CONTINUATION PAGE

RFI #3 Factor 4 – Technical Qualifications (pg 8 of 649) requires that the offeror include submission of a valid General Contractor License (item #3) and a valid Architects License (item #4).

Do these licenses have to be from the offeror (the Prime) or can they be from a subcontractor that will work for the Prime?

- **The licenses can be from which ever firm will be the contractor of record. This can be the Prime Contractor, or the Sub-contractor. Architect License is no longer a requirement. See item 4 of this Amendment.**

RFI #4 Evaluation Criteria (pg 7 of 649) includes two sub-paragraph (a). The first one requires submission on Experience Modification Rate (EMR).

Is the EMR required just for the Prime contractor or is it required from the Prime Contractor and the subcontractors?

- **The EMR submission is only required for the Prime contractor.**

RFI #5 Factor 5 – Past Performance (pg 8 of 649) appears to have an incomplete sentence. It states: Submit a no more than 5 references.

Request clarification on this sentence.

- **The sentence “Submit a no more than 5 references.” Is an error and shall now read, “Submit no more than 5 references.”**

RFI #6 Factor 6 – Management Approach (pg 9 of 649) requires the offeror to “describe precautions taken by the management team to ensure that infection control is kept throughout the project and how the subcontractor will be held to the same standards; inform how you will inform the subcontractor and other employees of the infection control standards. Describe the different infection control aspects to this work and why they are so important.

Please confirm that infection controls are required for this irrigation and grounds facility work. This appears excessive for a grounds facility.

- **Infection control and Interim Life Safety Requirements Classifications are defined by the project classification found on page 22 of the solicitation. The specific duties and**

responsibilities for these classifications can be found within the Pre-Construction Risk Assessment found on pages 624 – 627 of the solicitation.

RFI #7 RFP Documents. There were two documents provided with the RFP: a 649 page PDF and a 58 page word document. There are differences in the two documents:

- Word document includes Sect 2.15 Partnering (pg 13 of 58) that is not in the PDF version
- The word document is missing Section 4.10 FAR 52.223-2 and Section 4.11 FAR 52.223-9 which are in the PDF on pages 630-631 of 649
- The word document includes Design Build Specifications to include Sections 4.30 through 4.35 found on pages 55-56 of 58. These sections are not in the PDF version.
- The word document includes Attachment 1 – Release of Claims (page 57-58 of 58) that is not found in the PDF version.

Request clarification for these discrepancies. Which document takes precedence?

- **The Word document was mistakenly uploaded. Please use only the PDF document with regards to this solicitation and project.**
