

#### Tab One - Referrals

Tab One, titled "Referrals," provides an approximate list of Referrals to non-VA providers for Fiscal Year 2015 (October 1, 2014 through September 30, 2015).

- The first column, titled "YrMo" indicates that the Referrals are for Fiscal Year 2015.
- The second column, titled "Station," refers to the station number that belongs to each VA facility. You can view facilities by station number on the VHA's website at: [http://www.va.gov/directory/guide/rpt\\_fac\\_list.cfm?sort=StalD&list\\_by=all&oid=all](http://www.va.gov/directory/guide/rpt_fac_list.cfm?sort=StalD&list_by=all&oid=all)
- The third column, titled "VA Facility Name" includes the name of the VA facility generating the referral to the community.
- The fourth column, titled "Service Descriptor" provides the service category to which the authorization applies.
- The fifth column, titled, "NumReferrals" includes the number of Referrals generated for the service category.
- The sixth column, titled, "NumVets" includes the number of unique veterans for which an authorization was provided for the service category.

Please note that Respondents should not sum the number of Veterans receiving Referrals because one or more Veterans may have one or more Referrals across the various category of services.

Please also note that each facility generates the Referrals, but a Veteran could live outside of the counties served by that facility and/or the authorized services could be rendered outside of the counties serviced by that facility. This is not accounted for in the data.

#### Tab Two – Service Area

Tab Two, titled "Service Area," provides a list of VA facilities and the counties they serve.

- The first two columns, titled "Station," and "Facility Name" respectively, have the same meanings as set forth in Tab One.
- The third and fourth columns, titled "State" and "Counties" respectively, identify the states and counties served by the facility.

Please note that Tab Two includes the VA facilities listed in Tab One that generated Referrals and additional facilities that also serve the Veteran population.
