ACUSON Freestyle Mainframe

The ACUSON Freestyle(tm) ultrasound system* is the world's first ultrasound system that operates with wireless transducers, a breakthrough in ultrasound imaging. The system features superior image quality and a new standard in ease of use in an ergonomic and portable design.

Standard features include:

- B-mode
- Color flow mapping
- Spatial compounding
- Speckle reduction
- Auto image optimization
- Supports wireless transducers
- One (1) transducer cable adapter
- Two (2) batteries for wireless transducers
- DICOM Storage, Storage Commitment, Modality Worklist and Echo
- DICOM networking: Ethernet (wired) and 802.11b/g (wireless)
- Factory default and user customizable exam types
- High resolution flat panel display
- A/C and battery operation
- Two (2) charger bays for wireless transducer batteries

*Product pending shipment confirmation

Freestyle 3.5 Software

The 3.5 Release for the ACUSON Freestyle(tm) ultrasound system continues the advancement of imaging performance and ease of use to meet the increasing clinical demands.

The release features include needle visualization enhancement, advancement in image quality with new speckle filters and presets, enhanced user interface, mobile link application, and additional workflow improvements. These features are standard:

- Needle Visualization Enhancement improves the visibility of in-plane and out-of-plane needles, especially at steeper angles, using the ACUSON Freestyle system's software algorithm using unique multi-beam spatial compounding and other optimization techniques, while maintaining excellent image quality of the anatomical target and surrounding structures.
- Wireless Enterprise Authentication enables wireless connection to enterprise networks to send to PACS. This is based on qualified sites that meet certain network specifications.

Qty	Item Description
	<p>•ACUSON Freestyle(tm) mobile link app connects the system to a Microsoft(r) Window(r) device* to view, open, and share images from the patient study list, create patient study worklists and send them to the ACUSON Freestyle system to start new studies faster and easier with privacy and security protection.</p> <p>NOTE: Image viewing on the ACUSON Freestyle mobile link app is for informational purposes only, and is not intended for diagnostic use.</p> <p>*Windows 8.1 is required. Device is not included.</p>
1	Freestyle 3.5 Lang Kit English English operating instructions for the ACUSON Freestyle(tm) ultrasound system.
1	Freestyle Cordset North America Custom power cordset for use with the ACUSON Freestyle(tm) ultrasound system in the North America. Product pending shipment confirmation.
1	L13-5 Transducer, Freestyle Linear wireless transducer 13-5 MHz. Includes one transducer battery. Product pending shipment confirmation.
1	C5-2 Transducer, Freestyle Curvilinear transducer 5-2 MHz. Includes one transducer battery. Product pending shipment confirmation.
1	L8-3 Transducer, Freestyle Linear wireless transducer 8-3 MHz. Includes one transducer battery. Product pending shipment confirmation.
1	Freestyle GCX Roll Stand ACUSON Freestyle(tm) ultrasound system GCX roll stand allows for easy maneuverability and ergonomic positioning. Quick-release, tilt-adjustable system mount and storage baskets. Product pending shipment confirmation.
1	Freestyle Keyboard USB keyboard designed for medical environments. Easy-to-clean and disinfect. Product pending shipment confirmation.
1	Freestyle Ethernet Port Isolator Ethernet port isolator.
1	Freestyle Add'l Manual 3.5 English
1	Freestyle Service Manual CD Service Manual CD for ACUSON Freestyle(tm) ultrasound system. Product pending shipment confirmation.
1	Initial onsite trn Govt 4 hrs Up to (4) hours of on-site clinical education training for government, scheduled consecutively (Monday - Friday) during standard business hours for a maximum of (4) imaging professionals. Uptime Clinical Education phone support is provided during the warranty period for specified posted hours. This educational offering must be completed (12) months from install end date. If training is not completed within the applicable time period, Siemens obligation to provide the training will expire without refund.

One complimentary biomedical tuition is included with the purchase of this system. This training must be completed before the end of the warranty period.
