Questions/Comments:

Good Afternoon, Vernon

Please provide specification and/or product information on door openers and access technology as discussed during the site visit. Please consider this an official RFI, since there was not a project RFI Form in the Solicitation package.

Best regards

Al Fenner - Cable Links Construction Group, Inc.

Submitted by: Al Fenner

Response:

The specification for the door openers is with the solicitation. The access control system is being replaced under a separate contract with Stanley Security, currently ~50% designed. Specifications can be provided by the contractor. See 30% design attached.

By responding to the RFI, we do not agree to any additional costs and/or time. Any additional cost and/or time shall be submitted in accordance with the requirements of the Contract Documents.

Date Answered: N/A
