

KEY PLAN GENERAL NOTES

1. Project Scope lines are intended to indicate the project work area and are schematic in nature. Additional work as required by these documents may occur outside the Project Scope lines. Contractor shall complete all work required by these documents.

- LEGEND
- Area of new flooring
  - Project Scope

- CODED NOTES
- Temporary path of travel between Atrium & Main Elevator Lobbies during construction in Phase 2
  - Temporary access to Mental Health and other adjacent departments
  - Temporary path of travel between Atrium & Main Elevator Lobbies during construction in Phase 3.
  - Temporary path of travel between Main Elevator Lobby and CARES Tower during construction in Phases 1, 4, & 6.
  - Location of temporary electric power source (208V 3ph 100A or 480V 3ph 60A). Contractor to provide disconnect and all related electrical work to extend temporary power feed to the Work area in a safe and code compliant manner. Temporary wiring shall be located above existing ceilings and is not required to be in conduit. Wiring is to be properly and independently supported, utilizing existing MEP supports where feasible. Do not suspend temporary wiring from existing conduits, cable tray, mechanical piping, mechanical ducts, etc. or any component of the suspended ceiling. Do not lay temporary wiring on ceiling grid. Contractor shall remove all temporary electrical installations at the conclusion of the Work, and shall restore all areas to their original condition, including patching of rated walls and firestopping if needed.

Note: All work shown in Basement is part of Deduct Alternate #1.
