

**INSTRUCTIONS TO OFFERORS
REQUEST FOR QUOTATION (RFQ) VA797R-16-Q-0016**

Failure to comply with the following instructions may result in the vendor's offer being determined non-responsive and may not be considered for award.

0.0 Revisions

- 0.1 Please see section 4.4 for updated requirements for VA Directive 6550.
- 0.2 Please see section 5.3.3 for updated requirements for vendor response submission.
- 0.3 Please note that all systems quoted must run on supported operating systems.

Failure to follow these updated requirements may disqualify your offer from consideration.

1.0 General Information

- 1.1 This Request For Quotation (RFQ) is only open to companies that have a current contract for the equipment types listed herein with the VA National Acquisition Center, High Tech Medical Equipment Branch or with the Defense Logistics Agency, Troop Support (DLA-TS, formerly DSCP) under which the VA National Acquisition Center has been given ordering authority.
- 1.2 Please note that those vendors who are not on contract on the day offers are due will have their responses rejected and returned without consideration per the instructions given.
- 1.3 The items offered in vendors' responses to this RFQ must be on their current contract by the offer response due date. New systems that are not on contract are not acceptable. "FUTURE" ITEMS, SUCH AS HARDWARE OR SOFTWARE THAT IS STILL IN DEVELOPMENT, TESTING, OR PROTOTYPE, ARE NOT ACCEPTABLE.
- 1.4 All purchases shall be in accordance with the terms and conditions of the applicable contract.
- 1.5 Consolidation Schedule (see also enclosed June 2016 Special Consolidation Schedule):
 - 1.5.1 July 14, 2016 – Cutoff for Vendor Questions; email questions to Reagan Criddle at Reagan.criddle@va.gov and Francine LaGrone at Francine.lagrone@va.gov.
 - 1.5.2 July 28, 2016 by 12:30 PM CST – Vendor quotes due to NAC, HTME Ordering Division
 - 1.5.3 August 25, 2016 – Goal for award by NAC, HTME Ordering Division

2.0 Offers

- 2.1 A requirements or purchase description is provided for each line item.
- 2.2 To be considered for award of any RFQ line item, you must submit a response to this RFQ.
- 2.3 Quotes must be good through September 30, 2016 or may be considered non-responsive.
- 2.4 Vendors shall quote their new equipment that meets or exceeds the technical and functional requirements of the requirements/purchase description.
- 2.5 Vendors are required to identify any known differences between the required configuration and the offered configuration.
- 2.6 Alternate offers are allowed for each line item.
- 2.7 Vendors are required to show individual product pricing for each product within a quote. Quotes that only reflect a bottom line price for a system, with no individual product prices, will be considered non-responsive and may be rejected.
- 2.8 If a requirements or purchase description states the item is an "upgrade", assume that it is a "forklift upgrade", i.e. the entire system is being replaced. In these instances, the items being replaced are to be used as a trade-in.

3.0 Multi-Unit Discounts

- 3.1 In addition to individual line item pricing, Vendors will provide a range of multi-unit discounts.
- 3.2 Multi-unit discounts shall be nationwide, and based on the total number of line items purchased from this RFQ.
- 3.3 Multi-unit discounts shall be applied by equipment modality for the entire consolidation.
- 3.4 Specific line items will not be singled out or specified as a condition of providing multi-unit discounts.
- 3.5 The vendor must clearly identify the amount of the additional discount and the basis for calculating that discount, such that the VA can independently calculate the final prices of all equipment.
- 3.6 Discounts may be offered from net line item pricing or from list price; vendor must clearly identify whether the discount is to be applied to list or net prices.
- 3.7 Vendors shall submit their multi-unit discounts in the following format:

Multi-unit Discount Structure Example
(Based on total number of awards)

Total Number of Awards for Consolidation	Modality	Additional Discount
2 - 10	X-RAY	3%
11 - 25	X-RAY	4%
26 - 40	X-RAY	5%
41 - 70	X-RAY	6%
71 - 100	X-RAY	7%
101 - 125	X-RAY	8%

4.0 Schedule of Requirements

- 4.1 THE OBLIGATION / PO NUMBERS WILL BE USED AS THE LINE ITEM NUMBERS

- 4.2.1 Offered equipment shall be equivalent in technology/functionality to the requirements or purchase descriptions contained in the applicable attachments.
- 4.2.2 The attachment number of the requirements or purchase description for each requisition will match its line item number from the "Schedule of Line Items". - 4.2.3 The net price quoted for a line item, if bought as a single system (the "one-each" price), shall not exceed its contract price.
- 4.2.4 The "one-each" price and the trade-in credit, if any, must be entered into the "Schedule of Line Items" spreadsheet.
- 4.2.5 The trade-in value shall be shown separately from the price of the equipment.

- 4.3.1 Vendors will use the attached "Vendor Workup" template to create a "Vendor Workup" spreadsheet for each quote.
- 4.3.2 Pricing by part number or catalog number for each offer will be shown on a "Vendor Workup" spreadsheet.
- 4.3.3 Each "Vendor Workup" spreadsheet will have the same filename as the respective offer but use the .xls or .xlsx filename extension.

- 4.3.4 Failure to provide the “Vendor Workup” spreadsheet for each quote shall disqualify your offer from consideration.
- 4.3.5 Alternative spreadsheets to the “Vendor Workups” will not be considered.
- 4.4 Review the enclosed VA Directive 6550 and respond accordingly. Note that the Appendix A of VA Directive 6550 has been updated.
- 4.5 Evaluation Factors
- 4.5.1 The evaluation factors are: 1) Availability of required features (Technical and Functional); 2) Availability of Service; 3) Vendor Past Performance; and **4) Delivery** and 5) Price
- 4.5.2 All non-price factors when combined are significantly more important than price.
- 4.5.3 Delivery: Vendors shall provide a plan to meet the required delivery dates outlined in the requirement specifications. Also, vendors shall provide the time frame anticipated for the turnkey to be completed for those orders where turnkey will be included at time of award.**
