The device will monitor and continuously record the following:

- Stance and swing time for gait symmetry, dynamic function including alignment, forces, and moments;
- Cadence and cadence variability;
- Step count – continuous recording of total step count;
- Number of steps per selected time interval;
- Longitudinal, historical and objective analysis;
- Peak performance index, quantifiable into baseline and faster than baseline rate of walking, distance and variable cadence;
- Functional level assessment capability; and
- Measurement of socket load during gait.

VA may request “Veteran Outcome Reports” based on the data collected. The report shall contain narrative and graphical representation of the above variables.

4.5. Semi-Annual Service

The Contractor shall provide semi-annual service to each veteran for whom the Contractor is managing prosthetic limb care. For the purposes of this contract, semi-annual service is defined as a follow up visit for inspection of the prosthetic limb(s) and evaluation for fit and function for all VA-approved prosthetic limb(s) the patient owns and is actively using. Typically, semi-annual service includes inspection, testing, cleaning, and checking of the prosthetic limb(s) and/or residual limb(s) to include maintenance specific to the warranty of devices.

Two follow up visits per patient are required annually for a patient to whom the Contractor delivered a prosthetic limb(s) under this contract. The Contractor shall notify the CO for the required semi-annual service and receive written authorization prior to providing the semi-annual service to the veteran.

The minimum warranty period shall commence after the final check out at the VAMC by the Amputee Clinic Team and deliverable acceptance by the CO. Manufacturer's warranties of prosthetic limb and limb devices/components that extend beyond the minimum 90 calendar day period shall be in effect and be enforced. The Contractor shall furnish, without additional cost to the Government, all materials and labor necessary to correct defects that were detected during the warranty period. These conditions do not apply to adjustments incidental to wearing of the prosthetic limb, adjustments required by physical change of the wearer, or where there is evidence of deliberate misuse or alteration by anyone other than the Contractor.

Any prosthetic limb repaired or furnished as a "loaner" shall be subject to this clause to the same extent as a new prosthetic limb delivered. The warranty for a repaired limb or "loaner" limb shall be equal in duration to the term the Contractor is required to offer to a new prosthetic limb and shall run from the date of the acceptance of the repaired or "loaner" prosthetic limb by VA.

The Contractor shall warrant and imply that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract. The rights and remedies of the Government provided in this clause are in addition to, and do not limit any, rights afforded to the Government by any other clause of the contract.

4.7. Repair and Replacement

4.7.1. Minor Parts of Prosthetic Device and Labor

All parts procured or fabricated to replace existing parts or to modify a previously issued or fabricated device is considered a "repair," regardless of who fabricated or supplied the original part. Repair and replacement of minor parts may require adjustments to a prosthetic limb required by wear or a change in the veteran's condition. A minor repair or replacement means repair or replacement that does not significantly alter the function or essential physical characteristics of an item or component, or change the purpose of an item or component. Factors that will be considered in determining whether a repair or replacement is minor include the value and size of the repair or replacement, and the comparative value and size of the final product. Dollar values and percentages may be used as guideposts, but are not conclusive evidence that a repair or replacement is minor. The following L-Codes shall be used for repair and replacement of minor parts and for labor:

- L7510 – Repair prosthetic device, repair or replace minor parts (not to exceed \$500.00)
- L7520 – Repair prosthetic device, labor component, per 15 minutes (not to exceed 8 units or 120 minutes)

Repair and replacement of minor parts and labor requires prior approval and written authorization from the CO, except for repairs provided to veterans with VA Prosthetic Service Card (VA Form 10-2501) as described in section 4.7.2.

4.7.2. Use of Prosthetic Service Card (VA Form 10-2501)

Veterans may obtain repair services using a VA Prosthetic Service Card (PSC) VA Form 10-2501. A PSC is a pre-authorized card that can be used to receive needed repairs to the veteran's qualified prosthetic device up to the amount indicated on the PSC. For prosthetic limbs, veteran may obtain repairs up to \$500.00 with the PSC. For repairs or replacement of parts other than using a PSC or over \$500.00 shall be completed with prior approval and written authorization from VA and in accordance with the section 4.7.1.

The Contractor shall submit VA Form 10-2520 PSC Invoice (Attachment A) to the Prosthetic and Sensory Aids Service at the VAMC with the primary service area responsibility where the veteran resides for reimbursement. The Contractor shall obtain the veteran's signature acknowledging receipt of appropriate repair for invoices for such repairs under the authority of a PSC.

4.7.3. Other than Repair or Replacement of Minor Parts of Prosthetic Device and Labor

Repairs to a prosthetic limb are covered when necessary to make the prosthetic limb functional. If the expense for repairs exceeds the estimated expense of purchasing a new prosthetic limb or device, no payment can be made for the amount of the excess. Maintenance that may be necessitated by manufacturer's recommendations or construction of the prosthetic limb shall be performed by the Contractor covered as a repair.

Replacement of a prosthetic limb or replacement of a prosthetic limb device/component requires prior approval and written authorization from the CO. Replacement of a prosthetic limb or prosthetic limb device/component will be initiated if the VA provider (i.e., Amputee Clinic Team or VA provider) with granted prescription authority, and who is involved in veteran's amputation care, prescribes a prosthetic limb or device for the following reasons:

- (1) A change in the physiological condition of the patient; irreparable wear of the device or part of the device; or the condition of the device, or part of the device, requires repairs and the cost of such repair would be more than 60% of the cost of a replacement device, or of the part being replaced.
- (2) Damage to the prosthetic limb or device is not due to malicious damage, culpable neglect, wrongful disposition or use of device other than intended purposes.

4.8. Government Supplied Items

VA may provide certain supplies such as shrinkers, liners, sleeves, and socks to the veteran at the discretion of the VA. Any items or supplies provided to the veteran by the Contractor shall be pre-authorized by the CO.

4.9. Loaner Prosthetic Limb Requirements

4.9.1 The Contractor shall be qualified to furnish prosthetic devices such as, but not limited to, hydraulic knee units, micro-processor feet and knees, electronic hands and feet by completing special educational and training requirement for such devices as described in section 3.2 and the same requirement shall be applied to provision of a "loaner" unit. The Contractor shall provide a "loaner" unit in the event that a veteran's prosthetic limb requires repair by the manufacturer. A "loaner" is defined as a suitable prosthetic device, fit for patient use during the repair period. VA will not reimburse for loaner units.

4.9.2 Loaner Hydraulic Unit Requirements.

Contractors who are qualified to furnish hydraulic knee mechanisms are required to provide a “loaner” unit in the event that a veteran beneficiary’s unit needs repair by the manufacturer. The contractor shall submit a copy of the invoice from the manufacturer to support the cost of repairing the malfunctioning unit. Any salvage value granted by the manufacturer for a non-repairable unit shall be credited to VA against the cost of a replacement unit.

4.9.3 Microprocessor Knee Joints

Contractors who are qualified to furnish microprocessor knee joints are required to provide a "loaner" unit in the event that a veteran beneficiary's unit needs repair by the manufacturer. The contractor shall submit a copy of the invoice from the manufacturer to support the cost of repairing the malfunctioning unit. Any salvage value granted by the manufacturer for a non-repairable unit shall be credited to VA against the cost of a replacement unit. Some microprocessor knee joints may have up to a three-year warranty for parts from the manufacturer, which shall be credited to the VA.

4.10 Salvage.

In the event that a veteran beneficiary dies prior to delivery and acceptance of an artificial limb, VA shall pay the contractor for the work performed up to the point that they are notified to stop work. The pricing paid shall be mutually agreed upon and shall not exceed the contract price of the limb less the salvage value of the unused limb.

4.11 Recalls

The Contractor shall immediately notify all affected VAMC(s) and COR(s) in the event of a device recall, removal, required adjustment, or required modification that is suggested or mandated by the Contractor, distributor, manufacturer, or any regulatory or government agency. The following information shall be included in this notification:

Therefore, Contractor may have access, as would other appropriate components of VA, to patient medical records including patient treatment records pertaining to drug and alcohol abuse, HIV, and sickle cell anemia, to the extent necessary to perform its contractual responsibilities. However, like other components of the Department, and notwithstanding any other provisions of the sharing agreement, the Contractor is restricted from making disclosures of VA records, or information contained in such records, to which it may have access, except to the extent that explicit disclosure authority from VA has been received. The Contractor is subject to the same penalties and liabilities for unauthorized disclosures of such records as VA.

The records referred to above shall be and remain the property of VA and shall not be removed or transferred from VA except in accordance with U.S.C.552a (Privacy Act), 38 U.S.C. 5701 (Confidentiality of claimants records), 5 U.S.C. 552 (FOIA), 38 U.S.C. 5705 (Confidentiality of Medical Quality Assurance Records) 38 U.S.C. 7332 (Confidentiality of certain medical records) and federal laws, rules and regulations. Subject to applicable federal confidentiality or privacy laws, the Contractor, or their designated representatives, and designated representatives of federal regulatory agencies having jurisdiction over Contractor, may have access to VA 's records, at VA's place of business on request during normal business hours, to inspect and review and make copies of such records.

5.3 VA Sensitive Information

VA sensitive information is all Department data, on any storage media or in any form or format, which requires protection due to the risk of harm that could result from inadvertent or deliberate disclosure, alteration, or destruction of the information. The term includes information whose improper use or disclosure could adversely affect the ability of an agency to accomplish its mission, proprietary information, records about individuals requiring protection under various confidentiality provisions such as the Privacy Act and the HIPAA Privacy rule, and information that can be withheld under the Freedom of Information Act. Examples of VA sensitive information include the following: individually-identifiable medical, benefits, and personnel information; financial, budgetary, research, quality assurance; information that is confidential and privileged in litigation such as information protected by the deliberative process privilege, attorney work-product privilege, and the attorney client privilege; and other information which, if released, could result in violation of law or harm or unfairness to any individual or group, or could adversely affect the national interest or the conduct of federal programs.

6.0 Performance, Delivery, Inspection and Acceptance

6.1 Performance and Delivery

The Contractor shall complete initial delivery of items ordered under this contract no later than 30 calendar days after receipt of a delivery order. Initial delivery means an ordered item or service is complete and the item is provided to, and accepted by the patient. The Contractor shall provide a written notification to the VA Prosthetic Representative within 7 calendar days of the receipt of a delivery order to show cause in the event the Contractor is unable to deliver the required items or services in accordance with the Government's required delivery date. Initial delivery shall not be construed as final delivery or acceptance of an item or service by the Government.

Typically, Veteran beneficiaries who are experienced prosthetic wearers will normally be measured, fitted, and accept delivery of their prosthesis at the contractor's facility. Veteran beneficiaries who are not experienced prosthetic wearers (first time Prosthesis user) will normally be measured, fitted, and accept delivery at the ordering VA facility. The conditions of and point of measurement, fitting, delivery, inspection, and acceptance of prosthetic appliances shall be at the discretion of the appropriate VA Clinical Team, Prosthetic Representative, Chief of Prosthetics, or prescribing physician and handled on a case by case basis.

In the event the Government desires expedited delivery, the ordering activity shall telephonically contact the Contractor and inquire into the feasibility of obtaining the device under this condition. The Contractor shall respond within 24 hours to such request and expedited delivery shall be mutually agreed upon. Expedited delivery terms and conditions, when required, shall be determined by the CO or COR and the Contractor on a case by case basis and stated in the individual task or delivery order. Any additional costs incurred by the Contractor for meeting this requirement shall be negotiated in accordance with 48 U.S.C. 52.212-4, Contract Terms and Conditions – Commercial Items. The total cost for the expedited delivery shall not exceed 1.5 times the cost of the normal delivery for the same or similar item with any applicable discounts. Failure by the Contractor to deliver the ordered items on an expedited basis, or otherwise fulfill the agreed upon requirements shall constitute an event of default, and the CO shall undertake any action authorized pursuant to the awarded contract, or otherwise in accordance with applicable statutes and regulations.

6.2 Inspection and Acceptance

Contractor performance shall be monitored by the Quality Assurance Surveillance Plan (QASP) located in Attachment A. The QASP matrix details performance indicators, the standard, the acceptable quality level, the method of surveillance and incentive/disincentives. The indicators are:

- Delivery time requirement
- Limb compliant with VA physician prescription
- Workmanship free of defect (socket fits appropriately, limb correctly aligned)
- Patient education
- Patient acceptance of the device in all aspects (cosmetically and functionally)

Payment shall be rendered for a prosthetic limb or service that satisfactorily meets all of the indicators. Payment shall be delayed for any prosthetic limb or service that does not meet one or more of the indicators. The Contractor shall correct all deficiency of non-compliant prosthetic limb or service within fifteen (15) calendar days of written rejection notification from the COR. The corrected prosthetic limb or service will be re-inspected for acceptance. No invoice shall be submitted until the Government accepts the item or service.

For new prosthetic limbs or socket replacement for existing prosthetic limbs, final check-out by the VA Amputee Clinic Team at the VAMC from which the task order was generated is required. Final delivery and check out shall be conducted at the VAMC, either by in person inspection or via Tele-health capabilities at an outlying VA facility. Final acceptance or rejection and authorization for payment shall occur with the final delivery and checkout of the prosthetic limb to ensure accuracy of prescription and acceptance by the veteran. CO will provide a written acceptance notification for any items accepted by the Government. Veteran prosthetic limb wearers may be measured and fitted and accept conditional or initial delivery of the prosthetic limb at the Contractor's facility. However, conditional or initial delivery shall not be construed as final delivery or acceptance of an item or service by the Government and authorization for payment.

Repair or replacement of prosthetic limb components other than socket replacement does not generally require final check-out by the VA Amputee Clinic Team unless VA determines and notifies the Contractor that the final check-out is required with the issuance of the task or delivery order. VA retains sole discretion to determine whether a final check-out is necessary for the task order.

7.0 Ordering Procedures

The Contractor shall not directly, or indirectly through agents, solicit eligible veterans. VA personnel shall not direct, guide or prompt a veteran to a specific contractor except when a physician determines that it is a medical necessary as documented in clinical notes.

Veterans are allowed to select a non-VA prosthetic limb provider from a list of VA approved contractors and this satisfies the requirement for fair opportunity. Each list of preferred providers shall contain the following header statement in boldface type:

YOU HAVE THE RIGHT TO SELECT THE ARTIFICIAL LIMB CONTRACTOR OF YOUR CHOICE FROM ANY OF THE VA APPROVED CONTRACTORS. ANY ATTEMPT TO INFLUENCE YOUR DECISION OR TO DIRECT YOU TO ANY PARTICULAR CONTRACTOR SHOULD BE REPORTED TO THE MEDICAL CENTER DIRECTOR OF THIS FACILITY.

In some instances a VA clinician determines that it is medically necessary to select a certain contractor as documented in clinical notes, which would also satisfy the fair opportunity requirement of FAR 16.505(b)(1). Exceptions to the fair opportunity process are:

- The agency need for the supplies or services is so urgent that providing a fair opportunity would result in unacceptable delays.
- Only one awardee is capable of providing the supplies or services required at the level of quality required because the supplies or services ordered are unique or highly specialized.
- The order must be issued on a sole-source basis in the interest of economy and efficiency because it is logical follow-on to an order already issued under the contract, provide that all awardees were given a fair opportunity to be considered for the original order.
- It is necessary to place an order to satisfy a minimum guarantee.
- For orders exceeding the simplified acquisition threshold, a statute expressly authorizes or required that the purchase be made from a specified source.
- In accordance with section 1331 of Public Law 111-240 (15 USC 644(4)), contracting offers may, at their discretion, set aside orders for any of the small business concerns identified in 19.000(a)(3). When setting aside orders for small business concerns, the specific small business program eligibility requirements identified in part 19 apply.

It will continue to be VA's policy to permit all service-connected and non-service-connected amputees who have continuing eligibility and who have established ties with an existing Prosthetist to continue to use that Prosthetist provided that Prosthetist is willing to accept the current preferred provider terms for the applicable contract area.

B.5 IT CONTRACT SECURITY

VA INFORMATION AND INFORMATION SYSTEM SECURITY/PRIVACY

1. GENERAL

Contractors, contractor personnel, subcontractors, and subcontractor personnel shall be subject to the same Federal laws, regulations, standards, and VA Directives and Handbooks as VA and VA personnel regarding information and information system security.

2. ACCESS TO VA INFORMATION AND VA INFORMATION SYSTEMS

a. A contractor/subcontractor shall request logical (technical) or physical access to VA information and VA information systems for their employees, subcontractors, and affiliates only to the extent necessary to perform the services specified in the contract, agreement, or task order.

b. All contractors, subcontractors, and third-party servicers and associates working with VA information are subject to the same investigative requirements as those of VA appointees or employees who have access to the same types of information. The level and process of background security investigations for contractors must be in accordance with VA Directive and Handbook 0710, Personnel Suitability and Security Program. The Office for Operations, Security, and Preparedness is responsible for these policies and procedures.

c. Contract personnel who require access to national security programs must have a valid security clearance. National Industrial Security Program (NISP) was established by Executive Order 12829 to ensure that cleared U.S. defense industry contract personnel safeguard the classified information in their possession while performing work on contracts, programs, bids, or research and development efforts. The Department of Veterans Affairs does not have a Memorandum of Agreement with Defense Security Service (DSS). Verification of a Security Clearance must be processed through the Special Security Officer located in the Planning and National Security Service within the Office of Operations, Security, and Preparedness.

d. Custom software development and outsourced operations must be located in the U.S. to the maximum extent practical. If such services are proposed to be performed abroad and are not disallowed by other VA policy or mandates, the contractor/subcontractor must state where all non-U.S. services are provided and detail a security plan, deemed to be acceptable by VA, specifically to address mitigation of the resulting problems of communication, control, data protection, and so forth. Location within the U.S. may be an evaluation factor.

e. The contractor or subcontractor must notify the Contracting Officer immediately when an employee working on a VA system or with access to VA information is reassigned or leaves the contractor or subcontractor's employ. The Contracting Officer must also be notified immediately by the contractor or subcontractor prior to an unfriendly termination.

3. VA INFORMATION CUSTODIAL LANGUAGE

a. Information made available to the contractor or subcontractor by VA for the performance or administration of this contract or information developed by the contractor/subcontractor in performance or administration of the contract shall be used only for those purposes and shall not be used in any other way without the prior written agreement of the VA. This clause expressly limits the

contractor/subcontractor's rights to use data as described in Rights in Data - General, FAR 52.227-14(d) (1).

b. VA information should not be co-mingled, if possible, with any other data on the contractor/subcontractor's information systems or media storage systems in order to ensure VA requirements related to data protection and media sanitization can be met. If co-mingling must be allowed to meet the requirements of the business need, the contractor must ensure that VA's information is returned to the VA or destroyed in accordance with VA's sanitization requirements. VA reserves the right to conduct on site inspections of contractor and subcontractor IT resources to ensure data security controls, separation of data and job duties, and destruction/media sanitization procedures are in compliance with VA directive requirements.

c. Prior to termination or completion of this contract, contractor/ subcontractor must not destroy information received from VA, or gathered/ created by the contractor in the course of performing this contract without prior written approval by the VA. Any data destruction done on behalf of VA by a contractor/subcontractor must be done in accordance with National Archives and Records Administration (NARA) requirements as outlined in VA Directive 6300, Records and Information Management and its Handbook 6300.1 Records Management Procedures, applicable VA Records Control Schedules, and VA Handbook 6500.1, Electronic Media Sanitization. Self-certification by the contractor that the data destruction requirements above have been met must be sent to the VA Contracting Officer within 30 days of termination of the contract.

d. The contractor/subcontractor must receive, gather, store, back up, maintain, use, disclose and dispose of VA information only in compliance with the terms of the contract and applicable Federal and VA information confidentiality and security laws, regulations and policies. If Federal or VA information confidentiality and security laws, regulations and policies become applicable to the VA information or information systems after execution of the contract, or if NIST issues or updates applicable FIPS or Special Publications (SP) after execution of this contract, the parties agree to negotiate in good faith to implement the information confidentiality and security laws, regulations and policies in this contract.

e. The contractor/subcontractor shall not make copies of VA information except as authorized and necessary to perform the terms of the agreement or to preserve electronic information stored on contractor/subcontractor electronic storage media for restoration in case any electronic equipment or data used by the contractor/subcontractor needs to be restored to an operating state. If copies are made for restoration purposes, after the restoration is complete, the copies must be appropriately destroyed.

f. If VA determines that the contractor has violated any of the information confidentiality, privacy, and security provisions of the contract, it shall be sufficient grounds for VA to withhold payment to the contractor or third party or terminate the contract for default or terminate for cause under Federal Acquisition Regulation (FAR) part 12.

g. If a VHA contract is terminated for cause, the associated BAA must also be terminated and appropriate actions taken in accordance with VHA Handbook 1600.01, Business Associate Agreements. Absent an agreement to use or disclose protected health information, there is no business associate relationship.

h. The contractor/subcontractor must store, transport, or transmit VA sensitive information in an encrypted form, using VA-approved encryption tools that are, at a minimum, FIPS 140-2 validated.

i. The contractor/subcontractor's firewall and Web services security controls, if applicable, shall meet or exceed VA's minimum requirements. VA Configuration Guidelines are available upon request.

j. Except for uses and disclosures of VA information authorized by this contract for performance of the contract, the contractor/subcontractor may use and disclose VA information only in two other situations: (i) in response to a qualifying order of a court of competent jurisdiction, or (ii) with VA's prior written approval. The contractor/subcontractor must refer all requests for, demands for production of, or inquiries about, VA information and information systems to the VA contracting officer for response.

k. Notwithstanding the provision above, the contractor/subcontractor shall not release VA records protected by Title 38 U.S.C. 5705, confidentiality of medical quality assurance records and/or Title 38 U.S.C. 7332, confidentiality of certain health records pertaining to drug addiction, sickle cell anemia, alcoholism or alcohol abuse, or infection with human immunodeficiency virus. If the contractor/subcontractor is in receipt of a court order or other requests for the above mentioned information, that contractor/subcontractor shall immediately refer such court orders or other requests to the VA contracting officer for response.

l. For service that involves the storage, generating, transmitting, or exchanging of VA sensitive information but does not require C&A or an MOU-ISA for system interconnection, the contractor/subcontractor must complete a Contractor Security Control Assessment (CSCA) on a yearly basis and provide it to the COR.

4. INFORMATION SYSTEM DESIGN AND DEVELOPMENT

a. Information systems that are designed or developed for or on behalf of VA at non-VA facilities shall comply with all VA directives developed in accordance with FISMA, HIPAA, NIST, and related VA security and privacy control requirements for Federal information systems. This includes standards for the protection of electronic PHI, outlined in 45 C.F.R. Part 164, Subpart C, information and system security categorization level designations in accordance with FIPS 199 and FIPS 200 with implementation of all baseline security controls commensurate with the FIPS 199 system security categorization (reference Appendix D of VA Handbook 6500, VA Information Security Program). During the development cycle a Privacy Impact Assessment (PIA) must be completed, provided to the COR, and approved by the VA Privacy Service in accordance with Directive 6507, VA Privacy Impact Assessment.

b. The contractor/subcontractor shall certify to the COR that applications are fully functional and operate correctly as intended on systems using the VA Federal Desktop Core Configuration (FDCC), and the common security configuration guidelines provided by NIST or the VA. This includes Internet Explorer 7 configured to operate on Windows XP and Vista (in Protected Mode on Vista) and future versions, as required.

c. The standard installation, operation, maintenance, updating, and patching of software shall not alter the configuration settings from the VA approved and FDCC configuration. Information technology staff must also use the Windows Installer Service for installation to the default "program files" directory and silently install and uninstall.

d. Applications designed for normal end users shall run in the standard user context without elevated system administration privileges.

e. The security controls must be designed, developed, approved by VA, and implemented in accordance with the provisions of VA security system development life cycle as outlined in NIST Special Publication 800-37, Guide for Applying the Risk Management Framework to Federal Information Systems, VA Handbook 6500, Information Security Program and VA Handbook 6500.5, Incorporating Security and Privacy in System Development Lifecycle.

f. The contractor/subcontractor is required to design, develop, or operate a System of Records Notice (SOR) on individuals to accomplish an agency function subject to the Privacy Act of 1974, (as amended), Public Law 93-579, December 31, 1974 (5 U.S.C. 552a) and applicable agency regulations. Violation of the Privacy Act may involve the imposition of criminal and civil penalties.

g. The contractor/subcontractor agrees to:

(1) Comply with the Privacy Act of 1974 (the Act) and the agency rules and regulations issued under the Act in the design, development, or operation of any system of records on individuals to accomplish an agency function when the contract specifically identifies:

(a) The Systems of Records (SOR); and

(b) The design, development, or operation work that the contractor/ subcontractor is to perform;

(1) Include the Privacy Act notification contained in this contract in every solicitation and resulting subcontract and in every subcontract awarded without a solicitation, when the work statement in the proposed subcontract requires the redesign, development, or operation of a SOR on individuals that is subject to the Privacy Act; and

(2) Include this Privacy Act clause, including this subparagraph (3), in all subcontracts awarded under this contract which requires the design, development, or operation of such a SOR.

h. In the event of violations of the Act, a civil action may be brought against the agency involved when the violation concerns the design, development, or operation of a SOR on individuals to accomplish an agency function, and criminal penalties may be imposed upon the officers or employees of the agency when the violation concerns the operation of a SOR on individuals to accomplish an agency function. For purposes of the Act, when the contract is for the operation of a SOR on individuals to accomplish an agency function, the contractor/subcontractor is considered to be an employee of the agency.

(1) "Operation of a System of Records" means performance of any of the activities associated with maintaining the SOR, including the collection, use, maintenance, and dissemination of records.

(2) "Record" means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, education, financial transactions, medical history, and criminal or employment history and contains the person's name, or identifying number, symbol, or any other identifying particular assigned to the individual, such as a fingerprint or voiceprint, or a photograph.

(3) "System of Records" means a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

i. The vendor shall ensure the security of all procured or developed systems and technologies, including their subcomponents (hereinafter referred to as "Systems"), throughout the life of this contract and any extension, warranty, or maintenance periods. This includes, but is not limited to workarounds, patches, hotfixes, upgrades, and any physical components (hereafter referred to as Security Fixes) which may be necessary to fix all security vulnerabilities published or known to the vendor anywhere in the Systems, including Operating Systems and firmware. The vendor shall ensure that Security Fixes shall not negatively impact the Systems.

j. The vendor shall notify VA within 24 hours of the discovery or disclosure of successful exploits of the vulnerability which can compromise the security of the Systems (including the confidentiality or integrity of its data and operations, or the availability of the system). Such issues shall be remediated as quickly as is practical, but in no event longer than days.

k. When the Security Fixes involve installing third party patches (such as Microsoft OS patches or Adobe Acrobat), the vendor will provide written notice to the VA that the patch has been validated as not affecting the Systems within 10 working days. When the vendor is responsible for operations or maintenance of the Systems, they shall apply the Security Fixes within days.

l. All other vulnerabilities shall be remediated as specified in this paragraph in a timely manner based on risk, but within 60 days of discovery or disclosure. Exceptions to this paragraph (e.g. for the convenience of VA) shall only be granted with approval of the contracting officer and the VA Assistant Secretary for Office of Information and Technology.

5. INFORMATION SYSTEM HOSTING, OPERATION, MAINTENANCE, OR USE

a. For information systems that are hosted, operated, maintained, or used on behalf of VA at non-VA facilities, contractors/subcontractors are fully responsible and accountable for ensuring compliance with all HIPAA, Privacy Act, FISMA, NIST, FIPS, and VA security and privacy directives and handbooks. This includes conducting compliant risk assessments, routine vulnerability scanning, system patching and change management procedures, and the completion of an acceptable contingency plan for each system. The contractor's security control procedures must be equivalent, to those procedures used to secure VA systems. A Privacy Impact Assessment (PIA) must also be provided to the COR and approved by VA Privacy Service prior to operational approval. All external Internet connections to VA's network involving VA information must be reviewed and approved by VA prior to implementation.

b. Adequate security controls for collecting, processing, transmitting, and storing of Personally Identifiable Information (PII), as determined by the VA Privacy Service, must be in place, tested, and approved by VA prior to hosting, operation, maintenance, or use of the information system, or systems by or on behalf of VA. These security controls are to be assessed and stated within the PIA and if these controls are determined not to be in place, or inadequate, a Plan of Action and Milestones (POA&M) must be submitted and approved prior to the collection of PII.

c. Outsourcing (contractor facility, contractor equipment or contractor staff) of systems or network operations, telecommunications services, or other managed services requires certification and accreditation (authorization) (C&A) of the contractor's systems in accordance with VA Handbook 6500.3, Certification and Accreditation and/or the VA OCS Certification Program Office. Government- owned (government facility or government equipment) contractor-operated systems, third party or business partner networks require memorandums of understanding and interconnection agreements (MOU-ISA)

which detail what data types are shared, who has access, and the appropriate level of security controls for all systems connected to VA networks.

d. The contractor/subcontractor's system must adhere to all FISMA, FIPS, and NIST standards related to the annual FISMA security controls assessment and review and update the PIA. Any deficiencies noted during this assessment must be provided to the VA contracting officer and the ISO for entry into VA's POA&M management process. The contractor/subcontractor must use VA's POA&M process to document planned remedial actions to address any deficiencies in information security policies, procedures, and practices, and the completion of those activities. Security deficiencies must be corrected within the timeframes approved by the government. Contractor/subcontractor procedures are subject to periodic, unannounced assessments by VA officials, including the VA Office of Inspector General. The physical security aspects associated with contractor/ subcontractor activities must also be subject to such assessments. If major changes to the system occur that may affect the privacy or security of the data or the system, the C&A of the system may need to be reviewed, retested and re- authorized per VA Handbook 6500.3. This may require reviewing and updating all of the documentation (PIA, System Security Plan, Contingency Plan). The Certification Program Office can provide guidance on whether a new C&A would be necessary.

e. The contractor/subcontractor must conduct an annual self assessment on all systems and outsourced services as required. Both hard copy and electronic copies of the assessment must be provided to the COR. The government reserves the right to conduct such an assessment using government personnel or another contractor/subcontractor. The contractor/subcontractor must take appropriate and timely action (this can be specified in the contract) to correct or mitigate any weaknesses discovered during such testing, generally at no additional cost.

f. VA prohibits the installation and use of personally-owned or contractor/ subcontractor-owned equipment or software on VA's network. If non-VA owned equipment must be used to fulfill the requirements of a contract, it must be stated in the service agreement, SOW or contract. All of the security controls required for government furnished equipment (GFE) must be utilized in approved other equipment (OE) and must be funded by the owner of the equipment. All remote systems must be equipped with, and use, a VA-approved antivirus (AV) software and a personal (host-based or enclave based) firewall that is configured with a VA-approved configuration. Software must be kept current, including all critical updates and patches. Owners of approved OE are responsible for providing and maintaining the anti-viral software and the firewall on the non-VA owned OE.

g. All electronic storage media used on non-VA leased or non-VA owned IT equipment that is used to store, process, or access VA information must be handled in adherence with VA Handbook 6500.1, Electronic Media Sanitization upon: (i) completion or termination of the contract or (ii) disposal or return of the IT equipment by the contractor/subcontractor or any person acting on behalf of the contractor/subcontractor, whichever is earlier. Media (hard drives, optical disks, CDs, back-up tapes, etc.) used by the contractors/ subcontractors that contain VA information must be returned to the VA for sanitization or destruction or the contractor/subcontractor must self-certify that the media has been disposed of per 6500.1 requirements. This must be completed within 30 days of termination of the contract.

h. Bio-Medical devices and other equipment or systems containing media (hard drives, optical disks, etc.) with VA sensitive information must not be returned to the vendor at the end of lease, for trade-in, or other purposes. The options are:

- (1) Vendor must accept the system without the drive;
- (2) VA's initial medical device purchase includes a spare drive which must be installed in place of the original drive at time of turn-in; or
- (3) VA must reimburse the company for media at a reasonable open market replacement cost at time of purchase.
- (4) Due to the highly specialized and sometimes proprietary hardware and software associated with medical equipment/systems, if it is not possible for the VA to retain the hard drive, then;
 - (a) The equipment vendor must have an existing BAA if the device being traded in has sensitive information stored on it and hard drive(s) from the system are being returned physically intact; and
 - (b) Any fixed hard drive on the device must be non-destructively sanitized to the greatest extent possible without negatively impacting system operation. Selective clearing down to patient data folder level is recommended using VA approved and validated overwriting technologies/methods/tools. Applicable media sanitization specifications need to be pre-approved and described in the purchase order or contract.
 - (c) A statement needs to be signed by the Director (System Owner) that states that the drive could not be removed and that (a) and (b) controls above are in place and completed. The ISO needs to maintain the documentation.

6. SECURITY INCIDENT INVESTIGATION

- a. The term "security incident" means an event that has, or could have, resulted in unauthorized access to, loss or damage to VA assets, or sensitive information, or an action that breaches VA security procedures. The contractor/ subcontractor shall immediately notify the COR and simultaneously, the designated ISO and Privacy Officer for the contract of any known or suspected security/privacy incidents, or any unauthorized disclosure of sensitive information, including that contained in system(s) to which the contractor/ subcontractor has access.
- b. To the extent known by the contractor/subcontractor, the contractor/ subcontractor's notice to VA shall identify the information involved, the circumstances surrounding the incident (including to whom, how, when, and where the VA information or assets were placed at risk or compromised), and any other information that the contractor/subcontractor considers relevant.
- c. With respect to unsecured protected health information, the business associate is deemed to have discovered a data breach when the business associate knew or should have known of a breach of such information. Upon discovery, the business associate must notify the covered entity of the breach. Notifications need to be made in accordance with the executed business associate agreement.
- d. In instances of theft or break-in or other criminal activity, the contractor/subcontractor must concurrently report the incident to the appropriate law enforcement entity (or entities) of jurisdiction, including the VA OIG and Security and Law Enforcement. The contractor, its employees, and its subcontractors and their employees shall cooperate with VA and any law enforcement authority responsible for the investigation and prosecution of any possible criminal law violation(s) associated with any incident. The contractor/subcontractor shall cooperate with VA in any civil litigation to recover VA

information, obtain monetary or other compensation from a third party for damages arising from any incident, or obtain injunctive relief against any third party arising from, or related to, the incident.

7. LIQUIDATED DAMAGES FOR DATA BREACH

a. Consistent with the requirements of 38 U.S.C. 5725, a contract may require access to sensitive personal information. If so, the contractor is liable to VA for liquidated damages in the event of a data breach or privacy incident involving any SPI the contractor/subcontractor processes or maintains under this contract.

b. The contractor/subcontractor shall provide notice to VA of a "security incident" as set forth in the Security Incident Investigation section above. Upon such notification, VA must secure from a non-Department entity or the VA Office of Inspector General an independent risk analysis of the data breach to determine the level of risk associated with the data breach for the potential misuse of any sensitive personal information involved in the data breach. The term 'data breach' means the loss, theft, or other unauthorized access, or any access other than that incidental to the scope of employment, to data containing sensitive personal information, in electronic or printed form, that results in the potential compromise of the confidentiality or integrity of the data. Contractor shall fully cooperate with the entity performing the risk analysis. Failure to cooperate may be deemed a material breach and grounds for contract termination.

c. Each risk analysis shall address all relevant information concerning the data breach, including the following:

- (1) Nature of the event (loss, theft, unauthorized access);
- (2) Description of the event, including:
 - (a) date of occurrence;
 - (b) data elements involved, including any PII, such as full name, social security number, date of birth, home address, account number, disability code;
- (3) Number of individuals affected or potentially affected;
- (4) Names of individuals or groups affected or potentially affected;
- (5) Ease of logical data access to the lost, stolen or improperly accessed data in light of the degree of protection for the data, e.g., unencrypted, plain text;
- (6) Amount of time the data has been out of VA control;
- (7) The likelihood that the sensitive personal information will or has been compromised (made accessible to and usable by unauthorized persons);
- (8) Known misuses of data containing sensitive personal information, if any;
- (9) Assessment of the potential harm to the affected individuals;
- (10) Data breach analysis as outlined in 6500.2 Handbook, Management of Security and Privacy Incidents, as appropriate; and

(11) Whether credit protection services may assist record subjects in avoiding or mitigating the results of identity theft based on the sensitive personal information that may have been compromised.

d. Based on the determinations of the independent risk analysis, the contractor shall be responsible for paying to the VA liquidated damages in the amount of per affected individual to cover the cost of providing credit protection services to affected individuals consisting of the following:

- (1) Notification;
- (2) One year of credit monitoring services consisting of automatic daily monitoring of at least 3 relevant credit bureau reports;
- (3) Data breach analysis;
- (4) Fraud resolution services, including writing dispute letters, initiating fraud alerts and credit freezes, to assist affected individuals to bring matters to resolution;
- (5) One year of identity theft insurance with \$20,000.00 coverage at \$0 deductible; and
- (6) Necessary legal expenses the subjects may incur to repair falsified or damaged credit records, histories, or financial affairs.

8. SECURITY CONTROLS COMPLIANCE TESTING

On a periodic basis, VA, including the Office of Inspector General, reserves the right to evaluate any or all of the security controls and privacy practices implemented by the contractor under the clauses contained within the contract. SECTION C - CONTRACT CLAUSES

ADDENDUM to FAR 52.212-4 CONTRACT TERMS AND CONDITIONS—COMMERCIAL ITEMS

Clauses that are incorporated by reference (by Citation Number, Title, and Date), have the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available.

The following clauses are incorporated into 52.212-4 as an addendum to this contract:

C.1 52.203-3 GRATUITIES (APR 1984)

(a) The right of the Contractor to proceed may be terminated by written notice if, after notice and hearing, the agency head or a designee determines that the Contractor, its agent, or another representative—

(1) Offered or gave a gratuity (e.g., an entertainment or gift) to an officer, official, or employee of the Government; and

(2) Intended, by the gratuity, to obtain a contract or favorable treatment under a contract.

(b) The facts supporting this determination may be reviewed by any court having lawful jurisdiction.

(c) If this contract is terminated under paragraph (a) above, the Government is entitled—

(1) To pursue the same remedies as in a breach of the contract; and

(2) In addition to any other damages provided by law, to exemplary damages of not less than 3 nor more than 10 times the cost incurred by the Contractor in giving gratuities to the person concerned, as determined by the agency head or a designee. (This subparagraph (c)(2) is applicable only if this contract uses money appropriated to the Department of Defense.)

(d) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

(End of Clause)

C.2 52.216-18 ORDERING (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from the effective date of the contract through the end of the effective period.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of Clause)

C.3 52.216-19 ORDER LIMITATIONS (OCT 1995)

(a) *Minimum order.* When the Government requires supplies or services covered by this contract in an amount of less than \$50.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) *Maximum order.* The Contractor is not obligated to honor—

- (1) Any order for a single item in excess of the quantities of base year; \$100,000.;;
- (2) Any order for a combination of items in excess of base and all option years; \$100,000.; or
- (3) A series of orders from the same ordering office within 30 days that together call for quantities exceeding the limitation in paragraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 5 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of Clause)

C.4 52.216-22 INDEFINITE QUANTITY (OCT 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; *provided*, that the Contractor shall not be required to make any deliveries under this contract after the end of the effective period.

(End of Clause)

C.5 52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within 30 days.

(End of Clause)

C.6 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within 30 days; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 60 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed five (5) years.

(End of Clause)

C.7 VAAR 852.203-70 COMMERCIAL ADVERTISING (JAN 2008)

The bidder or offeror agrees that if a contract is awarded to him/her, as a result of this solicitation, he/she will not advertise the award of the contract in his/her commercial advertising in such a manner as to state or imply that the Department of Veterans Affairs endorses a product, project or commercial line of endeavor.

(End of Clause)

C.8 VAAR 852.203-71 DISPLAY OF DEPARTMENT OF VETERAN AFFAIRS HOTLINE POSTER (DEC 1992)

(a) Except as provided in paragraph (c) below, the Contractor shall display prominently, in common work areas within business segments performing work under VA contracts, Department of Veterans Affairs Hotline posters prepared by the VA Office of Inspector General.

(c) The Contractor need not comply with paragraph (a) above if the Contractor has established a mechanism, such as a hotline, by which employees may report suspected instances of improper conduct, and instructions that encourage employees to make such reports.

(End of Clause)

C.9 VAAR 852.215-71 EVALUATION FACTOR COMMITMENTS (DEC 2009)

The offeror agrees, if awarded a contract, to use the service-disabled veteran-owned small businesses or veteran-owned small businesses proposed as subcontractors in accordance with 852.215-70, Service-Disabled Veteran-Owned and Veteran-Owned Small Business Evaluation Factors, or to substitute one or more service-disabled veteran-owned small businesses or veteran-owned small businesses for subcontract work of the same or similar value.

(End of Clause)

(c) *Data transmission.* A contractor must ensure that the data transmission method and format are through one of the following:

(1) VA's Electronic Invoice Presentment and Payment System. (See Web site at <http://www.fsc.va.gov/einvoice.asp>.)

- (3) Contracts awarded by contracting officers in the conduct of emergency operations, such as responses to national emergencies;

C.11 VAAR 852.237-7 INDEMNIFICATION AND MEDICAL LIABILITY INSURANCE (JAN 2008)

(a) It is expressly agreed and understood that this is a non- personal services contract, as defined in Federal Acquisition Regulation (FAR) 37.101, under which the professional services rendered by the Contractor or its health-care providers are rendered in its capacity as an independent contractor. The Government may evaluate the quality of professional and administrative services provided but retains no control over professional aspects of the services rendered, including by example, the Contractor's or its health-care providers' professional medical judgment, diagnosis, or specific medical treatments. The Contractor and its health-care providers shall be liable for their liability-producing acts or omissions. The Contractor shall maintain or require all health-care providers performing under this contract to maintain, during the term of this contract, professional liability insurance issued by a responsible insurance carrier of not less than the following amount(s) per specialty per occurrence: \$1,000,000. However, if the Contractor is an entity or a subdivision of a State that either provides for self-insurance or limits the liability or the amount of insurance purchased by State entities, then the insurance requirement of this contract shall be fulfilled by incorporating the provisions of the applicable State law.

(b) An apparently successful offeror, upon request of the Contracting Officer, shall, prior to contract award, furnish evidence of the insurability of the offeror and/or of all health- care providers who will perform under this contract. The submission shall provide evidence of insurability concerning the medical liability insurance required by paragraph (a) of this clause or the provisions of State law as to self-insurance, or limitations on liability or insurance.

(c) The Contractor shall, prior to commencement of services under the contract, provide to the Contracting Officer Certificates of Insurance or insurance policies evidencing the required insurance coverage and an endorsement stating that any cancellation or material change adversely affecting the Government's interest shall not be effective until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer. Certificates or policies shall be provided for the Contractor and/or each health- care provider who will perform under this contract.

(d) The Contractor shall notify the Contracting Officer if it, or any of the health-care providers performing under this contract, change insurance providers during the performance period of this contract. The notification shall provide evidence that the Contractor and/or health-care providers will meet all the requirements of this clause, including those concerning liability insurance and endorsements. These requirements may be met either under the new policy, or a combination of old and new policies, if applicable.

(e) The Contractor shall insert the substance of this clause, including this paragraph (e), in all subcontracts for health-care services under this contract. The Contractor shall be responsible for compliance by any subcontractor or lower-tier subcontractor with the provisions set forth in paragraph (a) of this clause.

He/she shall be responsible for any injury to himself/herself, his/her employees, as well as for any damage to personal or public property that occurs during the performance of this contract that is caused by his/her employees fault or negligence, and shall maintain personal liability and property damage insurance having coverage for a limit as required by the laws of the States of North Carolina, West Virginia and Virginia. Further, it is agreed that any negligence of the Government, its officers, agents, servants and employees, shall not be the responsibility of the contractor hereunder with the regard to any claims, loss, damage, injury, and liability resulting there from.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

Rather, the QASP is created with the premise that the Contractor is responsible for management and quality control actions to meet the terms of the contract. It is the Government's responsibility to be objective, fair, and consistent in evaluating performance.

This QASP is a "living document" and the Government may review and revise it on a regular basis. However, the Government shall coordinate changes with the Contractor. - c. **Surveillance Reporting** - The method of surveillance listed in the performance matrix shall be used by the COR in the technical administration of the QMP. The COR shall be responsible to develop, control and disseminate any forms necessary to effect the quality monitoring program. If required, the contractor shall obtain the necessary form prior to any issuance of orders and provide all reports as requested throughout the life of the agreement. Forms may be standard or customized based on the needs of the Government and may be subject to change during the performance period.

4. **Documentation**

In addition to providing quarterly reports to the Contracting Officer, the COR will maintain a complete Quality Assurance file. The file will contain copies of all reports, evaluations, recommendations, and any actions related to the Government's performance of the quality assurance function, including the originals of the Quality Assurance Checklists. All such records will be maintained for the life of the agreement. The COR shall forward these records to the Contracting Officer at termination or completion of the agreement.

All deliverables shall meet the following QASP performance standards to the acceptable quality level. The Government shall perform surveillance to determine if the Contractor meets or does not meet these standards.

Nonconformance's identified by the COR during the quality assurance surveillance process will be documented and forwarded to the CO for action. Non-conformance's will be categorized as critical, major or minor. The CO may issue a nonconformance report to the Contractor.

If non-conformances are found, it is the responsibility of the Contractor to make all necessary corrections as required by the Contracting Officer. The CO will determine when the nonconformance has been resolved. If requested by the CO, the COR, specializing in quality monitoring will verify that corrective action has been successfully taken.
