

## **VA Community Contract Emergency Housing Program Guidance for Participation in Homeless Management Information Systems (HMIS) May 2011**

In order to comprehensively understand homelessness among veterans and the effectiveness of VA-funded strategies to end veteran homelessness, the VA is implementing a new approach to collect information electronically from the VA and community-based organizations about homeless veterans and the services veterans receive. The new data collection approach focuses on data from homeless programs funded by the VA, but will ultimately provide stronger data about even those homeless veterans who do not seek assistance from the VA or VA-funded programs. Further, the VA strategy will improve information on veteran homelessness at the community-level, which is intended to facilitate closer coordination of VA-funded and non-VA homeless programs and improve community planning around veteran homelessness.

**VA expects VA Community Contract programs to begin participation in their local HMIS by September 30, 2011.** The data collection for VA Community Contract programs should include the Universal Data Elements from the 2010 HMIS Data Standards<sup>1</sup>. Individual VA Community Contract programs may wish to enter additional data elements, such as Program Specific Data Elements or optional Veteran data elements, but anything beyond the Universal Data Elements is optional and can be decided locally among the VA Community Contract provider and HMIS staff.

Homeless Management Information Systems (HMIS) are electronic repositories of client-level information collected over time about persons who experience homelessness within each community across the country. Each separate Continuum of Care (CoC) is affiliated with an HMIS project. Data collected in HMIS are typically entered by the homeless providers who provide shelter, housing, and other services to persons to help prevent or address homelessness; thus, HMIS are community data partnerships, frequently managed by the local CoC identified as the lead homeless planning body by the U.S. Department of Housing and Urban Development (HUD).

HMIS are designed to facilitate case management, data collection, and performance assessment for local continuums and federal agencies. HMIS has been adopted by the VA and HUD as the official client data collection and management system for homeless providers to use to collect client-level data from persons who are homeless. HMIS is also a federal response to Congressional Directive to measure the extent and nature of homelessness and assess the effectiveness of homeless programs.

The existing HMIS not only have funding and management structures already in place, but they have also been built upon federally-defined HMIS Data and Technical Standards which are closely aligned with the VA's homeless data collection needs. These HMIS standards ensure that HMIS implementations throughout the country meet baseline privacy, security, and functional requirements and that all systems consistently collect the data elements that the federal government has determined are necessary to understand homelessness and measure the effectiveness of homeless programs.

---

<sup>1</sup> 2010 Homeless Management Information System (HMIS) Data Standards.

In addition to the HMIS PowerPoint Training from January 2011 and May 2011, VA funded community providers may find the following resources useful as they start the HMIS process.

- VA HMIS Resource Guide
- VA HMIS Universal Data Collection Training Guide
- VA HMIS Universal Intake Template
- VA HMIS Universal Exit Template
- VA HMIS Program Specific Data Collection Training Guide
- VA HMIS Program Specific Intake Template
- VA HMIS Program Specific Exit Template

These above resources and future announcements about HMIS participation requirements and implementation timelines as can be found at the VA's homeless webpage. Updates and resource materials regarding HMIS participation for VA-funded programs are also listed.

**DEPARTMENT OF  
VETERANS AFFAIRS**

**Memorandum**

Date: JUL 15 2011

From: Deputy Under Secretary for Health for Operations and Management (10N)

Subj: Homeless Program Reporting Requirements

To Network Directors (10N1-23)  
VISN Chief Medical Officers (10N1-23)

1. In a memorandum from my office (Attachment A) dated December 21, 2010, titled "VA Participation in the Homeless Management Information System (HMIS)"; VISNs were informed that VA was embarking on a plan to fully participate in the Department of Housing and Urban Development's (HUD) HMIS over the next 12 months. HMIS is a Web-based software application that records and stores client level information, serving the needs of individuals who experience homelessness, and assisting communities to coordinate care and manage operations. This effort is a critical component of the performance and management plan contained in VA's plan to Prevent and End Homelessness among Veterans.
2. VA's Homeless Operations Management and Evaluation System (HOMES) is a component that will link with HMIS. HOMES is a patient information system used by VA staff delivering specialized homeless services to Veterans seen at VA. HOMES became operational on April 20, 2011. The intent is to have VA's HOMES fully link with HUD's HMIS system so Veteran-level data can be accurately captured.
3. To ensure full HOMES and HMIS participation, it is necessary that the following steps are taken:
  - a. All VA staff assigned to a specialized homeless program must enter data into HOMES. Starting July 1, 2011, monthly reports on VISN and VA Medical Center (VAMC) compliance with HOMES data entry requirements were issued by the National Homeless Program Office. If VISNs have deficiencies in HOMES reporting, they will be required to submit monthly corrective action reports to the National Homeless Program Office.
  - b. VAMCs must ensure that all programs with a primary mission of serving homeless Veterans are included in their community's Continuum of Care (CoC) Housing Inventory Count (HIC). For guidance concerning programs that must be included in the HIC, HMIS data entry responsibility, and proper coding classification, please reference Attachment B.
  - c. To assist you in coordinating this effort, Attachment A provides a list of local CoC HMIS points of contact (POCs). This information is also

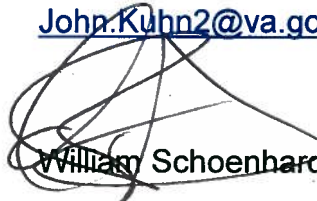

Subj: Homeless Program Reporting Requirements

available and updated on HUD's Homelessness Resource Exchange (HRE) at [www.hudhre.info](http://www.hudhre.info). The homeless coordinator or designee should work with the local HMIS POCs to ensure local HIC information is accurate.

4. VA grant and contract providers must enter data directly into HMIS. Grant and Per Diem providers began doing so on April 1, 2011. It is now necessary for Health Care for Homeless Veterans (HCHV) residential contract and emergency housing providers to also enter data directly into HMIS. To facilitate compliance with this memorandum, VISNs must direct their contract officers to modify existing contracts, or when issuing new contracts, require that contracts include the following text:

*Veterans served through VA's HCHV residential contract/emergency housing program must have client level data entered into the local community Continuum of Care's (CoC) HMIS. Data entered must include, at a minimum, the Universal Data Elements from the 2010 HMIS Data Standards.*

5. If you have additional questions or concerns regarding participation in VA's HOMES, HUD's HMIS, or HIC, please contact John Kuhn, Director, Evaluation and Instrument Development at (908) 647-0180 extension 4066 or [John.Kuhn2@va.gov](mailto:John.Kuhn2@va.gov).

  
William Schoenhard, FACHE

**Department of  
Veterans Affairs**

**Memorandum**

**Date: DEC 21 2010**

**From: Deputy Under Secretary for Health for Operations and Management (10N)**

**Subj: VA Participation in the Homeless Management Information System (HMIS)**

**To: Network Directors (10N1 – 23)  
VISN Chief Medical Officers (10N1-23)**

1. In 2009, Secretary Shinseki unveiled a 5-year plan to prevent and end homelessness among Veterans. In June 2010, Opening Doors, the Federal Strategic Plan to Prevent and End Homelessness, was also announced to end Veteran homelessness in 5 years. Both plans require accurate and timely data regarding the prevalence of homelessness among Veterans and other key demographics.

2. The United States Interagency Council on Homelessness (USICH) is finalizing a performance management plan that will monitor and report the progress of all Federal partners and communities in achieving the goal of zero homelessness among Veterans by the end of fiscal year 2014. A critical component of the performance and management plan is the use of the local Homeless Management Information System (HMIS) to collect and report data.

3. HMIS is a web based software application that records and stores both program and client information at the local continuum of care level. A Continuum of Care (CoC) is a regional or local planning body that coordinates housing and services funding for homeless families and individuals. Each CoC selects and implements an approved HMIS software product to store and report their data to the Department of Housing and Urban Development (HUD). HUD currently uses HMIS to understand patterns of homelessness, to produce unduplicated counts of homelessness, and to evaluate the effectiveness of homeless programs.

4. HMIS has been implemented in 450 CoCs to collect data, report on trends, service utilization and performance being provided to homeless individuals and families. CoC provider's participation in HMIS is required in order to receive HUD funding, except when prohibited by law such as the Violence Against Women Reauthorization Act. Data from the HMIS is aggregated and provided to Congress in the Annual Homeless Assessment Report (AHAR) as well as the Quarterly Homelessness Pulse Report. The VA, the Department of Labor and the Department of Health and Human Services are all being asked to consider HMIS as the single point of data collection in each community.

5. Over the next 12 months, VA plans to fully participate in HMIS. As an initial first step to using HMIS as the data collection system, the National Homeless and Residential Rehabilitation and Treatment program office is requesting your assistance by requiring your local community partners, including Grant and Per Diem Providers, to begin entering client level data into the CoC's HMIS as soon as possible, but no later than March 31, 2011.

6. To assist you in coordinating this effort, Attachment A contains a list of local CoC HMIS points of contact (POC). This information is also available and updated on HUD's Homelessness Resource Exchange (HRE) at [www.hudhre.info](http://www.hudhre.info). We ask that your homeless coordinator, as well as your Grant and Per Diem partners, contact the CoC HMIS POC as soon as possible to determine what steps are necessary to begin participating in the HMIS.

7. Additionally, the program office has arranged for a series of teleconferences for both VA homeless program staff and community agencies to learn more about HMIS and how to enter data into HMIS. A Live Meeting for VA staff is scheduled for January 21, 2011 at 2:00 pm EST and a meeting with community providers is scheduled for January 28, 2011 at 2:00 pm EST. Staff and community agencies can access the call at 1-800-767-1750 access code 21675. A PowerPoint regarding HMIS will be posted on the VA homeless web page and can be accessed by going to [www1.va.gov/homeless/](http://www1.va.gov/homeless/).

8. Additional information on HMIS implementation can be found at HUD's HMIS website at [www.hmis.info](http://www.hmis.info). Updated information regarding VA's strategy to fully participate in HMIS and how HMIS ties in to the VA Homeless Registry will be made available later this fiscal year.

9. If you have additional questions or concerns regarding participation in HMIS please contact Vince Kane at [Vincent.Kane@va.gov](mailto:Vincent.Kane@va.gov).

William Schoenhard, FACHE

## Attachment B

VA Program	Guidance for Program Name in 2011 HIC	Guidance for Program Type Code in HMIS	HMIS Participation Allowable
<b>Grant and Per Diem (GPD)</b>	GPD-[Program Name]	Transitional Housing (TH)	Yes. Community Providers
<b>HUD VASH</b>	VASH-[Program Name]	Permanent Supportive Housing (PSH)	Yes. PHAs and community-based providers but NOT VA staff
<b>Supportive Service for Veterans Families (SSVF)</b>		Homelessness Prevention and Rapid Re-housing. Under Program name use the SSVF prefix to allow for the distinction from HPRP.	Yes. Community Providers
<b>Health Care for Homeless Veterans (HCHV) - VA Community Contract Emergency Housing</b>	HCHVEH-[Program Name]	Emergency Shelter (ES)	Yes. Community Providers
<b>Health Care for Homeless Veterans (HCHV) - VA Community Contract Residential Treatment Program</b>	HCHVRT-[Program Name]	Emergency Shelter (ES)	Yes. Community Providers
<b>Health Care for Homeless Veterans (HCHV) - VA Community Contract Safe Haven Program</b>	HCHVSH-[Program Name]	Safe Haven (SH)	Yes. Community Providers
<b>Mental Health Residential Rehabilitation Treatment Programs (MH RRTP)- Domiciliary Care for Homeless Veterans (DCHV)*</b>	VADOM-[Program Name]	Emergency Shelter (ES) in FY 2011; treat as Transitional Housing (TH) beginning FY 2012	No. VA staff use VA HOMES system
<b>Compensated Work Therapy (CWT)-Transitional Residence (TR)</b>	CWTTR-[Program Name]	Transitional Housing (TH)	No. VA staff use VA HOMES system
<b>Veteran Homelessness Prevention Demonstration Program (VHPD)</b>		Homelessness Prevention and Rapid Re-housing. Under Program name use the VHPD prefix to allow for the distinction from HPRP.	Yes. Community Providers

\*Mental Health Residential Rehabilitation Treatment Programs (MH RRTP) provide residential rehabilitation and clinical care to eligible Veterans, who have a wide range of rehabilitative care needs. One type of MH RRTP program is Domiciliary Care for Homeless Veterans (DCHV). DCHV program beds should be included in the HIC, since such beds are dedicated exclusively for Veterans who are homeless. Other types of MH RRTP program beds should not be included in the HIC, unless such programs exclusively dedicate beds to Veterans, who are homeless. In such cases, only the beds dedicated to Veterans, who are homeless should be included in the HIC.
