

Statement of Work

Install Building 520 Entrance Sliding Door

1. TITLE

Install Building 520 Entrance Sliding Door

2. GENERAL

VA Palo Alto Health Care System (VAPAHCS) Palo Alto Division Building 520 presently has a side entrance door that does not have an automatic door opener that provides easy access to persons with disabilities and patients in their wheelchairs. The solution for this is to install an automatic sliding glass door with a motion sensor to provide hands free access going in and out of the building.

3. OBJECTIVE

A new automatic sliding glass door with motion sensor will be installed at Building 520 side entrance at VA Palo Alto Division, 3801 Miranda Avenue, Palo Alto, California 94304. The selected contractor shall provide all labor, equipment and materials for the installation of the sliding door including all electrical work.

4. SPECIFIC TASKS and DELIVERABLES

The following tasks shall be considered during consultation with VAPAHCS staff:

- a. The contractor shall provide an automatic sliding glass door with motion sensor to replace the existing glass door approx. 8ft. H x 8.5ft in W. It should be designed to offer continuous use, a high degree of safety and maximum lifetime. Note: The numbers included here are estimates and shall be the responsibility of the contractor to verify, prior to pricing and fabrication.
- b. The contractor shall provide all material and labor to complete the installation including all electrical work, the removal of the existing door that will be replaced, debris and miscellaneous items.
- c. All materials, specification and installation should be ADA compliant.
- d. See General Specifications for Sliding Aluminum-Framed Glass Door attached.
- e. See General Specifications for Automatic Door Operator attached.
