Market Research Was Not Conducted: The existing Locks and Latches throughout the entire Lebanon VAMC facility is BEST access systems. The Locks and Latches require the same manufacturer in all facilities throughout the campus. Per the market research conducted, different manufactures would require additional equipment for lock and key cutting, different brand keys, multiple Grand master keys that would drastically increase overhead for lock control. Also, the Best system has the unique "figure 8" style lock core, which other brand keys and cores do not fit.
