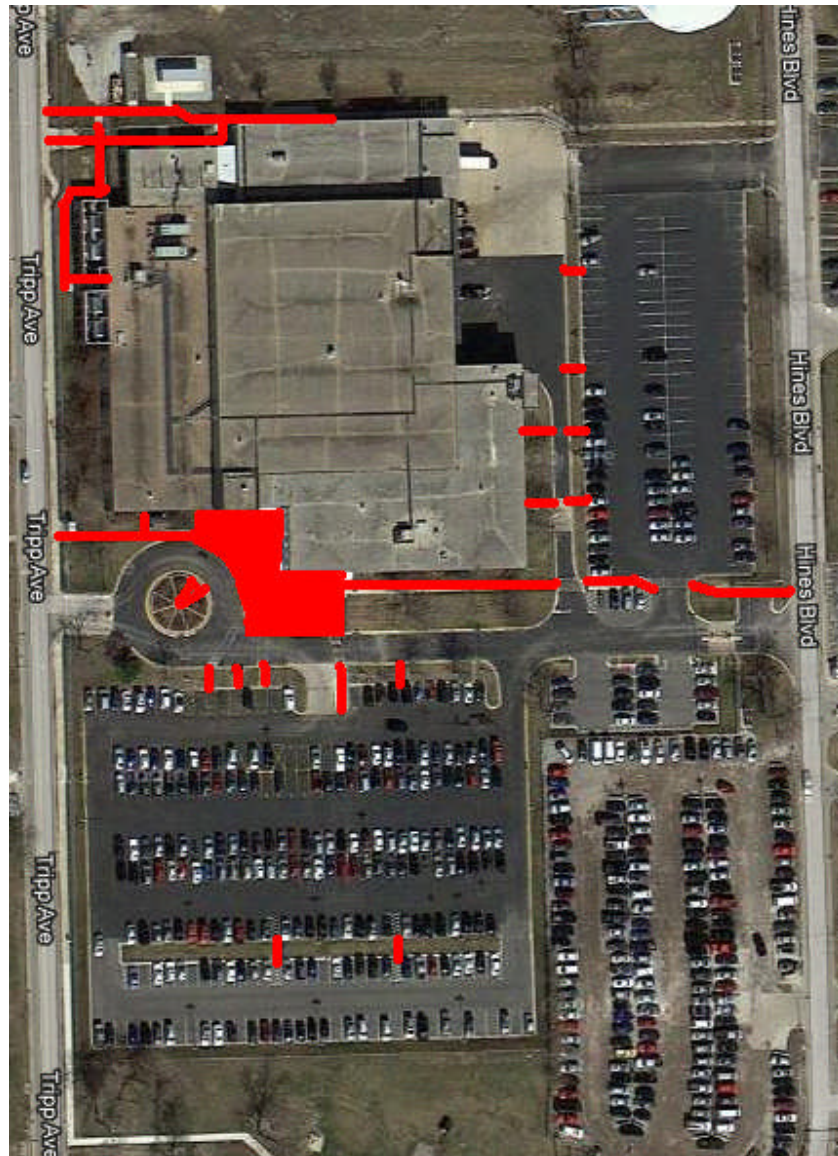

Snow Removal Service Contract

This image shows the main drives, dock area and entrances in red. There are 2 entrances, the main entrance on the west side and the one on the east side. The entrances are gated so only authorized personnel are allowed into the parking lot areas.

Figure 3

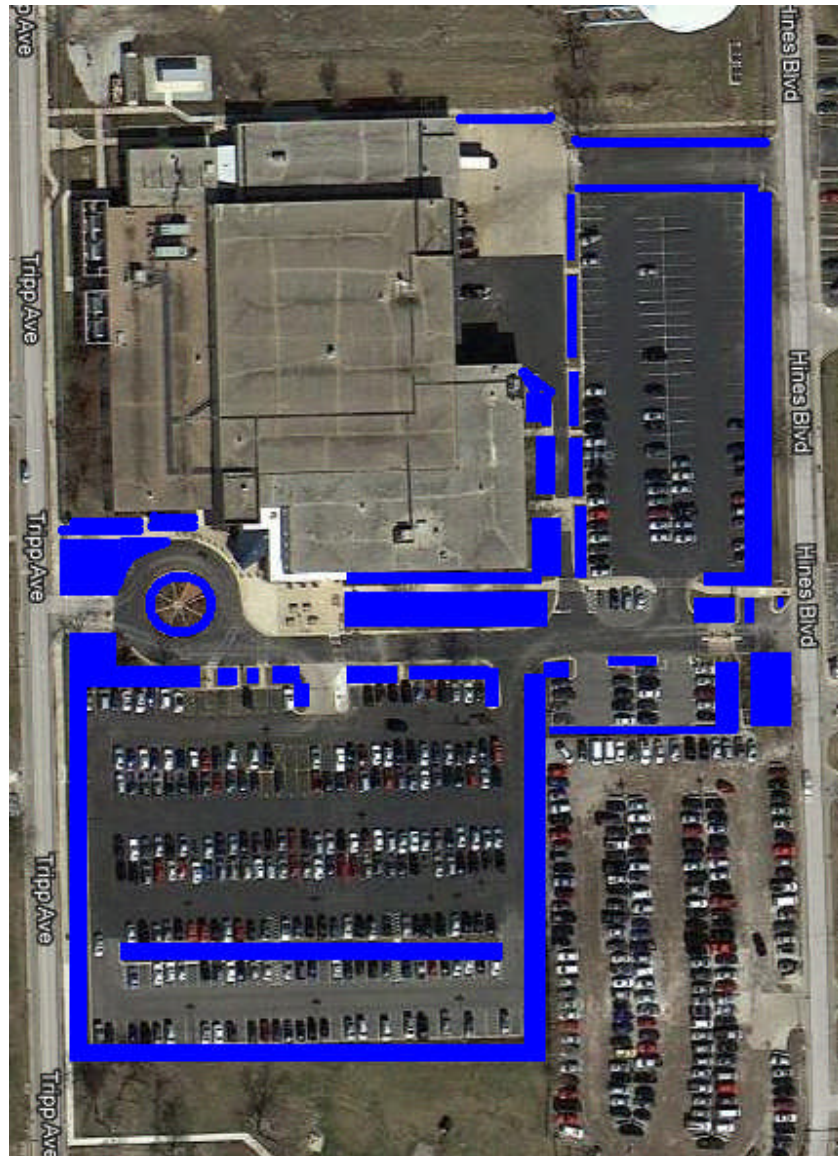

Snow Removal Service Contract

This image shows the walks that require clearing in red.

Figure 4

Snow Removal Service Contract

This image shows snow accumulation areas shown in blue. These are areas that snow can be moved to. If these areas are full or in the case of abnormal weather conditions, snow would have to be moved off campus or melted. Use of East Lot (North East Corner) parking lot area or Southern parking lot (South West or South East Corner) for snow storage can be arranged with prior written approval from GCP.
