

REQUEST FOR INFORMATION

VISN 23 is requesting information for companies who offer the following goods or equivalent. **THIS IS A REQUEST FOR INFORMATION (RFI) ONLY:** The market research is looking to identify potential vendors who have the capabilities to offer the following:

Bronchoscopy Equipment –

New ultrasound processor, light source and bronchoscopes to enhance identification and biopsy procedures for pulmonary nodules. To decrease and possibly alleviate the use of the C-Arm which exposes the patient and staff to x-ray radiation. To allow for use of new scope technology and improve the patient procedure process now and in the future. Improve clinical decision making abilities by recognizing and enhancing the ability to identify and biopsy lung airway nodules for pathology review and diagnostic testing. Technology to allow pulmonologists the ability to accurately and safely access peripheral lung nodules for early diagnosis and localization of lung cancer.

- BF-P190: BF-P190 EVIS EXERA III SLIM BRONCH 4.1MM
- EU-ME2: EU-ME2 EU-ME2 ULTRASOUND PROCESSOR

NAICS CODE: 339112

Product Service Code: 6515 Medical Equipment

If your company sells the Equipment listed above please contact me at Lance.Haman@va.gov and provide the following information and any additional information that you deem pertinent:

| Company Name | POC | Phone Number | Email Address | Product(s) | Duns | Business Size |
|--------------|-----|--------------|---------------|------------|------|---------------|
