Ft. Snelling National Cemetery - Construction Circulation

- Site Access**
- Construction traffic to use Post Road entrance gate only.
 - Construction traffic to follow gravel access to southerly cemetery road to project site for all deliveries and exporting.
 - Construction vehicle parking limited to work zones only. No parking on cemetery roads beyond 150 feet from project site.
 - Maintain open access to all parts of cemetery at all times. Schedule limited road closures for utility work with Cemetery Director.
 - Maintain all roads in clean condition. Ongoing street sweeping shall be employed.
- Stockpiles**
- Stage materials and products in "Contractor Remote Staging Area" northeast of cemetery maintenance building.
 - Do NOT stage material or drive on any area of Crypt Section 11A or Section 9B adjacent to project site.
- Deliveries**
- Contractor to coordinate material delivery to avoid construction noise during committal ceremonies at Committal Shelter No. 1 north of project.
- Temporary Tree Relocation**
- All trees not immediately ready for permanent relocation shall be temporarily relocated at the direction of the Cemetery or MSN IV Agronomist.
- Project Signs**
- Confirm exact location for construction safety sign with cemetery director/COTR./RE
