

Department of Veterans Affairs (VA) Technology Acquisition Center (TAC) is seeking information concerning the availability of capable contractors to provide software, maintenance, and technical support for the VA Fee Basis Claims System (FBCS). FBCS is in use within 128 VA Fee offices. FBCS allows Fee Claims processing departments to manage and process Fee claims in an electronic environment, which improves the ability to keep track of claims in process and to identify duplicate and non-compliant claims. In addition, this product improves the ability to report on Fee expenditures and improves accuracy and consistency of Fee authorizations. FBCS provides the ability to monitor individual and department productivity. It allows VA to communicate efficiently with the vendors and Veterans about the adjudication status of their claims by providing a complete audit trail for each claim.

The existing VA FBCS is provided by Document Storage Systems, Inc. VA is seeking sources capable of maintaining of renewing and maintaining the existing annual licenses OR implementing, training, testing, and deploying a software system with identical capabilities of the existing software system by November 30, 2016 in a way that is economically feasible to VA. The objective of this procurement will be to procure the FBCS or equivalent solution for VHA sites that are currently using claims processing software. the current FBCS at VHA sites that are currently using claims processing software. This is a continuation of production of a major system. This procurement will be an interim solution until the process the VA is using to out-source all Non-VA Care Claims processing in the future is completed; the anticipated completion date is in early calendar year 2020. If proposing a competitive software capability, the contractor must demonstrate that its proposed system would not result in substantial duplication of system upstart costs, including, training, testing, installation, and deployment, which would not be recovered.

This is a request for information only. Do not submit a proposal or quote. There is no obligation on the part of the Government to acquire any products or services described in this RFI. Your response to this RFI will be treated only as information for the Government to consider. You will not be entitled to payment for direct or indirect costs that you incur in responding to this RFI. This request does not constitute a solicitation for proposals or the authority to enter into negotiations to award a contract. No funds have been authorized, appropriated or received for this effort. Interested parties are responsible for adequately marking proprietary, restricted or competition sensitive information contained in their response. The Government does not intend to pay for the information submitted in response to this RFI.

If interested, please provide the following:

1. A capabilities statement (15 page limit) by Wednesday, May 4, 2016. If additional information is required by VA to determine a contractor's capability to provide the full requirement and the economic feasibility of the information provided, additional information, to include a possible vendor demonstration, may be requested later. Do not provide any proprietary information, as any contractor questions and corresponding Government answers will be made available to all interested parties. Please note

questions may not be directly answered at this time, but may be addressed in any future correspondence. A draft version of the requirement is below. The contract for the current software expires on November 30, 2016.

2. Any Contract Vehicle of which you are a part that can be used to acquire your solution as well as the company business size and status for each vehicle as designated by the NAICS 541519 and the U.S. Small Business Administration (i.e., Large Business, Small Business, Service-Disabled Veteran Owned Small Business, Small Disadvantaged Business, Women-Owned Small Business, Hub Zone Small Business, etc.)

DRAFT PERFORMANCE WORK STATEMENT

1.0 SOFTWARE LICENSE, MAINTENANCE AND SUPPORT REQUIREMENTS

The Contractor shall provide renewal of the existing 128 FBCS licenses identified in Attachment maintenance, and support of Purchased Care claims management and adjudication. FBCS software includes the following functionality:

- A. Referral Management
- B. Claims Processing
- C. Document Management
- D. Appeals Management
- E. Financial Management
- F. Correspondence
- G. Revenue Management
- H. Reporting
- I. Interfaces
- J. User Management
- K. Work Management

Definitions:

- A. Licensee. The term “licensee” shall mean the U.S. Department of Veterans Affairs (“VA”) and is synonymous with “Government.”
- B. Licensor. The term “licensor” shall mean the software manufacturer of the computer software being acquired. The term “Contractor” is the company identified in Block 17a on the SF1449.
- C. Software. The term “software” shall mean the licensed computer software product(s) cited in the Schedule of Supplies / Services. (SF1449, Block 20).
- D. Release or Update. The term “release” or “update” are terms that refer to a revision of software that contains defect corrections, minor enhancements or improvements of the software’s functionality. This is usually designated by a change in the number to the right of the decimal point (e.g., from Version 5.3 to 5.4). An example of an update is the addition of new hardware.

- E. Version or Upgrade. The term “version” or “upgrade” are terms that refer to a revision of software that contains new or improved functionality. This is usually designated by a change in the number to the left of the decimal point (e.g., from Version 5.4 to 6).

1.1 LICENSE AND GRANT OF LICENSE

- A. The Contractor shall deliver the annual FBCS site licenses and software renewal to VA within five business days after contract award. The software license provided to the Government under this Contract is an irrevocable, nonexclusive license to use the software.
- B. If the licensed software requires a password (or license key) to be operational, it shall be delivered with the software media and have no expiration date.
- C. If the Government decides to outsource or contract its services, the Government may allow the outsourcer to use the licensed software solely to provide the services on its behalf. The outsourcer shall be bound by the provisions of this Contract relating to the use of the software.
- D. VA may use the software in a networked environment.
- E. Any dispute regarding the license grant or usage limitations shall be resolved in accordance with the Disputes Clause incorporated in FAR 52.212-4(d).
- F. If for any reason the Contractor is unable to complete performance under this Contract or, if following the completion of this Contract, the Contractor ceases to provide support for any software described in this Contract, the Contractor agrees to provide to Government any proprietary software or documentation that is relevant to the work performed under this Contract. This provision applies to any data that would be necessary for the maintenance and continued development of any automated information systems, including at a minimum: system source and object codes, supporting system software and all relevant documentation and source listings. This data shall be provided to the Government at no additional cost within thirty (30) calendar days following work stoppage.
- G. VA has the right to move and use the software to any VA location at no additional licensing cost.
- H. The Contractor shall deliver all source code and data developed by Contractor under this Contract to VA upon request at no additional cost to the Government.
- J. The Contractor shall deliver FBCS technical documentation in electronic format to include:
 - 1. system configuration documentation
 - 2. technical manuals
 - 3. installation guides
- K. All software licensed, under both the original Contract and this Amendment, is Proprietary Restricted computer software. It was developed at private expense and is copyrighted, including minor

modifications of the computer software; all rights reserved, and is licensed only for use in connection with this effort. However, VA shall have unlimited rights in any and all data first produced at Government expense by DSS under this Contract or any previous contract or order in accordance with FAR 52.227-14.

Deliverables:

- A. FBCS site licenses
- B. FBCS technical documentation

1.2 FBCS SOFTWARE MAINTENANCE AND TECHNICAL SUPPORT

The Contractor shall provide software maintenance and technical support services, which include periodic updates, enhancements and corrections to the software. Maintenance and support includes software bug fixes; telephone and e-mail support of the FBCS product; and interfaces, both non-VistA interfaces and those supported by VA Interface Control Registrations (ICRs). See list in Attachment B. It is estimated that there will be 3 enhancements patches/periodic updates and 2 Maintenance Release per annum. VA will notify the Contractor as soon as changes affecting an interface are approved. The Contractor shall coordinate with the COR any changes to their software that might impact VA systems.

The Contractor shall provide computer software that does not contain any code that will, upon the occurrence or the nonoccurrence of any event, disable the software. Such code includes at a minimum a computer virus, restrictive key, node lock, time-out or other function, whether implemented by electronic, mechanical, or other means, which limits or hinders the use or access to any computer software based on residency on a specific hardware configuration, frequency of duration or use, or other limiting criteria. If any such code is present, the Contractor shall indemnify the Government for all damages suffered as a result of a disabling caused by such code, and the Contractor shall remove such code upon the Government's request at no extra cost to the Government. Inability of the Contractor to remove the disabling software code shall be considered an inexcusable delay and a material breach of the Contract and the Government may exercise its right to terminate for cause. In addition, the Government is permitted to remove the code as it deems appropriate and charge the Contractor for consideration for the time and effort in removing the code.

1.3 HELP DESK SUPPORT

The Contractor shall provide help desk support to the FBCS application. The Contractor shall operate a help desk and provide help desk staffing located in Contractor facilities. Average number of Help desk tickets over the last 6 months have been 240-300 per month. The Contractor shall provide:

1. Support for all hours of operation (8:00 a.m. to 7:30 p.m. Eastern Standard Time (EST), Monday through Friday (excluding Federal Holidays) and after hours emergency coverage as required.
2. On-call support for emergencies such as application unavailability due to software bugs, software patches, and software updates.

The Contractor shall provide application support to resolve FBCS user questions, issues, and problems. Documentation supporting all issues shall be maintained in the Help Desk ticket tracking tool (VA's incident management systems).

The Help Desk shall provide notification to the COR of issues impacting more than one site or impacting any single site for longer than one business day.

The Contractor shall use VA's incident management systems for reporting of trouble tickets by VA users. The Contractor shall document problem resolution so that the VA solutions database can be updated. The Contractor shall provide:

A. Email Support:

1. The Contractor shall provide a Help Desk email mailbox for reporting problems by electronic mail.
2. The Contractor shall monitor the FBCS Help Desk email account and respond via email or telephone, as appropriate, based on the priority of the ticket.
3. For all tickets, the Contractor shall send the user an automated email notification of the ticket number and priority.

B. Telephone Support

1. Calls shall be answered within 30 seconds.
2. For all tickets, the Contractor shall send an e-mail to the user notifying the user of the ticket number and priority.
3. The Help Desk shall generate or update a ticket for each call incident.
4. Callers shall have the option to leave a voice mail. Voice mail messages received during duty hours must be responded to within 30 minutes.
5. Voice mail messages received after duty hours shall be answered by 8:30 AM EST the next work day.

C. Ticket Priorities

1. Critical (Emergency) Priority – user is experiencing fatal system error, loss of data or a system outage is occurring impacting multiple sites. Immediate within 2 hours, notification to the COR is required for any critical priority.
2. High Priority – system issue causing improper payment. High priority tickets require notification to the COR within one business day
3. Medium Priority – user is experiencing inability to perform specific functionality but not experiencing fatal error or loss of data.
4. Low Priority – user has normal inquiries for changes in configuration or questions on how to perform specific system functions.

D. Resolution Time to Ticket Priorities

1. Critical (Emergency) Priority Resolution –The request shall be resolved within 2 hours. If the issue has not been resolved after 2 hours, then the Contractor shall provide hourly progress reporting to VA.

The Contractor shall provide a Bi-weekly Help Desk Activity Report to the COR with a copy to the VA PM. The report shall be submitted via email and is due with the Bi-Weekly Progress Reports. Highlights of this report will be discussed at the weekly status meeting. This report shall contain the following information for both telephone and email support:

- A. Period covered by report
- B. Call volume statistics
- C. Statistics on average wait times for initial responses
- D. Documentation of unresolved requests
- E. Documentation of Frequently Asked Questions
- F. Lessons learned

The Contractor shall create an incident ticket for any issue that is not immediately resolved. The Contractor shall provide a Bi-weekly Incident Ticket Report containing a synopsis of all tickets open longer than 30 days. The report shall be submitted via email and is due with the Bi-Weekly Progress Reports. Highlights of this report will be discussed at the weekly status meeting. This report shall contain the following information:

- A. Period covered by report
- B. Ticket priority (Critical, High, Medium, Low)
- C. Date received
- D. Facility
- E. Ticket number
- F. Summary of issue
- G. Current status
- H. Anticipated resolution date

1.4 TRAINING AND DOCUMENTATION

1.4.1 TRAINING

The Contractor shall provide training within 30 days of implementation of new releases when enhanced functionality is introduced; this training may be provided via distance learning and shall be coordinated with the COR.

1.4.2 TRAINING DOCUMENTATION

All user documentation listed below shall be delivered to VA within 30 days of implementation of any modifications to the software and shall be provided in electronic format (either Word or pdf).

Training materials shall include:

- A. student and trainer guides
- B. user manuals
- C. quick reference sheets.

Deliverable:

- A. Updated Training Materials

1.5 TESTING AND RELEASE

The Contractor shall follow OI&T testing and release processes for FBCS. Any alternate testing processes must be approved in writing by the COR prior to implementation. The Contractor shall perform regression testing as operating systems or hardware is upgraded. As aging hardware is refreshed, the Contractor shall install and/or regression test the FBCS application.

Deliverables shall include an updated master test plan for interfaces and a test analysis results report.

Deliverables:

- A. Updated Master Test Plan
- B. Test Analysis Results Report
